Half Year Report

Listing Rule 4.3A

Company	Platinum Asia Investments Limited
ASX Code	PAI
Half-Year Ended	31 December 2016
Previous corresponding period: Half-Year Ended	31 December 2015
ABN	13 606 647 358

Results for Announcement to the Market

	% Movement	\$A'000
Total investment income	933%	18,064
Profit from ordinary activities after tax attributable to members	448%	10,252
Net profit for the period attributable to members	448%	10,252

Under Australian Accounting Standards, realised profits and losses are added to or reduced by changes in the market value of the Company's total assets. This can lead to large variations in reported profits.

Despite the strong increase in investment income and net profit, the Directors consider that the pre-tax Net Tangible Asset Backing per share (NTA), after fees and expenses, is a better measure of performance of the Company than reported profits. For the 6 months to 31 December 2016, the Company's pre-tax NTA, after fees and expenses, increased to 98.6 cents per share from 93.4 cents per share. This represents an increase of 5.59%, compared to the benchmark Morgan Stanley All Country Asia ex Japan Net Index (MSCI) in \$A terms which increased by 6.11%.

The performance of the Company to 31 December 2016 compared to the benchmark over 6 months, 12 months and since inception (September 2015) is shown in the table below:

Performance	6 months	12 months	Since Inception
PAI - pre-tax NTA after fees and expenses	5.59%	2.28%	0.64%
MSCI in \$A terms (Benchmark)	6.11%	5.94%	4.56%

The improvement in operating profit, NTA and performance reflects a recovery in the key sectors that make up half of the Company's portfolio (Financials, Information Technology and Consumer Discretionary), whilst on a geographic basis, our investments in China, Korea and India contributed strongly.

Dividends

No dividend has been paid or declared to the date of this Appendix 4D.

As outlined in the prospectus, the Board's intention is that all dividends paid to shareholders will be fully-franked.

The Company's ability to pay franked dividends is dependent on the Company paying income tax. The Company paid no income tax during the half-year.

The Company generated realised income of \$16,222,187 in the six months to 31 December 2016. The Company needs to generate a further \$5,366,281 of realised income before it will start paying tax and generate franking credits.

The Company transferred its 31 December 2016 interim profit after tax, which equates to 3.5 cps to the dividend profit reserve to enable fully-franked dividends to be paid in the future, when the Company builds up its pool of available franking credits.

Dividend Reinvestment Plan

The Company has a Dividend Reinvestment Plan in place, but it has not been activated.

Platinum Asia Investments Limited
Investment Structure, Objective and Methodology
31 December 2016

Investment Structure

Platinum Asia Investment Limited (the “Company”) is a listed investment company or “LIC”. It is listed on the Australian Securities Exchange (“ASX”) and shares in the Company can be bought or sold in the same way as shares in CBA or BHP. As a LIC, the Company:

- is closed to daily inflows and redemptions meaning the underlying portfolio can be managed without concern for the possibility of these unplanned investor cash movements;
- is taxed at source and distributes available profits to shareholders in the form of dividends, usually fully-franked; and
- has established a dividend profit reserve, which will ensure that any undistributed profits will not be netted against losses and will remain available for payment of future franked dividends.

Shares in the Company can trade at a premium or discount to its Net Tangible Asset Backing per share (“NTA”) which is calculated and announced to the ASX weekly and monthly.

The Company delegates the investment and administration functions to Platinum Investment Management Limited (trading as Platinum Asset Management) (the “Manager”) which employs a team of investment professionals and administration personnel.

Investment Objective

The key investment objective of the Company is to provide capital growth over a long-term through investing primarily in undervalued listed securities of companies in the Asian Region ex Japan across all industry sectors. The Company aims to achieve net returns over a five year plus investment horizon that are in excess of the MSCI All Country Asia ex Japan Net Index (\$A) return (“Benchmark”).

Investment Methodology

The Manager’s index agnostic investment process has been well tested over many years. The principles on which it is based have not varied since inception, although some refinements have evolved over time.

The Manager seeks a broad range of investments in the Asian Region ex Japan whose businesses and growth prospects, it believes, are being inappropriately valued by the market. After identifying key themes and preferred industries, with due consideration of the macro environment, the portfolio is then built up through individual stock selection. How the stock will fit and function within the portfolio is also carefully assessed.

By locating the research team in one location, the Manager facilitates the cross pollination of ideas and free flow of information between analysts with different geographic and industry responsibilities. It has the further benefit that distance acts as a filter enabling a more objective assessment of “noisy” markets. This process is well supported by extensive visits to companies.

The wealth of research and detailed analysis that leads to the addition/retention/reduction of a stock in the portfolio takes form in a disciplined reporting process that is open to the scrutiny of divergent thinking peers. This process serves to challenge and encourage analysts and to “test” investment decisions, as well as add accountability to the process. Implementation of investment decisions is also given detailed attention, as is the on-going review and monitoring of the portfolio.

Platinum Asia Investments Limited
Directors' Report
31 December 2016

The Directors present their report, together with the interim financial statements of Platinum Asia Investments Limited (the "Company") for the half-year ended 31 December 2016.

Directors

The following persons were Directors of the Company during the whole of the financial half-year and up to the date of this report:

Bruce Coleman – Chairman and Non-Executive Director
Ian Hunter – Independent, Non-Executive Director
Malcolm Halstead – Independent, Non-Executive Director

Company Secretary

Joanne Jefferies was appointed Company Secretary on 17 October 2016, replacing Mr Andrew Stannard who was the interim Company Secretary prior to Ms Jefferies appointment.

Principal Activities

The Company is a listed investment company that provides capital growth over the long-term, through investing primarily in listed securities of companies in the Asian Region ex Japan which are perceived by the Investment Manager to be undervalued.

Operating and Financial Review

For the half-year ended 31 December 2016, the operating profit for the Company after income tax expense was \$10,252,000 (31 December 2015: loss of \$2,948,000).

The operating profit for the Company before providing for income tax was \$15,433,000 (31 December 2015: loss of \$4,207,000). Income tax expense for the period was \$5,181,000 (31 December 2015: benefit of \$1,259,000).

The Directors consider that pre-tax Net Tangible Asset Backing per share (NTA), after fees and expenses, combined with the flow of dividends is a better measure of performance of the Company. For the 6 months to 31 December 2016, the Company's pre-tax NTA increased from \$0.93 per share to \$0.99 per share.

The improvement in operating profit, NTA and performance reflects a recovery in the key sectors that make up half of the Company's portfolio (Financials, Information Technology and Consumer Discretionary), whilst on a geographic basis, our investments in China, Korea and India contributed strongly.

For the 6 months ending 31 December 2016, the Company's net assets on a pre-tax basis, after fees and expenses, increased by 5.59%, compared to a gain of 6.11% for the benchmark Morgan Stanley Capital International All Country Asia ex Japan Net Index (MSCI) in \$A terms. The Company's 12 month pre-tax NTA return to 31 December 2016 was 2.28% compared to the MSCI 5.94%.

With respect to the future, the Investment Manager reports that: "There is a huge amount of activity happening in Asia, and our view is that the reform measures being pursued by policy-makers are generally encouraging. Notwithstanding short-term turbulences, companies in the region with sustainable, competitive positions are likely to prove worthwhile investments over the long run. Given that markets have adjusted, the starting valuation for some companies is looking quite attractive. We will continue to deploy PAI's capital when suitable opportunities arise."

Dividends

No dividend was declared or paid during the half-year or since balance date, up to the date of this report.

The Company's ability to pay fully-franked dividends is subject to the Company paying tax and building up its franking account balance. The profit after tax for the half-year ended 31 December 2016, which translates to 3.5 cents per share, was transferred to the dividend profit reserve in order to facilitate the payment of fully-franked dividends in the future.

The Company generated realised income of \$16,222,187 in the six months to 31 December 2016. The Company needs to generate a further \$5,366,281 of realised income before it will start paying tax and generate franking credits.

Platinum Asia Investments Limited
Directors' Report (continued)
31 December 2016

Exercise of Options

Shareholders who acquired shares in the Company under the Initial Public Offer received one option for every one share that was acquired. These options are exercisable at \$1.00 and shareholders have until 15 May 2017 to exercise these options. At 31 December 2016, 335,100 options had been exercised and 335,100 additional shares had been issued.

Rounding of amounts

The Company is of a kind referred to in ASIC Corporations (*Rounding in Financial/Directors' Reports*) Instrument 2016/191, issued by the Australian Securities and Investments Commission, relating to 'rounding-off'. Amounts in this report have been rounded off in accordance with that Instrument to the nearest thousand dollars, or in certain cases, the nearest dollar.

Auditor's independence declaration

A copy of the Auditor's independence declaration as required under section 307C of the *Corporations Act 2001* is set out on the following page.

This report is made in accordance with a resolution of Directors, pursuant to section 306(3)(a) of the *Corporations Act 2001*.

Platinum Asia Investments Limited
Notes to the financial statements
31 December 2016

Note 1 Summary of significant accounting policies

These financial statements for the interim reporting period ended 31 December 2016 have been prepared in accordance with Australian Accounting Standard AASB 134: *Interim Financial Reporting* and the *Corporations Act 2001*, as appropriate for for-profit oriented entities. Compliance with AASB 134 ensures compliance with International Financial Reporting Standard IAS 34: *Interim Financial Reporting*.

These financial statements for the half-year ended 31 December 2016 do not include all the notes of the type normally included in annual financial statements. Accordingly, these financial statements are to be read in conjunction with the annual report for the year ended 30 June 2016 and any public announcements made by the Company during the interim reporting period in accordance with the continuous disclosure requirements of the *Corporations Act 2001*.

The principal accounting policies adopted are consistent with those of the previous financial year and corresponding interim reporting period, unless otherwise stated.

New Accounting Standards and Interpretations not mandatory for the 31 December 2016 reporting period

Except as disclosed in the 30 June 2016 annual report, there are no new accounting standards, amendments or interpretations issued during the half-year that are not yet effective that are expected to have a material impact on the Company in the current or future reporting periods and on foreseeable future transactions.

Note 2. Recognition of deferred tax balances

In line with its existing accounting policy, the Company has exercised judgement in determining the extent of recognition of deferred tax balances. As at 31 December 2016, realised (taxable) losses carried forward from the previous year together with certain IPO costs have given rise to the recognition of a deferred tax asset (DTA) of \$561,000 (30 June 2016: \$5,593,000) which was comprised of the following balances:

	31 Dec 16	30 Jun 16
	\$'000	\$'000
Deferred tax asset impact on 30 June 2016 realised/(taxable) loss	1,610	6,090
Deferred tax asset impact on costs associated with the Initial Public Offer	1,114	1,870
Deferred tax asset impact on expense accruals	28	40
Deferred tax liability on dividends accrued	(5)	(134)
Deferred tax liability on investments	(2,186)	(2,273)
Deferred tax asset	561	5,593

The large reduction in the DTA balance is due to the fact that \$16,222,187 of realised taxable profits were generated in the first six months of the current year, making it highly probable that the remaining DTA balance will be recovered in future periods via further realised investment gains. The Company needs to generate a further \$5,366,281 of realised income before it will start paying tax and generate franking credits.

Note 5. Dividends

No dividend was declared between 31 December 2016 and the date of issue of this report.

The Company did not pay any tax instalments in the current half-year. As a result, as at 31 December 2016, the Company has no franking credits to distribute.

Note 6. Retained earnings

Retained earnings at the end of the half-year/year	<u>(9,049)</u>	<u>(9,049)</u>

The Directors passed a resolution that transferred the 31 December 2016 interim profit after income tax to the dividend profit reserve.

Note 7. Issued capital

In September 2015, the Company completed its Initial Public Offering ("IPO") and raised \$292,869,646 by the issue of 292,869,646 ordinary shares and 292,869,646 attached options for nil consideration exercisable at \$1.00 each on or before 15 May 2017.

The capital raised of \$292,869,646 must be allocated between the ordinary shares issued and the fair value of options at the date of issue, because shareholders received both shares and options as a result of participating in the IPO.

The fair value of the options, have been valued using the Black-Scholes model, and this has produced a valuation of 3.5 cents per option. Accordingly, the value attributable to each share is 96.5 cents per share.

Shares on issue as at 31 December 2016 (and 30 June 2016) was as follows:

Note 8. Reserves (continued)

(a) Option reserve

On 15 September 2015, the Company as part of the IPO issued 292,869,646 options to shareholders to acquire ordinary shares in the Company at an exercise price of \$1.00 on or before 15 May 2017. The options trade on the ASX under the ASX code PAIO.

Fair Value of Options Issued

The assessed fair value at issue date was 3.5 cents per option. The model inputs used to determine this fair value is set out below:

Input	Value
a. Exercise price	\$1
b. Life of option	20 months
c. Dividend Yield	5%
d. Volatility	20%
e. Risk-free rate	1.99%
f. Dilution factor	50%
g. Options uplift	2%

As the Company was listed in September 2016, there was no historical basis on which to base the assumed price volatility of the Company's options or shares. The assumed volatility is based on an analysis of comparable listed investment companies that invest in the Asian region.

The options fair value reserve entry at 31 December 2016 was 292,534,546 options outstanding multiplied by 3.5 cents per option = \$10,239,000.

Movements in options that are still outstanding and associated movement in the option reserve were as follows:

Note 8. Reserves (continued)

(b) Dividend profit reserve

The Company may set aside some or all of its profits to a separate dividend profit reserve, to facilitate the payment of future franked dividends, rather than maintaining these profits within retained earnings. Operating losses are not transferred to the dividend profit reserve.

Post-tax Net Tangible Asset Backing at 31 December 2016 was \$0.9860 per share (30 June 2016: \$0.9338).

* At 31 December 2016, financial assets and liabilities were valued at "last-sale" price for both ASX and financial accounts reporting. The difference at 31 December 2016 is mainly caused by the ASX requirement that realisation costs need to be deducted for the ASX reporting of NTA.

**At 31 December 2016, the post-tax NTA reported to the ASX was calculated on a full liquidation basis therefore any deferred tax asset in excess of the liquidation tax provision was not recognised.

Note 11. Fair value measurement

Fair value hierarchy

AASB 13: *Fair Value Measurement* requires the Company to classify those assets and liabilities measured at fair value using the following fair value hierarchy model (consistent with the hierarchy model applied to financial assets and liabilities at 30 June 2016):

Level 1: Quoted prices (unadjusted) in active markets for identical assets or liabilities that the entity can access at the measurement date.

Level 2: Inputs other than quoted prices included within Level 1 that are observable for the asset or liability, either directly or indirectly.

Level 3: Unobservable inputs for the asset or liability.

The Company recognises the following financial assets and liabilities at fair value on a recurring basis:

- (i) Equity securities, long equity swaps and long futures;
- (ii) Short equity swaps and short futures; and
- (iii) Foreign currency forward contracts.

The following table details the Company's assets and liabilities, measured or disclosed at fair value, using a three level hierarchy model as at 31 December 2016. The Company had no assets or liabilities that were classified as level 3.

31 Dec 16	Level 1 \$'000	Level 2 \$'000	Total \$'000
Assets			
Equity securities	204,122	24,686	228,808

	Level 1 \$'000	Level 2 \$'000	Total \$'000
Assets			
Equity securities	208,462	19,636	228,098
Derivatives	-	158	158
Foreign currency forward contracts	-	1,842	1,842
Total assets	208,462	21,636	230,098
Liabilities			
Derivatives	-	23	23
Foreign currency forward contracts	-	1,634	1,634
Total liabilities	-	1,657	1,657

All figures presented above can be reconciled to Note 3 or Note 4 and the statement of financial position.

The Company's policy is to recognise transfers into and transfers out of fair value hierarchy levels as at the end of the reporting period. There were no transfers from level 1 to level 2 for any assets or liabilities measured at fair value during the period.

Platinum Asia Investments Limited
Notes to the financial statements

Note 11. Fair value measurement (continued)

Rationale for classification of assets and liabilities as level 1

At 31 December 2016, 89% of the equity securities held by the Company were valued using unadjusted quoted prices in active markets and were classified as Level 1 in the fair-value hierarchy model.

Rationale for classification of assets and liabilities as level 2

There were certain financial instruments that were classified as level 2, because a degree of adjustment has been made to the quoted price i.e., whilst all significant inputs required for fair value measurement are observable and quoted in an active market, there was a degree of estimation involved in deriving the fair value. Examples include:

- (i) foreign currency forward contracts were classified as level 2 even though forward points were quoted in an active and liquid market. The forward points themselves were based on interest rate differentials;
- (ii) P-Notes were classified as level 2 because they were generally traded Over-The-Counter and were often priced in a different currency to the underlying security;
- (iii) Over-The-Counter (OTC) equity swap contracts were classified as level 2 because the swap contract itself was not listed and therefore there was no directly observable market price; or the price is sourced from the relevant counterparty, even though the price (and in the case of options, the relevant delta) could be verified directly from Bloomberg or verified using option pricing models; and
- (iv) certain index derivatives were classified as level 2 because the Company may agree with the counterparty to include or exclude one or more securities that make up the “basket” of securities that comprise the index derivative. Hence, the quoted price of the index derivative would be very similar, but not identical to the index derivative that the Company held.

Note 12. Investment Manager

The Investment Manager, receives a monthly management fee for investment services provided in accordance with the Investment Management Agreement. This Agreement provides for a management fee payable monthly and calculated at 1.1% per annum of the adjusted portfolio value (which includes cash and deposits).

In the event of termination, the Investment Manager will be paid a 1.1% lump sum termination fee.

A performance fee is payable at 15%, at 30 June 2017, of the amount by which the portfolio's annual performance exceeds the return achieved by the MSCI (MSCI is the Morgan Stanley Capital International All Country Asia ex Japan Net Index in A\$). Where the portfolio's annual performance is less than the MSCI, the amount of the underperformance is aggregated, carried forward and deducted from the annual performance in the subsequent year before calculating any performance fee for that year. The aggregate of underperformance is carried forward until a performance fee becomes payable.

At 31 December 2016, pre-tax performance of the portfolio was 5.55% and the corresponding MSCI 6.11%. This represents an underperformance of 0.56% against the MSCI in the current half-year. The brought forward prior year underperformance from 30 June 2016 was 4.14% and this means that total aggregate underperformance of 4.70% needs to be recovered before a performance fee will be paid.

Management fees paid and payable for the half-year ended 31 December 2016 is shown below:

	31 Dec 16	31 Dec 15
	\$'000	\$'000
Management fee	1,600	922

Management fees increased because in the prior year, management fees were only paid from the date that the Company commenced trading in September 2015, which was a period of three and a half months up to 31 December 2015.

Independent auditor's review report to the members of Platinum Asia Investments Limited

Report on the Half-Year Financial Report

We have reviewed the accompanying half-year financial report of Platinum Asia Investments Limited (the company), which comprises the statement of financial position as at 31 December 2016, the statement of comprehensive income, statement of changes in equity and statement of cash flows for the half-year ended on that date, selected explanatory notes and the directors' declaration.

Directors' responsibility for the half-year financial report

The directors of the company are responsible for the preparation of the half-year financial report that gives a true and fair view in accordance with Australian Accounting Standards and the *Corporations Act 2001* and for such internal control as the directors determine is necessary to enable the preparation of the half-year financial report that is free from material misstatement whether due to fraud or error.

Auditor's responsibility

Our responsibility is to express a conclusion on the half-year financial report based on our review. We conducted our review in accordance with Australian Auditing Standard on Review Engagements ASRE 2410 *Review of a Financial Report Performed by the Independent Auditor of the Entity*, in order to state whether, on the basis of the procedures described, we have become aware of any matter that makes us believe that the half-year financial report is not in accordance with the *Corporations Act 2001* including giving a true and fair view of the entity's financial position as at 31 December 2016 and its performance for the half-year ended on that date; and complying with Accounting Standard AASB 134 *Interim Financial Reporting* and the *Corporations Regulations 2001*. As the auditor of Platinum Asia Investments Limited, ASRE 2410 requires that we comply with the ethical requirements relevant to the audit of the annual financial report.

A review of a half-year financial report consists of making enquiries, primarily of persons responsible for financial and accounting matters, and applying analytical and other review procedures. A review is substantially less in scope than an audit conducted in accordance with Australian Auditing Standards and consequently does not enable us to obtain assurance that we would become aware of all significant matters that might be identified in an audit. Accordingly, we do not express an audit opinion.

Independence

In conducting our review, we have complied with the independence requirements of the *Corporations Act 2001*.

Conclusion

Based on our review, which is not an audit, we have not become aware of any matter that makes us believe that the half-year financial report of Platinum Asia Investments Limited is not in accordance with the *Corporations Act 2001* including:

1. giving a true and fair view of the entity's financial position as at 31 December 2016 and of its performance for the half-year ended on that date;
