The unaudited pre and post-tax net tangible assets (NTA) of Platinum Asia Investments Limited (“PAI”) as at 29 February 2016 was \$0.88 per share (31 January 2016: \$0.92).

The NTA was calculated on a liquidation basis using the last sale price to value investments. As the calculation has been prepared on a full liquidation basis, any deferred tax asset in excess of the liquidation tax provision has consequently not been recognised. In addition, the NTA figures do not include the effect of any dilution that would arise from the conversion of any unexercised options.

At 29 February 2016, the PAI share price was \$0.945 and the options price (“PAIO”) was \$0.04.
