Error in Half-Yearly Analyst Briefing Slide

Further to today's half-yearly analyst briefing, on Slide no. 4, footnote 1, the original footnote said:

'1 Performance fee calculated to 30 June – all global mandates. The FUM consists of PT Funds performance fee clients - \$574K and super mandates \$3bn. Currently small performance fee accrual.'

The figure \$574K should be amended to \$574mn.

Attached is an amended presentation pack that includes the corrected figure on the page titled "Funds Under Management".

PT Funds – monthly inflows and outflows

PT Funds – monthly net flows with AUD/USD overlay

- ¹ Surprisingly sluggish response by Australian retail investors to A\$ decline and movement to overseas equities.
- ² Strong Australian market has masked overseas opportunities.
- ³ The value of overseas investments will become more stark as Australian economy struggles and A\$ declines.

Initiatives

1. Distribution strategy – adviser and direct-to-consumer focus.

(35K PT funds reports mailed out to investors and advisers each quarter; expanding *The Journal* section of our website to video; national adviser and investor road shows; marketing strategies continue – recent events held with Morningstar and Eureka Report - access to direct audience/SMSF and FPA annual adviser congress.)

2. mFund (via ASX) – foundation member. Launched the 'Platinum Global Fund' in September 2014.

3. UCITS (Undertaking for Collective Investment in Transferable Securities) soon to launch.

4. Professional investor development continuing – but long lead times.

Balance sheet management

- Dividend - 17 cps fully franked.
- Special dividend of surplus cash given back to shareholders - 10 cps fully franked.

This is predicated on end-of-year buffer of around \$200mn.
This will be used to seed equity mandates.
May add to volatility – mark-to-market.
