

## Appendix 4E Preliminary final report

### Listing Rule 4.3A

<b>Company</b>	<b>Platinum Asia Investments Limited</b>
ASX Code	PAI
Year ended	30 June 2020
Previous corresponding year ended	30 June 2019
ABN	13 606 647 358

This announcement to the market should be read in conjunction with the 30 June 2020 annual financial report.

	% Movement	\$A'000
Total investment income	918%	63,942
Profit from ordinary activities after tax attributable to members	large	38,608
Net profit for the period attributable to members	large	38,608

Under Australian Accounting Standards, realised profits and losses are added to, or reduced by, changes in the market value of the Company's total assets. This can lead to large variations in recorded statutory profits or losses from any one year to the next.

The Directors consider that the pre-tax net tangible asset backing per share, after the deduction of fees and expenses, adjusted for corporate taxes paid, and any capital flows and assuming the reinvestment of dividends ("pre-tax NTA"), is a better measure of performance of the Company than the reported profits or losses. This is because the pre-tax NTA is the most accurate way to assess the investment performance of the Company's investment portfolio. For the 12 months to 30 June 2020, the Company's pre-tax NTA increased from \$1.08 per share to \$1.17 per share. This is after the payment of 4 cents per share in dividends and the equivalent of 3 cents per share in taxes paid during the financial year.

The Company's compound annualised return to 30 June 2020 (measured by its pre-tax NTA) compared to the benchmark over 1 year, 3 years and since inception (September 2015), is shown in the table on the next page:

Performance	1 year	3 years (compound p.a.)	Since inception (compound p.a.)
PAI	14.6%	10.7%	9.7%
MSCI All Country Asia ex Japan Net Index in \$A <sup>1</sup>	3.6%	7.4%	9.2%
<b>Outperformance</b>	<b>11.0%</b>	<b>3.3%</b>	<b>0.5%</b>

Source: Platinum Investment Management Limited (PAI returns) and FactSet Research Systems (MSCI returns). Returns have not been calculated using the Company's share price. **Past performance is not a reliable indicator of future performance.**

The Investment Manager commented that *"the Company's investment portfolio was well positioned for a market recovery after weathering the steep sell-off earlier in the year. With COVID-19, lockdowns, rising geopolitical tensions and protests in different parts of the world, prospects look rather grim. However, it is in these times that attractive investment opportunities emerge. Having reduced our market exposure to sidestep the bulk of the stock market turbulence in the first calendar quarter of 2020, the Company shifted its focus to identifying prospective investment opportunities that had seen their valuations slashed given the overwhelming fear that gripped the market."*

## Dividends

A summary of the key features of the dividend declared by the Board are summarised in the table below.

Final dividend declared	3 cents per share fully-franked
Ex-dividend date	26 August 2020
Record date	27 August 2020
The last date for receipt of election notices for the dividend reinvestment plan	28 August 2020
Payment date	16 September 2020

The total of the interim and final dividend for the year is 5 cents per share.

The Company's ability to pay franked dividends is dependent on the Company paying income tax. At 18 August 2020, after allowing for the 2020 fully-franked final dividend of 3 cents per share, the Company has an ability to pay fully-franked dividends of up to 4.41 cents per share. The Board has a policy of dividend smoothing and endeavours to ensure that there are sufficient franking credits available to pay fully-franked dividends in the future.

### Dividend Reinvestment Plan

The Dividend Reinvestment Plan ('DRP') is in operation and the final dividend of 3 cents per share qualifies. Participating shareholders will be entitled to be allotted the number of shares (rounded down to the nearest whole number) which the cash dividend would otherwise purchase at the relevant issue price.

The relevant issue price will be the volume-weighted average share price of the Company's shares sold on the ASX over the five business days subsequent to the date on which the Company's shares cease to trade cum-dividend. No DRP discount will apply to this dividend.

The terms and conditions of the DRP rules can be accessed at the Company's website at:

[https://www.platinum.com.au/PlatinumSite/media/ASX-Releases/pai\\_drp\\_1.pdf](https://www.platinum.com.au/PlatinumSite/media/ASX-Releases/pai_drp_1.pdf)

### Further information

- Refer to the attached audited financial statements for financial data on the Company.
- Refer to the attached Chairperson's Report.

Joanne Jefferies  
Company Secretary

## PLATINUM ASIA INVESTMENTS LIMITED

### Chairperson's Report 2020

#### Summary

Platinum Asia Investment Limited's ("PAI" or the "Company") investment return was 14.6% for the 12 months ended 30 June 2020, as measured by its pre-tax net tangible asset backing per share. This investment return is very pleasing, in both an absolute sense and when compared to the 3.6% return for the MSCI Asia ex Japan Net Index in A\$ terms ("Index") during the same period. The Company's net profit after tax was \$38.6 million (2019: loss of \$0.2 million).

The 2020 financial year can be broken down into three distinct investment performance periods, as follows:

- **The eight month period from 1 July 2019 to 29 February 2020**, during which the Company's investment return of 8.3% compared favourably to the Index return of 7.8%.
- **The month of March 2020**, during which the Company's investment return was negative 1.2%. There was a steep sell-off in markets, resulting in an Index return of negative 7.4%. Actions taken to protect the portfolio during a highly volatile period, including shorts on stock market indices and higher cash holdings, helped the Company's investment performance.
- **The three month period from 1 April 2020 to 30 June 2020**, during which the Company's investment return of 7.0% exceeded the Index return of 3.7%. The Company's investment portfolio was well positioned for the market recovery during this period.

The Company declared a fully-franked final dividend of 3 cents per share, bringing the total dividends declared for the 2020 financial year to 5 cents per share. This represents a dividend yield of 4.95% based on the closing share price as at 30 June 2020 or 4.27% based on the pre-tax net tangible asset backing per share at 30 June 2020.

# PLATINUM ASIA INVESTMENTS LIMITED

## Chairperson's Report 2020

### Investment Performance

As mentioned, for the 12 months to 30 June 2020 the Company delivered a return of 14.6% (measured by its pre-tax net tangible assets ("pre-tax NTA") i.e. the combined capital and income return of the Company's investments after the deduction of fees and expenses, adjusted for corporate taxes paid and any capital flows and assuming the reinvestment of all dividends). This is compared to the MSCI Asia ex Japan Net Index in A\$ terms, which delivered a positive return of 3.6%<sup>1</sup> for the same period.

Since inception (in September 2015) to 30 June 2020, the Company's annualised compound return (measured by the Company's pre-tax NTA) was 9.7% per annum, compared with an annualised compound return of 9.2% for the Index for the same period.

The Investment Manager noted that "After the share price declines in March 2020, Asian markets were trading on a significant discount versus their average long-term valuations for very well understood reasons. It would have been remiss not to take advantage. Accordingly, we added to new and existing positions that were on offer at mouth-watering valuations. These are strong businesses backed by good management and healthy balance sheets that we believe will do well upon reopening and over the longer term, irrespective of geopolitical tensions."

### PAI's Pre-Tax Net Tangible Asset (NTA) Return (%) versus Index Return<sup>1</sup> to 30 June 2020 (%)

Source: Platinum Investment Management Limited (PAI returns) and FactSet Research Systems (MSCI returns). Returns have not been calculated using the Company's share price. **Past performance is not a reliable indicator of future performance.**

## PLATINUM ASIA INVESTMENTS LIMITED

### Chairperson's Report 2020

It is disappointing to note that the Company's shares, which have traded at a premium to pre-tax NTA, are now trading at a discount to pre-tax NTA. This has resulted in a lower total shareholder return of 1.94% over the year compared to the pre-tax NTA return of 14.6%. The significant factors for the widening of discount to pre-tax NTA across the broader Listed Investment Company (LIC) market, are the greater investor uncertainty due to COVID-19 and geopolitical tensions. In our opinion a deviation from the underlying asset value as encompassed in the pre-tax NTA is not rational. The Board is continually looking at ways to improve this for shareholders through capital management tools and to this end, announced a buy-back program in 8 April 2020. No shares have been bought-back as at 30 June 2020.

However, the share price discount does present an opportunity for investors to buy shares at a price which is lower than the intrinsic value of the Company's investment portfolio.

#### **Statutory Accounts**

For the financial year ended 30 June 2020, the Company made a statutory pre-tax operating profit of \$55.3 million and a post-tax operating profit of \$38.6 million.

Under Australian Accounting Standards, realised profits and losses are added to, or reduced by unrealised changes in the market value of the Company's total assets. This can lead to large variations in recorded statutory profits or losses from any one year to the next.

The Board maintains that a more appropriate measure of the Company's performance is the percentage change in its pre-tax NTA (i.e. after the deduction of fees and expenses, adjusted for corporate taxes paid and any capital flows, and assuming the reinvestment of all dividends). On this measure, the Company's return was 14.6% for the 12 months to 30 June 2020.

To keep shareholders fully informed, PAI releases weekly and monthly calculations of its net tangible asset backing per share to the ASX. Platinum publishes monthly investment performance updates and quarterly investment reports to shareholders.

#### **Dividends**

The Company declared a 2020 fully-franked final dividend of 3 cents per share, bringing the total dividends declared for the 2020 financial year to 5 cents per share. This represented a dividend yield of 4.95% based on the 30 June 2020 closing share price of \$1.01.

The Company's ability to pay franked dividends is dependent on the Company paying income tax. At 18 August 2020, after allowing for the 2020 fully-franked final dividend of 3 cents per share, the Company has an ability to pay fully-franked dividends of up to 4.41 cents per share. The Board has a policy of dividend smoothing and endeavours to ensure that there are sufficient franking credits available to pay fully-franked dividends in the future.

To the extent that any profits are not distributed as dividends, the Board may set aside some or all of the Company's undistributed profits to a separate dividend profit reserve to facilitate the payment of future fully-franked dividends, subject to the balance of the franking account. The ability to manage the level of fully-franked dividend payments over time is a key strength of the listed investment company structure.

The Company's Dividend Reinvestment Plan ("DRP") provides shareholders with the option to receive some or all of their future dividends as ordinary shares in the Company instead of cash. The relevant issue price will be the volume-weighted average share price of the Company's shares sold on the ASX over the five business days subsequent to the date on which the Company's shares cease to trade cum-dividend. No discount will apply to the DRP issue price.

# PLATINUM ASIA INVESTMENTS LIMITED

## Chairperson's Report 2020

### Capital Management

The Company did not engage in any capital raising activities during the financial year.

On 8 April 2020, the Company announced an on-market share buy-back for up to 10 per cent of PAI's issued share capital to be implemented over a period of up to 12 months. The objective of the share buy-back is capital management. No shares have been bought-back as at 30 June 2020, but the Board continues to monitor this.

Like other listed investment companies, at any time the Company's shares may trade on the ASX at a premium or discount to the pre-tax NTA. The share price is largely determined by the activity of buyers and sellers on the ASX. The Board actively monitors the premium or discount and considers ways to manage these should they become extreme.

### Other Corporate Governance Matters

The Company's investments are managed and administered by Platinum Investment Management Limited ("Platinum") through two key agreements previously approved by shareholders: the Investment Management Agreement and the Administration Agreement.

During the financial year ending 30 June 2020 the Board commissioned an independent external legal review of both agreements. This review resulted in a number of amendments being made to those agreements, all of which benefitted shareholders. Of particular note was the change to the circumstances under which a termination fee is payable to Platinum under the Investment Management Agreement. Previously, a termination fee was payable to Platinum upon termination of the Investment Management Agreement, post the initial ten year term, by either party, whether for cause or for convenience. The Investment Management Agreement has since been amended such that the termination fee will only be payable to Platinum in circumstances where the Company terminates the Investment Management Agreement after the initial ten-year term, for convenience.

Throughout the course of the year there were a number of additional Board meetings held to consider important legal, regulatory and good governance practices in a timely manner. The most significant amongst these covered:

- adopting a new Whistleblower Protections Policy,
- performing an initial review of the Company's non-financial risk practices, following publication of the report from ASIC's Corporate Governance Taskforce on Director and Officer Oversight of Non-financial risk, and
- adopting a new risk appetite statement, risk metrics and Board skills matrix.

The Board met with the Investment Manager, during the Australia-wide stage 3 lockdown as a consequence of COVID-19 in April 2020 to understand their management of investment and operational risks. Pleasingly, the Investment Manager's investment and business functions remained fully operational during the lockdown and continue to do so.

Lastly, the Board continued to monitor the performance of Platinum and its adherence to the investment management and administration agreements with the full and transparent co-operation of Platinum's management team.

Accordingly, I am confident in the integrity and reporting of the Company's financial results to shareholders.

# PLATINUM ASIA INVESTMENTS LIMITED

## Chairperson's Report 2020

### **Outlook for 2020-2021**

As highlighted recently by the Investment Manager, *"Starting valuations are a key determinant of future returns. Asian stocks are currently trading on low valuations versus their long-term averages and economic prospects for the region are favourable.*

*Our bottom-up process is hard at work, generating numerous prospective ideas. It is an exciting time for investors like us, as attractive valuations coincide with significant capacity for further policy stimulus in Asia.*

*PAI will continue to deploy capital in attractive and strong businesses that are under-appreciated by the markets."*

### **Annual General Meeting (AGM)**

My fellow Directors and the Investment Manager are pleased to invite you to the Company's Annual General Meeting on 27 October 2020.

Due to COVID-19 and the related health concerns, the Company's AGM will be held live through an online platform where you can attend and participate in the AGM. The AGM Notice, including details on how to join the meeting, will be dispatched to shareholders in the coming weeks.

### **Finally**

On behalf of the Board, I wish to express our appreciation of the excellent work done by Dr Joseph Lai and Platinum's investment team over the last year and I thank Andrew Clifford and the broader team at Platinum.

Finally, on behalf of the Board, I thank shareholders for their support.

Margaret Towers

The Annual General Meeting of Platinum Asia Investments Limited will be held through an online platform at 10am on Wednesday 27 October 2020. Details of how to join the meeting will be included in the AGM Notice.

**Questions for the AGM**

If you would like to submit a question prior to the AGM to be addressed at the AGM you may e-mail your question to [invest@platinum.com.au](mailto:invest@platinum.com.au).

**Platinum Asia Investments Limited**  
**Investment Structure, Objectives and Methodology**  
**30 June 2020**

**Investment Structure**

Platinum Asia Investments Limited (the “Company”) is a listed investment company or “LIC”, whose shares are listed on the Australian Securities Exchange (“ASX”) and traded in the same way as other listed shares. Being a LIC, the Company:

- is closed-ended, which means that the underlying portfolio can be managed without concern for fluctuating cashflows;
- is taxed at source and can therefore distribute any available profits to shareholders in the form of dividends, usually fully-franked (depending on the availability of franking credits); and
- has established a dividend profit reserve, which provides the possibility for the smoothing of dividends from year to year, at the discretion of the Board.

Shares in the Company can trade at a premium or discount to their net tangible asset backing per share (“NTA”), which is calculated and announced to the ASX weekly and monthly.

The Company delegates its investment management and administration functions to Platinum Investment Management Limited (trading as Platinum Asset Management) (the “Investment Manager”), which employs a team of experienced investment professionals and administration personnel to perform those services. The Company and the Investment Manager are separate legal entities.

**Investment Objective**

The investment objective of the Company is to provide capital growth over the long-term through investing primarily in undervalued listed securities of companies in the Asian Region ex Japan across sectors. In doing so, the Company aims to achieve net returns over a five year plus investment horizon that are in excess of the MSCI All Country Asia ex Japan Net Index (in A\$).

**Investment Methodology**

The Investment Manager’s index-agnostic investment approach has been well tested over many years through its management of the unlisted Platinum Trust® managed funds, which includes the Platinum Asia Fund. The principles on which its investment approach is based have not varied, although the investment process has evolved and been refined over time.

The Investment Manager seeks to invest in companies in the Asian Region ex Japan whose businesses and growth prospects are, in its view, inappropriately valued by the market. Just as optimism and pessimism ebb and flow in stock markets, similar sentiments also affect individual companies. This means that transitory events often have a disproportionate effect on the share prices of companies, be they positive or negative, and there is thus a tendency for share prices to deviate significantly from their inherent trend line. The Investment Manager’s investment methodology seeks to identify and take advantage of the opportunities created by the divergence between a company’s share price and its intrinsic value.

The Investment Manager uses various methodologies to make sense of the universe of stocks around the Asian Region ex Japan, including using both quantitative and qualitative screening to short-list companies for in-depth study. After identifying key themes and preferred industries, with due consideration of the macro environment, the portfolio is then built up through a series of individual stock selections based on detailed fundamental research. Care is taken to understand and monitor the inter-relationship of stocks within the portfolio.

The Investment Manager’s investment team is based in Sydney, Australia. Having a single location facilitates the cross pollination of ideas and free flow of information between analysts with different geographic and industry responsibilities. It has the further benefit that distance acts as a filter, enabling a more objective assessment of “noisy” markets. The research process, however, is well supported by extensive visits to companies.

**Platinum Asia Investments Limited**  
**Investment Structure, Objectives and Methodology**  
**30 June 2020**

**Investment Methodology (continued)**

The wealth of research and detailed analysis that leads to the addition/retention/reduction of a stock in the portfolio takes form in a disciplined process that is subject to the scrutiny of divergent thinking peers. This process serves to challenge and encourage analysts and to “test” investment theses, as well as add accountability to the process.

**Managing Currency Exposures**

Equity investments in the Asian Region ex Japan create an exposure to foreign currency fluctuations, which can change the value of the equity investments when measured in the reporting currency of the Company’s portfolio, which is the Australian dollar. It is part of the Company’s investment strategy to assess the potential returns and risks created by currency exposures and to seek to position the portfolio with the aim of capturing those returns while minimising those risks. Currency exposures in the portfolio are actively managed by the Investment Manager.

The Investment Manager may manage the currency exposures of the Company’s portfolio using foreign currency forward contracts, currency swaps, non-deliverable forwards and currency options, as well as spot foreign exchange trades.

**Strategies Aimed at Mitigating Losses and Delivering Solid Absolute Returns**

While generating capital growth over the long-term is the Company’s primary objective, the Investment Manager also seeks to mitigate the risk of capital losses and employs a variety of strategies with the aim of achieving this.

Strategies aimed at mitigating capital losses include adjusting cash levels, deploying funds from overvalued to undervalued stocks and short selling (usually through equity derivatives).

Timing the implementation of these strategies is always challenging and, though the rewards can be gratifying, patience is often required. The nature of markets means it can take some time for inappropriately valued regions, industry sectors or individual stocks to become more widely recognised and to revert to prices close to their inherent values.

**Platinum Asia Investments Limited**  
**Directors' Report**  
**30 June 2020**

In respect of the year ended 30 June 2020, the Directors of Platinum Asia Investments Limited ("PAI" or "the Company") submit the following report prepared in accordance with a resolution of the Directors.

**Directors**

The following persons were Directors of the Company during the financial year and up to the date of this report:

Margaret Towers	Chairperson and Independent Non-Executive Director
Ian Hunter	Independent Non-Executive Director
Malcolm Halstead	Independent Non-Executive Director

**Principal Activities**

The Company is a listed investment company established to provide capital growth over the long-term through investing primarily in listed securities of companies in the Asian Region ex Japan that are perceived, by the Investment Manager, to be undervalued. This includes companies listed on securities exchanges outside the Asian Region ex Japan, but whose business is predominantly conducted in or focused on the Asian Region ex Japan. The Company's capital management strategy includes managing the level of dividends over time. There were no significant changes in the nature of the Company's activities during the year.

**Operating and Financial Review**

The operating profit before income tax of the Company for the year ended 30 June 2020 was \$55,278,000 (2019: loss of \$268,000). The income tax expense for the year was \$16,670,000 (2019: income tax benefit of \$110,000). For the year ended 30 June 2020, the operating profit for the Company after income tax was \$38,608,000 (2019: loss of \$158,000). The Directors have declared a fully-franked final dividend of 3 cents per share, which represents an annual cash dividend yield of 4.95% and a grossed-up dividend yield of approximately 7.07% based on the 30 June 2020 share price. After the payment of this dividend, the Company retains approximately 4.41 cents per share in franked dividend capacity to assist in the payment of future dividends.

For the 12 months ended 30 June 2020, the Company delivered a return of 14.6%<sup>1</sup> (measured by its pre-tax NTA), compared to a return of 3.6% for the benchmark, the Morgan Stanley Capital International All Country Asia ex Japan Net Index (MSCI) in \$A terms.

The Directors consider that the pre-tax NTA, which is calculated after the deduction of fees and expenses, adjusted for corporate taxes paid and any capital flows, and assumes the reinvestment of dividends ("pre-tax NTA"), is a better measure of performance of the Company than its reported profits. This is because the pre-tax NTA is the most accurate way to assess the investment performance of the Company's investment portfolio. For the 12 months to 30 June 2020, the Company's pre-tax NTA increased from \$1.08 to \$1.17. This is after the payment of 4 cents per share in dividends and the equivalent of 3 cents per share in taxes paid during the financial year.

Total Shareholder Return ("TSR") for the financial year, based on share price appreciation and dividends paid, between 1 July 2019 and 30 June 2020, was 1.94%. The TSR is less than the pre-tax NTA return of 14.6% primarily due to the share price being below the pre-tax NTA at 30 June 2020.

The Investment Manager commented that *"...the Company's investment portfolio was well positioned for a market recovery after weathering the steep sell-off earlier in the year. With COVID-19, lockdowns, rising geopolitical tensions and protests in different parts of the world, prospects look rather grim. However, it is in these times that attractive investment opportunities emerge. Having reduced our market exposure to sidestep the bulk of the stock market turbulence in the first calendar quarter of 2020, the Company shifted its focus to identifying prospective investment opportunities that had seen their valuations slashed given the overwhelming fear that gripped the market."*

**Platinum Asia Investments Limited**  
**Directors' Report**  
**30 June 2020**

In terms of outlook, the Investment Manager has recently noted that:

*“Starting valuations are a key determinant of future returns. Asian stocks are currently trading on low valuations versus their long-term averages and news headlines can be worrisome.*

*Economic prospects for the region are, however, favourable. The lack of stimulatory policies implemented thus far has given many countries in the region room to enact policy stimulus if needed. The reversal of lockdowns is kickstarting economic activities from depressed levels across the region as people return to shops and back to work. Development of a vaccine appears to be progressing. Given lacklustre growth globally, monetary and fiscal policies are likely to remain loose, which is supportive of stock markets. The Company will continue to deploy capital in attractive and strong businesses that continue to be under-appreciated by the markets”*

During the course of the year, discussions have been held with the Investment Manager on their management of the investment portfolio and operations in relation to COVID-19. The Investment Manager noted that COVID-19 may continue to adversely affect the global economy, the economies of certain nations and individual issuers, all of which may impact on investment performance. The Investment Manager has implemented measures to maintain the ongoing safety and well-being of employees including allowing employees to work from home. COVID-19 has not had a direct impact on the ability of the Investment Manager to perform business activities.

The Company has not received any COVID-19 related financial assistance or support.

#### **Dividends**

On 18 August 2020, the Directors declared a 2020 fully-franked final dividend of 3 cents per share (\$10,913,000), with a record date of 27 August 2020, payable to shareholders on 16 September 2020, out of the dividend profit reserve. This brings the total dividend for the year to 5 cents, which represents a yield of 4.95% based on 30 June share price. After the declaration of the 2020 final dividend, the balance in the dividend profit reserve is \$57,028,000, which translates to 15.68 cents per share, based on the shares on issue at the date of this report.

The Company's ability to pay franked dividends is dependent on the Company paying income tax. At 18 August 2020, after allowing for the 2020 fully-franked final dividend of 3 cents per share, the Company has an ability to pay fully-franked dividends of up to 4.41 cents per share. The Board has a policy of dividend smoothing and endeavours to ensure that there are sufficient franking credits available to pay fully-franked dividends in the future.

The Dividend Reinvestment Plan (“DRP”) is in operation. Participating shareholders will be entitled to be allotted the number of shares (rounded down to the nearest whole number) which the cash dividend would purchase at the relevant issue price.

The relevant issue price will be the volume-weighted average share price of the Company's shares sold on the ASX over the five business days subsequent to the date on which the Company's shares cease to trade cum-dividend. No discount will apply to the DRP price.

#### **Capital Management**

The Board regularly and actively reviews the most efficient manner by which the Company manages its capital, in response to changing market conditions and risks, with the sole aim of enhancing shareholder value, through:

- the management of the level of dividends to shareholders;
- the issue of shares by methods such as rights offers, share purchase plans and/or placements; or
- the use of share buy-backs.

The Company announced a buy back scheme on 8 April 2020. This allows the Company to buy back up to 10% of the issued share of the company within a 12 month period.

#### **Matters Subsequent to the End of the Financial Year**

Apart from the dividend declared, no matter or circumstance has arisen since 30 June 2020 that has significantly affected, or may significantly affect the Company's operations, the results of those operations, or the Company's state of affairs in future financial years.

**Platinum Asia Investments Limited**  
**Directors' Report**  
**30 June 2020**

**Likely Developments and Expected Results of Operations**

The Company will continue to pursue its investment objective, which is to provide capital growth over the long-term through investing primarily in undervalued listed securities of companies in the Asian Region ex Japan across sectors. The methods of operating the Company are not expected to change in the foreseeable future.

**Environmental Regulation**

The Company is not adversely impacted by any particular or significant environmental regulation under Commonwealth, State or Territory laws.

**Managing Tax Risk**

The Board is committed to acting with integrity and transparency in all tax matters. The Company aims to meet all of its obligations under the law and pay the appropriate amount of tax to the relevant authorities. The Company has established a Tax Risk Management and Governance Policy, which ensures an adequate framework is in place to allow for the effective management of tax risks in an appropriate and consistent manner. The policy describes the Company's approach to managing tax risk including responsibilities, key controls and reporting mechanisms.

**Information on Directors**

**Margaret Towers CA, GAICD**

Chairperson, Independent Non-Executive Director and member of the Audit, Risk and Compliance Committee since 31 March 2018.

Ms Towers has over 37 years of experience operating at board and senior management levels, within the wealth management and investment banking sectors of the Australian financial services industry. Ms Towers is a non-executive director of IMB Limited and is Chairperson of Platinum Capital Limited. Ms Towers has also previously been a non-executive director of Platinum Asset Management Limited (ASX code: PTM), chair of PTM's Audit, Risk and Compliance Committee and a member of PTM's Nomination and Remuneration Committee.

**Ian Hunter BA, LLB, MBA**

Independent Non-Executive Director since 24 June 2015 and Chair of the Audit, Risk and Compliance Committee since 23 July 2015.

Mr Hunter has been in the finance and investment industry since 1975. Mr Hunter worked at several banks, most recently as a director and executive Vice President of Bankers Trust Australia. Mr Hunter has held various directorships of listed companies, including Etrade Australia Limited and Rubik Financial Limited. Mr Hunter is a director of Ironbark Capital Limited.

**Malcolm Halstead FCA**

Independent Non-Executive Director since 24 June 2015 and member of the Audit, Risk and Compliance Committee since 23 July 2015.

Mr Halstead has worked in the finance and investment industry since 1982. Mr Halstead worked at Price Waterhouse and Bankers Trust Australia prior to joining Platinum Asset Management as a founding member and director in 1994. Mr Halstead was the finance director and company secretary of Platinum Capital Limited from 1994 to 2011 and finance director and company secretary of Platinum Asset Management Limited (PTM) from 2007 to 2011.

**Platinum Asia Investments Limited**  
**Directors' Report**  
**30 June 2020**

**Information on Company Secretary**

**Joanne Jefferies** BCom, LLB  
 Company Secretary since 17 October 2016.

Ms Jefferies is an English law qualified solicitor with more than 23 years of legal experience in the asset management and securities services sectors, in England and across Asia Pacific.

Ms Jefferies joined Platinum in October 2016 as General Counsel and Group Company Secretary, having spent the previous six years at BNP Paribas Securities Services as Head of Legal Asia Pacific, Company Secretary for all Australian subsidiaries and a member of the Asia Pacific Executive Committee. Ms Jefferies has previously held senior legal positions with Russell Investments, Morley Funds Management (Aviva Investors) and Lord Abbett, and served as the General Counsel for the UK's funds management industry association, the Investment Association. Ms Jefferies is also Company Secretary of Platinum Capital Limited and Platinum Asset Management Limited.

**Meetings of Directors**

The number of meetings of the Company's Board of Directors (the "Board") held during the year ended 30 June 2020, and the number of meetings attended by each Director were:

	Board (8 Held)	Audit, Risk and Compliance Committee (4 Held)
	Attended	Attended
Margaret Towers	8	4
Ian Hunter	8	4
Malcolm Halstead	8	4

**Indemnity and Insurance of Directors or Officers**

During the year, the Company incurred a premium in respect of a contract for indemnity insurance for the Directors and officers of the Company named in this report.

**Indemnity and Insurance of Auditor**

The Company has not, during or since the end of the year, indemnified or agreed to indemnify the auditor of the Company against a liability incurred by the auditor. During the year, the Company has not paid a premium in respect of a contract to insure the auditor of the Company.

**Non-Audit Services**

Details of the amounts paid or payable to the auditor for audit and other (non-audit) services provided during the year by the auditor are outlined in Note 21 to the financial statements.

The Directors are satisfied that the provision of non-audit services during the year, by the auditor (or by another person or firm on the auditor's behalf), is compatible with the general standard of independence for auditors imposed by the *Corporations Act 2001*.

The Directors are of the opinion that the services as disclosed in Note 21 to the financial statements do not compromise the external auditor's independence requirements of the *Corporations Act 2001* for the following reasons:

- all non-audit services have been reviewed and approved to ensure that they do not impact the integrity and objectivity of the auditor; and
- none of the services undermine the general principles relating to auditor independence as set out in APES 110: *Code of Ethics for Professional Accountants* issued by the Accounting Professional and Ethical Standards Board.

**Rounding of Amounts**

The Company is of a kind referred to in ASIC Corporations (*Rounding in Financial/Directors' Reports*) Instrument 2016/191, issued by the Australian Securities and Investments Commission, relating to 'rounding-off'. Amounts in this report have been rounded off in accordance with this Instrument to the nearest thousand dollars, or in certain cases, the nearest dollar.

**Platinum Asia Investments Limited**  
**Remuneration Report (audited)**  
**30 June 2020**

**Executive Summary**

- The Company had three key management personnel ("KMP") during the year.
- The annual remuneration paid by the Company to its Chairperson was \$65,700 (including superannuation).
- The remuneration paid by the Company to each of the other Non-Executive Directors was \$60,225 (including superannuation).
- The Company does not pay bonuses to any of its Directors.

**Introduction**

The Directors of Platinum Asia Investments Limited present the Remuneration Report prepared in accordance with section 300A of the *Corporations Act 2001* for the year ended 30 June 2020.

The information provided in this Remuneration Report forms part of the Directors' Report and has been audited by the Company's auditor, PricewaterhouseCoopers, as required by section 308 of the *Corporations Act 2001*.

**Key Management Personnel ("KMP")**

For the purposes of this report, the KMP of the Company in office during the financial year were:

<b>Name</b>	<b>Position</b>
Margaret Towers	Chairperson and Independent Non-Executive Director
Ian Hunter	Independent Non-Executive Director
Malcolm Halstead	Independent Non-Executive Director

**Shareholders' Approval of the 2019 Remuneration Report**

A 25% or higher "no" vote on the remuneration report at an AGM triggers a reporting obligation on a listed company to explain in its next annual report how concerns are being addressed.

At the last AGM, the Company's Remuneration Report passed on a show of hands after proxies indicated a "for" vote of 92.62%. Despite this outcome, we have set out to fully explain the basis and structure of the remuneration paid to KMP.

**Principles, Policy and Components of Director's Remuneration**

Remuneration paid to the Directors is designed to ensure that the Company can attract and retain suitably qualified and experienced directors.

It is the policy of the Board to remunerate at market rates commensurate with the responsibilities borne by the Directors.

Directors received a fixed fee and mandatory superannuation.

Directors do not receive performance-based or earnings-based remuneration and are not eligible to participate in any equity-based incentive plans.

The remuneration of the Directors is reviewed annually by the Board and is set at market rates commensurate with the responsibilities borne by the Directors. Independent professional advice may be sought. No other retirement benefits (other than mandatory superannuation) are provided to the Directors.

There are no termination payments payable on the cessation of office and any Director may retire or resign from the Board, or be removed by a resolution of shareholders.

**Platinum Asia Investments Limited  
 Remuneration Report (audited)  
 30 June 2020**
**Remuneration for Directors**

The table below presents amounts received by the Directors.

Name	Cash Salary \$	Superannuation \$	Short-term incentives \$	Long-term incentives \$	Total \$
<b>Margaret Towers</b>					
FY2020	60,000	5,700	-	-	65,700
FY2019	60,000	5,700	-	-	65,700
<b>Ian Hunter</b>					
FY2020	55,000	5,225	-	-	60,225
FY2019	55,000	5,225	-	-	60,225
<b>Malcolm Halstead</b>					
FY2020	55,000	5,225	-	-	60,225
FY2019	55,000	5,225	-	-	60,225
<b>Total Remuneration</b>					
FY2020	170,000	16,150	-	-	186,150
FY2019	170,000	16,150	-	-	186,150

**Employment Arrangements of KMP**

The key aspects of the KMP contracts are as follows:

- Remuneration and other terms of employment for Directors are formalised in letters of appointment that all Directors have signed.
- All contracts with Directors include the components of remuneration that are to be paid to KMP and provide for annual review, but do not prescribe how remuneration levels are to be modified from year to year.
- The tenure of the Directors is subject to approval by shareholders at every third AGM or other general meeting convened for the purposes of election of Directors.
- In the event of termination, all KMP are only entitled to receive their statutory entitlements.
- Directors may resign by written notice to the Chairperson and where circumstances permit, it is desirable that reasonable notice of an intention to resign is given to assist the Board in succession planning.

**Link between the Remuneration of the Directors and Company Performance**

	2020	2019	2018	2017	2016
Total investment gain/(loss) (\$'000)	63,942	6,284	79,884	61,040	(8,466)
Expenses (\$'000)	(8,664)	(6,552)	(6,940)	(5,508)	(4,326)
Net profit/(loss) after tax (\$'000)	38,608	(158)	51,478	39,151	(9,049)
Earnings per share (cents per share)	10.63	(0.04)	14.32	12.95	(3.97)
Dividends (cents per share)	5.0	4.0	10.0	1.0	-
Net tangible asset value (pre-tax) (30 June) (\$ per share)	1.1713	1.0836	1.1960	1.0920	0.9338
Closing share price (30 June) (\$ per share)	1.01	1.03	1.26	1.015	0.885
Total fixed remuneration (salary and superannuation) paid (\$)	186,150	186,150	186,150	186,150	189,729 <sup>1</sup>

<sup>1</sup>Remuneration was for a period longer than 12 months, being 24<sup>th</sup> June 2015 (the Company's incorporation date) to 30 June 2016.

The remuneration of the Directors is not linked to the performance of the Company.

**Interests of Directors in Shares**

The relevant interest in ordinary shares of the Company that each Director held at balance date was:

	Opening balance	Acquisitions	Disposals	Closing balance
Margaret Towers	50,000	-	-	50,000
Ian Hunter	200,001	-	-	200,001
Malcolm Halstead	1	-	-	1

## *Auditor's Independence Declaration*

As lead auditor for the audit of Platinum Asia Investments Limited for the year ended 30 June 2020, I declare that to the best of my knowledge and belief, there have been:

- (a) no contraventions of the auditor independence requirements of the *Corporations Act 2001* in relation to the audit; and
- (b) no contraventions of any applicable code of professional conduct in relation to the audit.

A handwritten signature in black ink, appearing to read 'CJ Cummins', written over a horizontal line.

**Platinum Asia Investments Limited**  
**Notes to the Financial Statements**  
**For the year ended 30 June 2020**

**Note 1. Summary of significant accounting policies**

The principal accounting policies adopted in the preparation of the financial statements are set out below. These policies have been consistently applied for all years presented, unless otherwise stated.

**Basis of preparation**

These general purpose financial statements have been prepared in accordance with Australian Accounting Standards and Interpretations issued by the Australian Accounting Standards Board (“AASB”) and the *Corporations Act 2001*, as appropriate for for-profit oriented entities. These financial statements also comply with International Financial Reporting Standards as issued by the International Accounting Standards Board (“IASB”).

The financial statements have been prepared on a historical cost basis, except for financial assets and liabilities measured at fair value.

The statement of financial position is presented on a liquidity basis. Specifically, assets and liabilities are presented in decreasing order of liquidity and do not distinguish between current and non-current assets and liabilities. The majority of receivables and payables are expected to be recovered or settled within 12 months, whereas tax and investment balances may be recovered after 12 months.

**Critical accounting judgements, estimates and assumptions**

The preparation of the financial statements requires management to make judgements, estimates and assumptions that affect the reported amounts in the financial statements. Management continually evaluates its judgements and estimates in relation to assets, liabilities, contingent liabilities, revenue and expenses. Management bases its judgements, estimates and assumptions on historical experience and on other various factors, including expectations of future events that management believes to be reasonable under the circumstances.

*Fair value measurement hierarchy (refer to Note 17)*

The Company is required to classify all assets and liabilities, measured at fair value, using a three level hierarchy, based on the lowest level of input that is significant to the entire fair value measurement, being: Level 1: Quoted prices (unadjusted) in active markets for identical assets or liabilities that the entity can access at the measurement date; Level 2: Inputs other than quoted prices included within Level 1 that are observable for the asset or liability, either directly or indirectly; and Level 3: Unobservable inputs for the asset or liability. Considerable judgement is required to determine what is significant to fair value and therefore which category the asset or liability is placed in can be subjective.

The fair value of assets and liabilities classified as level 3 (if any) is determined by the use of valuation models. These include discounted cash flow analysis or the use of observable inputs that require significant adjustments based on unobservable inputs.

*Recovery of deferred tax assets (refer to Note 3)*

Deferred tax assets are recognised for deductible temporary differences only if the Company considers it is probable that future taxable amounts will be available to utilise those temporary differences and losses.

*Functional currency (refer to the “foreign currency transactions” accounting policy note)*

Items included in the Company’s financial statements are measured using the Australian Dollar, which is the currency of the primary economic environment in which it operates (the “functional currency”) and reflects the currency of the country in which the Company is regulated, and the currency in which capital is raised and dividends are paid. However, most of the Company’s assets and revenues are not denominated in Australian Dollars.

**Financial assets/liabilities at fair value through profit or loss**

*Recognition*

The Company recognises financial assets and financial liabilities on the date it becomes party to the contractual agreement and recognises changes in the fair value of financial assets or financial liabilities from this date. Investments are derecognised when the contractual right to receive cash flows from the investments have expired or have been transferred, and the Company has transferred substantially all of the risks and rewards of ownership.

*Measurement*

The contractual cash flows of equity securities, derivatives and foreign currency forward contracts held by the Company are not comprised of principal and interest. Consequently, these financial assets and financial liabilities are measured at fair value through profit or loss.

**Platinum Asia Investments Limited**  
**Notes to the Financial Statements**  
**For the year ended 30 June 2020**

**Note 1. Summary of significant accounting policies (continued)**

At initial recognition, the Company measures financial assets and financial liabilities at fair value. Transaction costs of financial assets carried at fair value through profit or loss are expensed in the statement of profit and loss and comprehensive income.

Subsequent to initial recognition, gains and losses arising from changes in the fair value of the 'financial assets or financial liabilities at fair value through profit or loss' category are presented in the statement of profit and loss and comprehensive income within "net (losses)/gains in equities and derivatives at fair value through profit or loss" or "net (losses)/gains on foreign currency forward contracts" in the period in which they arise.

***Fair value***

AASB 13: Fair Value Measurement defines fair value as "the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date". The standard prescribes that the most representative price within the bid-ask spread should be used for valuation purposes. With respect to the Company, the exit or "last" price is the most representative price within the bid-ask spread, because it represents the price that the security last changed hands from seller to buyer. The Company has applied last-sale pricing as the fair value measurement basis for equities and derivatives it holds.

The fair value of financial assets and liabilities traded in active markets uses quoted market prices at the reporting date without any deduction for estimated future selling costs.

The fair value of financial assets and liabilities that are not traded in an active market is determined using valuation techniques. These include the use of recent arm's length market transactions, discounted cash flow techniques or any other valuation techniques that provide a reliable estimate of prices obtained in actual market transactions. Options are valued with reference to the quoted price of the underlying index or share. If there is no liquid market available, options are valued based on option prices provided by an arm's length broker. These valuations are based on option pricing models.

Participatory notes are sometimes used as a convenient means of investing in local securities by a foreign investor. Participatory notes are generally traded over-the-counter, as they are issued by a counterparty to provide the investor with exposure to an individual equity, basket of equities or an index, in markets where liquidity, custody or other issues make ownership of the local securities sub-optimal. The valuation of participatory notes depends on the level of trading. If the participatory notes are actively traded, then the market price is used. If the participatory notes are not actively traded, counterparties provide a daily valuation that is based on the intrinsic value of the individual security.

**Offsetting a financial asset and a financial liability**

Financial assets and liabilities are offset and the net amount reported in the balance sheet when there is a legally enforceable right to offset the recognised amounts and there is an intention to settle on a net basis, or realise the asset and settle the liability simultaneously.

**Operating segments**

Operating segments are presented using a single operating segment. However, AASB 8: *Operating Segments* requires certain entity-wide disclosures. Refer to Note 2 for further information.

**Foreign currency transactions**

Items included in the Company's financial statements are measured using the currency of the primary economic environment in which the Company operates (the "functional currency"). This is the Australian dollar, which reflects the currency of the country in which the Company is regulated, and the currency in which capital is raised and dividends are paid. The Australian dollar is also the Company's presentation currency.

Foreign currency transactions are translated into Australian dollars using the exchange rates prevailing at the dates of the transactions. Foreign exchange gains and losses resulting from the settlement of such transactions and from the translation at balance date exchange rates of monetary assets and liabilities denominated in foreign currencies, are recognised in the statement of profit or loss and other comprehensive income.

**Platinum Asia Investments Limited**  
**Notes to the Financial Statements**  
**For the year ended 30 June 2020**

**Note 1. Summary of significant accounting policies (continued)**

**Investment income**

*Interest income*

Interest income from financial assets at amortised cost is recognised on a time proportionate basis using the effective interest rate method and includes interest from cash and cash equivalents. Interest from financial assets at fair value through profit or loss is determined based on the contractual coupon interest rate and may include interest from debt securities.

*Dividend income*

Dividend income is brought to account on the applicable ex-dividend date.

**Directors' entitlements**

Liabilities for Directors' entitlements to fees are accrued at nominal amounts calculated on the basis of current fee rates. Contributions to Directors' superannuation plans are charged as an expense as the contributions are paid or become payable.

**Income tax**

The income tax expense or benefit for the year is the tax payable or receivable on that year's taxable income based on the applicable income tax rate adjusted by changes in deferred tax assets and liabilities attributable to temporary differences, unused tax losses and the adjustment recognised for prior periods, where applicable. Any foreign withholding tax on income, deducted at source or paid, will be included as part of the income tax expense.

Deferred tax assets are recognised for deductible temporary differences and unused tax losses only if it is probable that future taxable amounts will be available to utilise those temporary differences and losses.

The carrying amount of recognised and unrecognised deferred tax assets are reviewed at each reporting date. Deferred tax assets recognised are reduced to the extent that it is no longer probable that future taxable profits will be available for the carrying amount to be recovered.

Deferred tax assets and liabilities are offset only where there is a legally enforceable right to offset current tax assets against current tax liabilities and deferred tax assets against deferred tax liabilities; and they relate to the same taxable authority on either the same taxable entity or different taxable entities which intend to settle simultaneously.

**Goods and Services Tax ("GST")**

Revenues, expenses and assets are recognised net of the amount of associated GST, unless the GST incurred is not recoverable from the tax authority. In this case it is recognised as part of the cost of the acquisition of the asset or as part of the expense.

Cash flows are presented on a gross basis. The GST components of cash flows arising from investing or financing activities which are recoverable from, or payable to the tax authority, are presented as operating cash flows. Commitments and contingencies are disclosed net of the amount of GST recoverable from, or payable to, the tax authority.

**Receivables**

Receivables include proceeds from the sale of financial assets, dividends, GST and interest receivables. All receivables are recognised when a right to receive payment is established. Receivables are generally received within 30 days of being recognised as a receivable.

**Due from/due to brokers for unsettled trades**

Amounts due from/due to brokers represent receivables for proceeds from the sale of financial assets (as disclosed in Note 6) and payables on purchase of financial assets/liabilities (as disclosed in Note 7) that have been traded, but not yet settled at reporting date. Proceeds from sale of financial assets are usually received between two and five days after trade date. Payables on purchase of financial assets/liabilities are usually paid between two and five days after trade date.

**Platinum Asia Investments Limited**  
**Notes to the Financial Statements**  
**For the year ended 30 June 2020**

**Note 1. Summary of significant accounting policies (continued)**

**Cash and cash equivalents**

For the purposes of the statement of cash flows, cash includes deposits at call with financial institutions, cash held in margin accounts by derivatives clearing houses and counterparties and other short-term, highly liquid investments and term deposits with original maturities of three months or less that are readily convertible to known amounts of cash and which are subject to an insignificant risk of changes in value.

Margin accounts comprise cash held as collateral for derivative transactions.

Payments and receipts relating to the purchase and sale of financial assets are classified as "cash flows from operating activities" as realised and unrealised gains (and losses) on financial assets represent the Company's main source of operating income.

**Trade and other payables**

These amounts represent liabilities for services provided to the Company prior to the end of the financial year and which are unpaid. Due to their short-term nature, they are measured at amortised cost and are not discounted. The amounts are unsecured and are usually paid within 30 days of recognition.

**Issued capital**

Ordinary shares are classified as equity. Incremental costs directly attributable to the issue of new shares are shown in equity as a deduction, net of tax, from the proceeds.

**Dividends**

A provision is recognised if the Directors declare or determine to pay a dividend on or before balance date that has not been paid at balance date.

**Expenses**

All expenses, including management fees and performance fees (if any), are recognised in the statement of profit or loss and other comprehensive income on an accrual basis.

**Dividend profit reserve**

The Company has created a dividend profit reserve. The Board considers transfers of profits to the dividend profit reserve on a semi-annual basis. Dividends are paid from this reserve and undistributed profits are available to be used for dividends in future periods to enable smoothing of dividends for its shareholders. The reserve is included when determining the overall equity of the Company for accounting purposes.

**Basic and diluted earnings per share**

Basic and diluted earnings per share are calculated by dividing the profit attributable to the owners of Platinum Asia Investments Limited, by the weighted average number of ordinary shares outstanding during the year or period.

**Rounding of amounts**

The Company is of a kind referred to in ASIC Corporations (*Rounding in Financial/Directors Reports*) Instrument 2016/191, issued by the Australian Securities and Investments Commission, relating to 'rounding-off'. Amounts in these financial statements have been rounded off in accordance with this Instrument to the nearest thousand dollars, or in certain cases, the nearest dollar.

**Platinum Asia Investments Limited**  
**Notes to the Financial Statements**  
**For the year ended 30 June 2020**

**Note 1. Summary of significant accounting policies (continued)**

**New accounting standards and interpretations adopted for the first time**

*New and amended standards adopted by the Company*

There are no new standards, interpretations, or amendments to existing standards that are effective for the first time for the financial year beginning 1 July 2019 that have a material impact on the amounts recognised in the prior periods, or will affect the current or future periods.

*New Accounting Standards and Interpretations not yet mandatory for the 30 June 2020 reporting period.*

A number of other new standards, amendments to standards and interpretations are effective for annual periods beginning on or after 1 July 2020 and have not been early adopted in preparing these financial statements. None of these are expected to have a material effect on the financial statements of the Company

**Note 2. Operating segments**

*Identification of reportable operating segments*

The Company is organised into one main operating segment with the key function of the investment of funds in the Asian Region ex Japan. AASB 8: *Operating Segments* requires disclosure of revenue by investment type and geographic location, which is outlined below:

<i>(a) Investment income by investment type</i>	<b>2020</b>	<b>2019</b>
	<b>\$'000</b>	<b>\$'000</b>
Equity securities	58,073	8,813
Derivatives	(1,380)	(1,120)
Foreign currency forward contracts	3,496	(3,703)
Bank accounts	3,753	2,294
<b>Total</b>	<b>63,942</b>	<b>6,284</b>
<i>(b) Investment income by geographic location</i>		
China	30,988	2,170
Hong Kong	12,858	1,721
Taiwan	9,067	75
Macao	(189)	-
<b>Greater China total</b>	<b>52,724</b>	<b>3,966</b>
India	1,208	(1,584)
Indonesia	-	(355)
South Korea	13,932	(14)
Malaysia	(240)	(298)
Philippines	(2,148)	2,848
Singapore	765	(5)
Thailand	(7,720)	2,405
Australia	15	142
Vietnam	640	151
North America	1,270	2,731
Unallocated investment income – Net (losses) on foreign currency forward contracts	3,496	(3,703)
<b>Total</b>	<b>63,942</b>	<b>6,284</b>

Please refer to Note 16 for a breakdown of the geographic (physical) and currency exposure of the Company's underlying investments.

**Platinum Asia Investments Limited**  
**Notes to the Financial Statements**  
**For the year ended 30 June 2020**

**Note 3. Income tax**

<i>(a) Income tax (expense)/benefit</i>	<b>2020</b> <b>\$'000</b>	<b>2019</b> <b>\$'000</b>
The income tax (expense)/benefit attributable to the operating profit/(loss) comprises:		
Current income tax provision	(9,613)	(5,712)
Movement in deferred tax liability	(6,550)	6,321
Withholding tax on foreign dividends	(507)	(489)
Under provision of previous period tax	-	(10)
	(16,670)	110

The income tax (expense)/benefit attributable to the financial year differs from the prima facie amount payable on the operating (loss). The difference is reconciled as follows:

Profit/(Loss) before income tax (expense)/benefit	55,278	(268)
Prima facie income tax at a tax rate of 30%	(16,583)	80
Reduce tax payable:		
Tax impact of foreign tax credits	(87)	40
Under provision of previous period tax	-	(10)
	(16,670)	110

*(b) Income tax receivable*

The income tax receivable as disclosed in the statement of financial position is comprised of:

	<b>2020</b> <b>\$'000</b>	<b>2019</b> <b>\$'000</b>
Current income tax provision (before foreign tax credits)	(10,024)	(6,274)
Foreign tax credits utilised	411	562
Current income tax provision	(9,613)	(5,712)
Income tax instalments paid	11,587	8,333
Income tax receivable	1,974	2,621

*(c) Deferred tax liability*

In line with its existing accounting policy, the Company has exercised judgement in determining the extent of recognition of its deferred tax balance.

	<b>2020</b> <b>\$'000</b>	<b>2019</b> <b>\$'000</b>
The deferred tax liability figure in the statement of financial position is comprised of:		
Deferred tax liability on unrealised gains on investments	(9,158)	(2,804)
Deferred tax liability on dividends accrued	(117)	(292)
Deferred tax asset on expense accruals	39	39
Deferred tax asset on costs associated with the Initial Public Offer	-	371
Deferred tax liability	(9,236)	(2,686)

At 30 June 2020, the Company is in a net deferred tax liability position and this is predominantly because the Company has net unrealised gains on investments of \$30,526,000 (2019: \$9,347,000). The deferred tax impact of these unrealised gains is \$9,158,000 (2019: \$2,804,000).

The realised tax balance will depend on the actual gains or losses generated as and when the investments are sold.

**Platinum Asia Investments Limited**  
**Notes to the Financial Statements**  
**For the year ended 30 June 2020**
**Note 4. Financial assets at fair value through profit or loss**

	<b>2020</b>	<b>2019</b>
	<b>\$'000</b>	<b>\$'000</b>
Equity securities	405,617	325,964
Derivatives	-	56
Foreign currency forward contracts	-	234
	<u>405,617</u>	<u>326,254</u>

**Note 5. Financial liabilities at fair value through profit or loss**

Derivatives	651	212
Foreign currency forward contracts	373	1,490
	<u>1,024</u>	<u>1,702</u>

Refer to Note 17 for further information on the fair value measurement of these financial assets and financial liabilities.

**Note 6. Receivables**

	<b>2020</b>	<b>2019</b>
	<b>\$'000</b>	<b>\$'000</b>
Dividends receivable	389	974
Margin account receivable	-	659
Proceeds on sale of financial assets	-	342
Interest receivable	-	86
GST receivable	42	42
Prepayments	145	62
Other	-	1
	<u>576</u>	<u>2,166</u>

Dividends are usually received within approximately 30 days of the ex-dividend date.

**Note 7. Trade and other payables**

Trade creditors (unsecured)	2,430	558
Payables on purchase of financial assets	652	2,858
PAYG tax payable	-	3
Unclaimed dividends payable	-	93
	<u>3,082</u>	<u>3,512</u>

Trade creditors are payable between 14 and 30 days after receipt of the invoice. These payables are non-interest bearing. Information relating to the Company's exposure of payables to liquidity risk is shown in Note 16.

**Note 8. Retained earnings**

Retained losses at the beginning of the year	(9,207)	(9,049)
Operating profit/(loss) after income tax (expense)/benefit for the year	38,608	(158)
Transfer of operating profit after income tax for the year to the dividend profit reserve	(38,608)	-
Retained (losses) at the end of the financial year	<u>(9,207)</u>	<u>(9,207)</u>

**Platinum Asia Investments Limited**  
**Notes to the Financial Statements**  
**For the year ended 30 June 2020**

**Note 9. Reserves**

*Summary of Reserve Balances*

	<b>2020</b>	<b>2019</b>
	<b>\$'000</b>	<b>\$'000</b>
Capital reserve	7,934	7,934
Dividend profit reserve	67,941	43,839
	<u>67,941</u>	<u>43,839</u>
	<u>75,875</u>	<u>51,773</u>

*(a) Capital reserve*

A total of 226,697,672 options that were issued under the 2015 IPO expired on 15 May 2017 and the total fair value of unexercised options, which was \$7,934,419, was transferred to a separate capital reserve. The option fair value reserve entry was the number of unexercised options, which was 226,697,672 multiplied by 3.5 cents per option, which equals the amount that was transferred to the capital reserve.

*(b) Dividend profit reserve*

The Company may set aside some or all of its undistributed profits to a separate dividend profit reserve, to facilitate the payment of future franked dividends, rather than maintaining these profits within retained earnings. Operating losses are not transferred to the dividend profit reserve. The balance of this reserve is as follows.

	<b>2020</b>	<b>2019</b>
	<b>\$'000</b>	<b>\$'000</b>
Opening balance 1 July 2019 (2018)	43,839	72,670
Profit after income tax for the year ended 30 June 2020 (2019)	38,608	-
Dividends paid (see Note 10)	(14,506)	(28,831)
Closing Balance	<u>67,941</u>	<u>43,839</u>

Subsequent to 30 June 2020, the 2020 final fully-franked dividend of 3 cents per share was declared out of this reserve. The balance in the dividend profit reserve after the declaration of the 2020 final dividend is \$57,028,000 (15.68 cents per share, based on the current shares on issue).

**Note 10. Dividends**

*Dividends paid*

Dividends paid during the financial year were as follows:

	<b>2020</b>	<b>2019</b>
	<b>\$'000</b>	<b>\$'000</b>
Final dividend paid for the 2019 financial year (2 cents per ordinary share)	7,246	-
Interim dividend paid for the 2020 financial year (2 cents per ordinary share)	7,260	-
Final dividend paid for the 2018 financial year (6 cent per ordinary share)	-	21,600
Interim dividend paid for the 2019 financial year (2 cents per ordinary share)	-	7,231
	<u>14,506</u>	<u>28,831</u>

The "dividends paid - net of dividend reinvestment plan" figure shown in the statement of cash flows is determined as follows:

Gross dividends (paid) (from above)	(14,506)	(28,831)
Decrease in unclaimed dividends payable (Note 7)	(93)	(247)
Dividend reinvestment plan allotment (Note 11)	1,202	2,136
Dividends paid - net of dividend re-investment plan	<u>(13,397)</u>	<u>(26,942)</u>

**Platinum Asia Investments Limited**  
**Notes to the Financial Statements**  
**For the year ended 30 June 2020**

**Note 10. Dividends (continued)**

*Franking credits*

	<b>2020</b>	<b>2019</b>
	<b>\$'000</b>	<b>\$'000</b>
Franking credits available at the balance date based at a tax rate of 30%	13,457	10,708
Franking (debits)/credits that will arise from the tax (receivable)/payable at balance date based on a tax rate of 30%	<u>(1,974)</u>	<u>(2,621)</u>
Franking credits available for future dividends based on a tax rate of 30%	<u>11,483</u>	<u>8,087</u>

*Dividends not recognised at year-end*

On 18 August 2020, the Directors declared the payment of the 2020 fully-franked final dividend of 3 cents per fully paid ordinary share. The aggregate amount of the dividend expected to be paid on 16 September 2020, but not recognised as a liability at year-end, is \$10,913,000. The available franking credits balance after providing for the 2020 final dividend would enable the payment of a fully-franked dividend of up to 4.41 cents per share.

**Note 11. Issued capital**

	<b>2020</b>	<b>2020</b>	<b>2019</b>	<b>2019</b>
	<b>Shares</b>	<b>\$'000</b>	<b>Shares</b>	<b>\$'000</b>
Ordinary shares - fully paid	363,750,978	352,110	362,297,596	350,756

*Movements in ordinary share capital*

<b>Details</b>	<b>Date/Month</b>	<b>Shares</b>	<b>\$'000</b>
Balance	1 July 2018	360,003,594	348,121
Dividend reinvestment plan	17 September 2018	1,329,880	1,569
Reinvestment of unclaimed dividends (a)	26 September 2018	224,850	262
Dividend reinvestment plan	25 March 2019	525,995	567
Reinvestment of unclaimed dividends (a)	27 March 2019	213,277	237
Balance	30 June 2019	<u>362,297,596</u>	<u>350,756</u>
Dividend reinvestment plan	23 September 2019	638,517	584
Reinvestment of unclaimed dividends (a)	2 October 2019	82,629	79
Dividend reinvestment plan	25 March 2020	652,279	618
Reinvestment of unclaimed dividends (a)	31 March 2020	79,957	73
Balance	30 June 2020	<u>363,750,978</u>	<u>352,110</u>

(a) Dividends that remain unclaimed after 6 months from payment date are automatically reinvested into additional shares in the Company.

*Ordinary shares*

Ordinary shares entitle the holder to participate in dividends and the proceeds on the winding up of the Company in proportion to the number of and amounts paid on the shares held. The fully paid ordinary shares have no par value and the Company does not have a limited amount of authorised capital.

Every member is entitled to one vote and upon a poll, each share shall have one vote.

*Rights issue or share buy-back*

There is no rights issue currently in place. On 8 April 2020, the Company announced an on-market share buy-back program, in which shares will be bought-back, should the Company Board consider that such is in the interest of all existing shareholders. No shares have been bought-back as at 30 June 2020.

**Platinum Asia Investments Limited**  
**Notes to the Financial Statements**  
**For the year ended 30 June 2020**

**Note 12. Earnings per share**

	<b>2020</b>	<b>2019</b>
	<b>\$'000</b>	<b>\$'000</b>
Profit/(loss) after income tax attributable to the owners of Platinum Asia Investments Limited	38,608	(158)
	<b>Number</b>	<b>Number</b>
Weighted average number of ordinary shares used in calculating basic and diluted earnings per share	363,038,975	361,415,498
Basic earnings per share (cents)	10.63	(0.04)
Diluted earnings per share (cents)	10.63	(0.04)

There have been no conversions to, calls of, or subscriptions for ordinary shares during the current or previous period other than those issued under the dividend reinvestment plan and reinvestment of unclaimed dividends. Therefore, diluted earnings per share equals basic earnings per share.

**Note 13. Notes to the statement of cash flows**

*(a) Components of cash and cash equivalents*

	<b>2020</b>	<b>2019</b>
	<b>\$'000</b>	<b>\$'000</b>
Cash at bank	5	116*
Cash on deposit held within the portfolio**	23,948	70,065
	<u>23,953</u>	<u>70,181</u>

\* includes \$93,000 held in respect of unclaimed dividends on behalf of shareholders.

\*\* includes \$7,178,000 (2019: \$8,713,000) on deposit to 'cash cover' derivative contracts' deposits and margin calls. These amounts are held by the relevant derivatives clearing houses and counterparties as collateral. If losses are realised, the cash collateral is set off against those losses. If profits are realised on the close out of derivative contracts, the cash collateral is returned to the Company.

**Platinum Asia Investments Limited**  
**Notes to the Financial Statements**  
**For the year ended 30 June 2020**

**Note 13. Notes to the statement of cash flows (continued)**

The Company maintains bank accounts to enable the settlement of purchases and sales of investments and to conduct other normal banking transactions. These accounts are at call and bear floating interest rates in the range of 0.0% to 0.05% (2019: 0.0% to 1.7%).

*(b) Reconciliation of profit after income tax to net cash from operating activities*

	<b>2020</b>	<b>2019</b>
	<b>\$'000</b>	<b>\$'000</b>
Profit/(loss) after income tax for the year	38,608	(158)
Adjustments for non-operating and non-cash items:		
Foreign exchange gains	(123)	(1,363)
(Increase)/decrease in investment securities and foreign currency forward contracts	(80,040)	48,319
Change in operating assets and liabilities:		
Decrease/(increase) in margin account receivable	659	(659)
Decrease/(increase) in settlements receivable	342	(288)
Decrease/(increase) in interest receivable	86	(82)
Decrease dividends receivable	585	1,090
Decrease in GST receivable	-	6
Increase in prepayments	(83)	(3)
Decrease/(increase) in income tax receivable	647	(2,621)
(Decrease)/increase in settlements payable	(2,206)	2,826
Increase/(decrease) in trade and other payables	1,869	(49)
Decrease in income tax payable	-	(2,799)
Decrease in deferred tax asset	371	377
Increase/(decrease) in deferred tax liability	6,179	(6,698)
Net cash (used in)/from operating activities	<u>(33,106)</u>	<u>37,898</u>

**Note 14. Statement of Net Tangible Asset Backing (NTA)**

	<b>2020</b>	<b>2019</b>
	<b>\$'000</b>	<b>\$'000</b>
<b>Reconciling Net Tangible Asset Backing (post-tax) in accordance with Australian Accounting Standards to that reported to the ASX</b>		
Post-tax Net Tangible Asset Backing per statement of financial position	418,778	393,322
Realisation costs and accruals*	-	(816)
Deferred income tax asset on realisation costs*	-	245
Deferred income tax liability and income tax receivable not recognised in Net Tangible Asset backing **	-	(177)
<b>Post-tax Net Tangible Asset Backing as reported to the ASX</b>	<u>418,778</u>	<u>392,574</u>

Post-tax Net Tangible Asset Backing at 30 June 2020 was \$1.1513 per share (2019: \$1.0836).

\* From 1 December 2019, the ASX Listing Rules were changed to allow for the ASX reporting of Net Tangible Asset Backing per share to be prepared in accordance with Australian Accounting Standards. Therefore, there were no material differences between NTA reported to the ASX and NTA reported in the statement of financial position for 30 June 2020.

\*\*At 30 June 2019, the post-tax NTA reported to the ASX was calculated on a full liquidation basis, therefore any deferred tax asset in excess of the liquidation tax provision and income tax receivable were not recognised.

**Platinum Asia Investments Limited**  
**Notes to the Financial Statements**  
**For the year ended 30 June 2020**

**Note 16. Financial risk management**

**Financial Risk Management Objectives, Policies and Processes**

In pursuing its investment objectives, the Company is exposed to a variety of financial risks: market risk (including interest rate risk, foreign exchange risk and price risk), credit risk and liquidity risk. The management of these risks is carried out by the Investment Manager under policies approved by the Directors. The overall risk management program focuses on the unpredictability of financial markets and seeks to minimise potential adverse effects on the Company's financial performance.

The Company uses different methods to measure different types of risk to which it is exposed. These methods are explained below.

The Investment Manager's investment style:

- adopts a bottom-up stock selection methodology such that long-term capital growth is sought through investing in undervalued securities across the world;
- seeks absolute returns and not returns relative to any index;
- invests excess funds in cash when undervalued stocks cannot be found; and
- actively manages currency.

The Company uses financial derivative instruments (both Over-the-Counter (OTC) derivatives and exchange traded derivatives) for risk management purposes and to take opportunities to increase returns, including, for example:

- to gain access to markets not readily available to foreign investors;
- to create a short position in a security;
- to build a position in a security as a short-term strategy to be reversed when physical securities are purchased; and
- to aid in the management of the Company's cash flows (e.g. some stock markets require pre-funding of stock purchases that may be avoided through the use of derivatives).

The underlying value of the Company's derivatives positions may not exceed 100% of the Company's net asset value ("NAV"). The underlying value of the Company's long stocks and derivative positions may not exceed 150% of the Company's NAV. Where options are employed, the underlying value will be the delta-adjusted exposure. The Company will typically have 50% or more net equity exposure. The Company's exposures against these limits are regularly monitored by the Investment Manager. In addition, quarterly exposure reports are provided to the Audit, Risk and Compliance Committee. As ordinary shares of the Company are fully paid, a shareholder's exposure to any losses would not exceed the value of their shareholding. In practice, the Company's net equity exposure will rarely exceed 100% of its NAV. The Company's net equity exposure at 30 June 2020 was 77.6% (30 June 2019: 77.3%).

The table below summarises the Company's physical exposure at fair value and its long and short derivatives effective exposures:

	<b>Physical</b>	<b>Long Derivatives Contracts</b>	<b>Short Derivatives Contracts</b>	<b>Net Exposure</b>
<b>2020</b>	<b>\$'000</b>	<b>\$'000</b>	<b>\$'000</b>	<b>\$'000</b>
China	224,559	-	-	224,559

	<b>325,964</b>	<b>-</b>	<b>(21,735)</b>	<b>304,229</b>

The "Long/Short Derivative Contracts" columns include the effective exposure of long/short equity swaps and futures. The "Net Exposure" column represents an approximation of the Company's exposure to movements in markets. This is calculated by making an adjustment to the "Physical" position, by adding any long (bought) derivative positions in shares or share index futures and subtracting the amount of any short (sold) derivative positions in shares or share index futures.

For example, if 5% of the portfolio was invested in India, but there was a 2% short position in Indian futures, then the net exposure column would show 3%. Conceivably, the figure could show a negative exposure, which would indicate that the portfolio was net short the Indian market. All securities, including equity swaps and derivatives, present a risk of loss of capital. For equity securities, this loss is limited to the fair value disclosed in the statement of financial position.

**Market risk**

*Foreign exchange risk*

Foreign exchange risk is the risk the fair values or future cash flows of a financial instrument will fluctuate due to changes in foreign exchange rates. The Company operates in the Asian Region ex Japan and is exposed to foreign exchange risk arising from buying, selling and holding investments denominated in foreign currencies. The Investment Manager selects stocks based on value regardless of geographic location. The Company undertakes a significant number of its transactions denominated in foreign currencies and is exposed to foreign currency risk through foreign exchange rate fluctuations.

Currency management is an integral part of the management of market risk. The Investment Manager may position the Company's portfolio in what it believes will be stronger performing currencies.

The Investment Manager may use foreign currency forward contracts, currency swaps, non-deliverable forwards and currency options, as well as spot foreign exchange trades to position the portfolio in the desired currencies.

**Platinum Asia Investments Limited**  
**Notes to the Financial Statements**  
**For the year ended 30 June 2020**

**Note 16. Financial risk management (continued)**

Where there have been major currency movements or where currencies are perceived to be over or undervalued, the Investment Manager may look for investments whose operating environment has been distorted by the lower currency as part of the search for undervalued stocks. There may be opportunities to invest in stocks impacted by a lower currency.

The tables below and on the following page summarise the Company's investment exposure at fair value to foreign exchange risk. The total of "Physical" plus "cash" and "Net Exposure" reconciles to the total investment portfolio in Note 15.

	<b>Cash</b>	<b>Physical</b>	<b>Bought</b>	<b>Sold</b>	<b>Net</b>

	<b>70,181</b>	<b>323,669</b>	<b>89,896</b>	<b>(89,896)</b>	<b>393,850</b>

\* The physical exposure is predominantly comprised of Chinese companies listed on the Hong Kong Stock Exchange. The underlying geographic exposure of most of the investments denominated in the Hong Kong Dollar is China.

\*\* The high physical exposure to the United States Dollar is predominantly comprised of Chinese companies listed in the United States, via American Depository Receipts.

*Foreign exchange risk sensitivity analysis*

The table on the following page summarises the sensitivities of the Company's profit to foreign exchange risk. The analysis is based on the assumption that the Australian Dollar strengthened by 10% against the United States Dollar and Hong Kong Dollar (shown in the +10% column) and weakened by 10% against the United States Dollar and Hong Kong Dollar (shown in the -10% column). These two currencies are the two most material foreign currencies to which the Company was exposed at 30 June 2020.

**Platinum Asia Investments Limited**  
**Notes to the Financial Statements**  
**For the year ended 30 June 2020**

**Note 16. Financial risk management (continued)**

A sensitivity of 10% has been selected as this is considered reasonably possible given current exchange rates and the volatility observed both on a historic basis and after factoring in possible future movements. The sensitivity has been undertaken on a combined basis for both monetary assets and liabilities and financial assets and liabilities measured at fair value through profit or loss, as the Company believes this accurately portrays the Company's exposure to foreign exchange risk.

<b>2020</b>	<b>% change</b>	<b>AUD strengthened Effect on profit before tax \$'000</b>	<b>% change</b>	<b>AUD weakened Effect on profit before tax \$'000</b>
Hong Kong Dollar	10%	(13,026)	(10%)	15,922
United States Dollar	10%	(8,007)	(10%)	9,786
Other currencies	10%	(17,959)	(10%)	21,949
		<u>(38,992)</u>		<u>47,657</u>
<b>2019</b>	<b>% change</b>	<b>AUD strengthened Effect on profit before tax \$'000</b>	<b>% change</b>	<b>AUD weakened Effect on profit before tax \$'000</b>
Hong Kong Dollar	10%	(12,168)	(10%)	14,872
United States Dollar	10%	(18,504)	(10%)	22,617
Other currencies	10%	(5,108)	(10%)	6,243
		<u>(35,780)</u>		<u>43,732</u>

The weakening of the AUD will increase the operating profit. A strengthening of the AUD will decrease the operating profit.

The sensitivity analysis shows that the Company is affected by exchange rate movements (other things being equal).

**Interest Rate Risk**

Interest rate risk is the possibility that the fair value or future cash flows of a financial instrument will fluctuate due to changes in market interest rates.

The majority of the Company's financial assets and liabilities are non-interest bearing as the Company has a policy of not borrowing, other than for settlement of trades. Cash holdings are directly affected by interest rate movements, but at balance date, interest rates on these cash accounts were low and range from 0.0% to 0.05% (2019: 0.0% to 1.7%). Therefore, there is minimal direct exposure to interest rate risk on these cash holdings.

Interest rate risk indirectly affects the Company as interest rate movements may affect forward points used in determining gains or losses on foreign currency forward contracts.

At 30 June 2020, if interest rates had changed by +/- 100 basis points with all other variables held constant, the direct impact on interest income would not have been significant for the Company.

**Platinum Asia Investments Limited**  
**Notes to the Financial Statements**  
**For the year ended 30 June 2020**

**Note 16. Financial risk management (continued)**

*Price risk*

Market prices fluctuate due to a range of factors specific to the individual investments, or factors affecting the market in general. The Investment Manager's stock selection process is core to the management of price risk. The Investment Manager adopts a thematic stock selection approach and is an "active manager". The Investment Manager seeks a broad range of Asian Region ex Japan investments whose businesses and growth prospects, it believes, are being undervalued by the market. Accordingly, investment holdings in the Company may vary considerably from the make-up of the MSCI Asia ex Japan index on the basis that the Investment Manager remains index agnostic.

As an additional risk management tool, the Company may enter into short equity swaps and futures to protect against market movements.

*Price risk sensitivity analysis*

Price risk exposure arises from the Company's investment portfolio, which comprises investments in securities and derivatives. At 30 June 2020, the markets that the Company had the biggest investment exposure to were the Chinese and Korean markets. The effect on profit due to a possible change in market prices, as represented by a -/+10% movement in these markets with all other variables held constant, is illustrated in the table below:

<b>2020</b>	<b>Increase % change</b>	<b>Effect on profit before tax \$'000</b>	<b>Decrease % change</b>	<b>Effect on profit before tax \$'000</b>
Greater China	10%	20,938	(10%)	(20,938)
Korea	10%	5,316	(10%)	(5,316)
All other markets	10%	12,775	(10%)	(12,775)
		<u>39,029</u>		<u>(39,029)</u>
<b>2019</b>	<b>Increase % change</b>	<b>Effect on profit before tax \$'000</b>	<b>Decrease % change</b>	<b>Effect on profit before tax \$'000</b>
Greater China	10%	13,205	(10%)	(13,205)
Korea	10%	3,515	(10%)	(3,515)
All other markets	10%	15,839	(10%)	(15,839)
		<u>32,559</u>		<u>(32,559)</u>

An increase in the above markets may increase the operating profit. A decrease in the above markets may reduce the operating profit.

A sensitivity of 10% has been selected, as this is considered reasonably possible. The markets specified are a reference point only. Actual movements in stocks held in the portfolio may vary significantly to movements in the respective markets.

**Credit risk**

Credit risk relates to the risk of a counterparty defaulting on a financial obligation resulting in a loss to the Company (typically through derivatives transactions, currency forward contracts and or cash holdings).

The exposure to credit risk for cash and cash equivalents, futures, equity swaps, and foreign currency forward contracts is any unrealised profit and collateral paid on the positions (the money the Company would lose if the counterparty defaulted) at reporting date. The table below shows the Company's counterparty credit risk exposure by credit rating:

<b>Ratings</b>	<b>2020 \$'000</b>	<b>2019 \$'000</b>
A-	2,550	8,692
AA-	15,666	65,547
BBB+	5,680	3,553
Total	<u>23,896</u>	<u>77,792</u>

Ratings agencies consider any rating of BBB+ or higher to be investment grade.

**Platinum Asia Investments Limited**  
**Notes to the Financial Statements**  
**For the year ended 30 June 2020**

**Note 16. Financial risk management (continued)**

The Investment Manager regularly monitors the Company's credit risk exposure to counterparties and seeks to manage this risk by diversifying the Company's exposure to a number of different counterparties. Over-the Counter derivatives transactions are entered into by the Investment Manager on behalf of the Company under standard ISDA (International Swaps and Derivatives Association) master agreements and English law governed Credit Support Annexes, which employ two-way margining of unrealised profits and losses. The Investment Manager also limits the duration of derivatives contracts to short-term. Transactions in listed securities and investments are entered into with the Investment Manager's approved brokers. Payment for securities purchased is typically only made once a broker has received securities and delivery of securities sold typically only occurs once the broker has received payment.

**Liquidity risk**

Liquidity risk is the risk the Company will encounter difficulty in meeting obligations associated with financial liabilities. This includes the risk that the Company:

- (i) will not have sufficient funds to settle a transaction on the due date; and
- (ii) will be forced to sell financial assets at a value which is less than what they are worth.

*Remaining contractual maturities*

The table below details the Company's remaining contractual maturity for its financial and non-financial liabilities. The table has been drawn up based on the undiscounted cash flows of financial and non-financial liabilities based on the earliest date on which the financial and non-financial liabilities were required to be paid.

<b>2020</b>	<b>Within 3 months</b>	<b>Between 3 and 12 months</b>	<b>Total</b>
	<b>\$'000</b>	<b>\$'000</b>	<b>\$'000</b>
<b>Non-financial</b>			
Payables (Note 7)	3,062	20	3,082
Total non-financial	3,062	20	3,082
<b>Financial</b>			
Derivative contractual outflows	651	-	651
Foreign currency forward contractual outflows	373	-	373
Total financial	1,024	-	1,024
<b>2019</b>	<b>Within 3 months</b>	<b>Between 3 and 12 months</b>	<b>Total</b>
	<b>\$'000</b>	<b>\$'000</b>	<b>\$'000</b>
<b>Non-financial</b>			
Payables (Note 7)	3,478	34	3,512
Total non-financial	3,478	34	3,512
<b>Financial</b>			
Derivative contractual outflows (Note 5)	212	-	212
Foreign currency forward contractual outflows (Note 5)	1,490	-	1,490
Total financial	1,702	-	1,702

The Company has sufficient funds to meet these liabilities as the value of net assets realisable in one year or less, excluding brokerage costs, is \$430,146,000 (2019: \$396,834,000). Assets that are realisable in one year or less include equities, derivatives, cash and cash equivalents.

**Platinum Asia Investments Limited**  
**Notes to the Financial Statements**  
**For the year ended 30 June 2020**

**Note 16. Financial risk management (continued)**

All securities, including equity swaps and derivatives, present a risk of loss of capital. For equity securities, this loss is limited to the fair value disclosed in the statement of financial position. The risk management guidelines adopted are designed to minimise liquidity risk by:

- (i) ensuring that there is no significant exposure to illiquid or thinly traded financial instruments; and
- (ii) applying limits to ensure there is no concentration of liquidity risk to a particular counterparty or market.

The Investment Manager prepares daily cash forecasts on behalf of the Company and maintains sufficient cash to meet normal operating requirements. The Company has a policy of not borrowing money, other than on a short-term basis for settlement, trading and like purposes.

***Fair value of financial instruments***

Unless otherwise stated, the carrying amounts of financial instruments reflect their fair value.

***Capital risk management***

The Company considers its capital to comprise ordinary share capital, reserves and over-time, accumulated retained earnings.

The Company's investment objective is to seek long-term capital growth by investing in undervalued securities across the Asian Region ex Japan across sectors.

The Board regularly and actively reviews the most efficient manner by which the Company manages its capital, in response to changing market conditions and risks, with the sole aim of enhancing shareholder value, through:

- the management of the level of dividends to shareholders;
- the issue of shares by methods such as rights offers, share purchase plans or placements; or
- the use of share buy-backs.

The Company announced a buy back scheme on 8 April 2020. This allows the Company to buy back up to 10% of the issued share of the company within a 12 month period. No shares have been bought back as at 30 June 2020.

The Company is an ASX-listed investment company and is subject to the ASX Listing Rules. The Company complies with all externally-imposed capital requirements.

**Note 17. Fair value measurement**

***Fair value hierarchy***

AASB 13: *Fair Value Measurement* requires the Company to classify those assets and liabilities measured at fair value through profit or loss, using the following fair value hierarchy model:

Level 1: Quoted prices (unadjusted) in active markets for identical assets or liabilities that the entity can access at the measurement date.

Level 2: Inputs other than quoted prices included within Level 1 that are observable for the asset or liability, either directly or indirectly.

Level 3: Unobservable inputs for the asset or liability.

**Platinum Asia Investments Limited**  
**Notes to the Financial Statements**  
**For the year ended 30 June 2020**

**Note 17. Fair value measurement (continued)**

The following table details the Company's assets and liabilities, measured or disclosed at fair value, using the three level hierarchy model.

<b>2020</b>	<b>Level 1 \$'000</b>	<b>Level 2 \$'000</b>	<b>Total \$'000</b>
<b>Assets</b>			
Equity securities	405,617	-	405,617
Derivatives	-	-	-
Foreign currency forward contracts	-	-	-
<b>Total assets</b>	<b>405,617</b>	<b>-</b>	<b>405,617</b>
<b>Liabilities</b>			
Derivatives	436	215	651
Foreign currency forward contracts	-	373	373
<b>Total liabilities</b>	<b>436</b>	<b>588</b>	<b>1,024</b>
<b>2019</b>			
	<b>Level 1 \$'000</b>	<b>Level 2 \$'000</b>	<b>Total \$'000</b>
<b>Assets</b>			
Equity securities	319,254	6,710	325,964
Derivatives	56	-	56
Foreign currency forward contracts	-	234	234
<b>Total assets</b>	<b>319,310</b>	<b>6,944</b>	<b>326,254</b>
<b>Liabilities</b>			
Derivatives	212	-	212
Foreign currency forward contracts	-	1,490	1,490
<b>Total liabilities</b>	<b>212</b>	<b>1,490</b>	<b>1,702</b>

The Company's policy is to recognise transfers into and transfers out of fair value hierarchy levels as at the end of the reporting period. There were no transfers from Level 1 to Level 2 for any assets or liabilities measured at fair value through profit or loss during the period.

All figures presented above can be reconciled to Note 4 or Note 5 and the statement of financial position.

There were no Level 3 investments at 30 June 2020 and 2019.

*Rationale for classification of assets and liabilities as Level 1*

At 30 June 2020, 100% (2019: 97.9%) of the equity securities held by the Company were valued using unadjusted quoted prices in active markets and were classified as Level 1 in the fair-value hierarchy model.

*Rationale for classification of assets and liabilities as Level 2*

There were certain financial instruments that were classified as Level 2, because a degree of adjustment has been made to the quoted price i.e., whilst all significant inputs required for fair value measurement are observable and quoted in an active market, there was a degree of estimation involved in deriving the fair value. Participatory Notes were classified as Level 2 because they were generally traded Over-the Counter and were often priced in a different currency to the underlying security. Foreign currency forward contracts are classified as Level 2 even though forward points are quoted in an active and liquid market. The forwards themselves are based on interest rate differentials.

*Fair value of non-financial instruments*

Due to their short-term nature, the carrying amount of receivables and payables were assumed to approximate their fair value.

**Platinum Asia Investments Limited**  
**Notes to the Financial Statements**  
**For the year ended 30 June 2020**

**Note 18. Offsetting of financial assets and financial liabilities**

*Offsetting and master netting agreements*

The Company enters into derivative transactions under International Swaps and Derivatives Association (ISDA) master agreements. In general, under these agreements the amounts owed by each counterparty on a single day in respect of the same transaction type outstanding in the same currency are aggregated into a single net amount that is payable by one party to the other, if

- I. there is a legally enforceable right to set-off the financial asset and financial liability; and
- II. the Company intends to settle the financial asset and financial liability on a net basis, or realise the financial asset and settle the financial liability simultaneously.

The gross and net positions of financial asset and liabilities that have been offset in the Statement of Financial Position are disclosed in the first three columns of the following table:

	Amounts offset in the Statement of Financial Position			Related amounts not set-off in the Statement of Financial Position		
	Gross amounts	Gross amounts set-off in the Statement of Financial Position	Net amounts in the Statement of Financial Position	Financial Instruments <sup>1</sup>	Cash collateral	Net Amount
	\$'000	\$'000	\$'000	\$'000	\$'000	\$'000
<b>Financial assets</b>						
<b>2020</b>						
Derivatives	-	-	-	-	-	-
Foreign currency forward contracts	-	-	-	-	-	-
<hr/>						
2019						
Derivatives	56	-	56	-	-	56
Foreign currency forward contracts	234	-	234	(234)	-	-
<hr/>						
<b>Financial liabilities</b>						
<b>2020</b>						
Derivatives	651	-	651	-	(215)	436
Foreign currency forward contracts	373	-	373	-	(277)	96
<hr/>						
2019						
Derivatives	212	-	212	-	-	212
Foreign currency forward contracts	1,490	-	1,490	(234)	(1,256)	-

1. shows the impact of arrangements between the Company and the relevant counterparty on financial instruments that provide a right to set-off that becomes enforceable and affects settlement of individual financial assets and liabilities only following a specified event of default or in other circumstances not expected to arise in the normal course of business. These arrangements are not set-off in the Statement of Financial Position, as they are not currently enforceable.

**Platinum Asia Investments Limited**  
**Notes to the Financial Statements**  
**For the year ended 30 June 2020**

**Note 19. Investment Manager Fees**

The Investment Manager receives a monthly management fee for investment services provided in accordance with the Investment Management Agreement. This agreement provides for a management fee payable monthly and calculated at 1.1% (2019: 1.1%) per annum of the adjusted portfolio value (which includes cash and deposits).

Under the Investment Management Agreement, a termination fee equal to 1.1% of the portfolio value (adjusted for any taxes paid/refunded, dividends paid and capital flows), will only be payable to the Investment Manager in circumstances where the Company terminates the Investment Management Agreement for convenience after the initial ten-year term. No termination fee is payable if the Investment Manager terminates the agreement.

*Performance fees*

The Investment Manager is entitled to a performance fee of 15% of the outperformance over the Morgan Stanley All Country Asia ex Japan Net Index in A\$. The performance fee is calculated annually at 30 June and must recover any underperformance from previous years.

For the 12 months to 30 June 2020, the performance of the portfolio was 14.4%<sup>[1]</sup> and the performance of the index was 3.6% for the same period. This represents an outperformance of 10.8% against the index for the year ended 30 June 2020. After taking into account the aggregate underperformance of 7.7% from the prior periods, the Company's net cumulative outperformance, for the purposes of calculating the performance fee, was 3.1%. As a result, a performance fee of \$1,826,716 was payable at 30 June 2020.

Management fees and performance fees paid and payable for the year ending 30 June 2020 and 30 June 2019 are shown below:

	<b>2020</b>	<b>2019</b>
	<b>\$</b>	<b>\$</b>
Management fee paid	4,096,866	3,989,482
Management fee payable	392,588	362,436
Performance fee payable	1,826,716	-
	<u>6,316,170</u>	<u>4,351,918</u>

A summary of the salient provisions of the Investment Management Agreement ("Agreement") are contained below:

- (a) The terms of the Agreement require the Investment Manager to, amongst other things:
- (i) invest and manage the portfolio in accordance with the Agreement;
  - (ii) keep the portfolio under review and confer with the Board of the Company at regular intervals in respect of the investment and management of the portfolio;
  - (iii) exercise all due care and vigilance in carrying out its functions, powers and duties under the Agreement; and
  - (iv) promptly notify the Board of any instructions given to it by the Company which have not been complied with.
- (b) The initial term of the Agreement is 10 years. However, the Company may terminate the Agreement at any time by written notice to the Investment Manager where:
- (i) a receiver, receiver and manager, administrative receiver or similar person is appointed with respect to the assets and undertakings of the Investment Manager;
  - (ii) the Investment Manager goes into liquidation;
  - (iii) the Investment Manager ceases to carry on business in relation to its activities as an investment manager;
  - (iv) the Investment Manager breaches any material provision of the Agreement, or fails to observe or perform any representation, warranty or undertaking given by it under the Agreement and fails to correct such breach or failure within 10 business days of receiving notice in writing from the Company specifying such breach or failure;
  - (v) the Investment Manager sells or transfers or makes any agreement for the sale or transfer of the main business and undertaking given by it or its beneficial interest therein, other than to a related body corporate for purposes of corporate reconstruction on terms previously approved in writing by the Company; or

<sup>[1]</sup> This figure represents the 12 month return of the "Portfolio Value" (as defined in of the Investment Management Agreement), which is defined as the aggregate value of each asset or investment of the Company's portfolio. This differs from the Company's 12 month pre-tax NTA return of 14.6% referred to in the Directors' Report, which also includes non-portfolio and non-investment related assets and liabilities.

**Platinum Asia Investments Limited**  
**Notes to the Financial Statements**  
**For the year ended 30 June 2020**

**Note 19. Investment Manager Fees (continued)**

- (vi) the Investment Manager ceases to be licensed under the relevant law or its licence is suspended by ASIC or it is unable to carry out its duties under the Agreement because it has ceased to hold necessary legal authorisations to operate as an investment manager;
- (vii) relevant law requires the Agreement to be terminated.

**Note 20. Key management personnel disclosures**

Details of remuneration paid to the Non-Executive Directors are outlined in the statement of profit or loss and other comprehensive income and in aggregate terms was \$186,150 (2019: \$186,150), with \$170,000 (2019: \$170,000) paid as cash salary and \$16,150 (2019: \$16,150) paid as superannuation. Refer to the Remuneration Report for further details.

*Interests of Directors in securities*

The relevant interest in ordinary shares of the Company that each Director held at balance date was:

	Opening balance	Acquisitions	Disposals	Closing balance
Margaret Towers	50,000	-	-	50,000
Ian Hunter	200,001	-	-	200,001
Malcolm Halstead	1	-	-	1

**Note 21. Remuneration of auditors**

During the year, the following fees were paid or payable for services provided by PricewaterhouseCoopers, the auditor of the Company:

	2020 \$	2019 \$
<i>Audit services - PricewaterhouseCoopers</i>		
Audit and review of the financial statements	71,145	77,446
<i>Other services - PricewaterhouseCoopers</i>		
Taxation compliance services	22,230	25,570
	93,375	103,016

**Note 22. Contingent assets, liabilities and commitments to capital expenditure**

No contingent assets or liabilities existed at 30 June 2020 or 30 June 2019. The Company has no commitments for uncalled share capital on investments.

**Note 23. Related party transactions**

*Management Fees*

Disclosures relating to management fees and performance fees paid and payable to the related party, Platinum Investment Management Limited are set out in Note 19.

*Administration fees*

The Investment Manager provides various administrative services to the Company. These include accountancy, secretarial, performance analytics, taxation, compliance and risk monitoring services. The services provided extend to liaison with the share registry to ensure that accurate share records are maintained and services are provided to shareholders in a timely and efficient manner. In consideration for providing these services, Platinum Investment Management Limited received a payment of \$1 from the Company.

*Investment*

At 30 June 2020, Platinum Investment Management Limited held 30 million ordinary shares in the Company, which represents an interest of 8.2% of the Company's ordinary shares. During the year, Platinum Investment Management Limited received a final 2019 fully-franked dividend of \$600,000 and an interim 2020 fully-franked dividend of \$600,000.

**Platinum Asia Investments Limited**  
**Notes to the Financial Statements**  
**For the year ended 30 June 2020**

**Note 23. Related party transactions (continued)**

*Key management personnel*

Disclosures relating to the aggregate remuneration paid to key management personnel are set out in Note 20 and fully disclosed in the Remuneration Report in the Directors' Report.

*Loans to/from related parties*

There were no loans to or from related parties at reporting date.

**Note 24. Events after the reporting period**

Apart from the dividend declared in Note 10, no other matter or circumstance has arisen since 30 June 2020 that has significantly affected, or may significantly affect the Company's operations, the results of those operations, or the Company's state of affairs in future financial years.

**Note 25. The Company**

Platinum Asia Investments Limited is a company limited by shares, incorporated and domiciled in New South Wales, Australia. Its current registered office and principal place of business is:

Level 8, 7 Macquarie Place  
Sydney NSW 2000

A description of the nature of the Company's operations and its principal activities is included in the Directors' Report.

**Platinum Asia Investments Limited**  
**Directors' Declaration**  
**30 June 2020**

In the Directors' opinion:

- (a) the financial statements and notes set out on pages 16 to 44 are in accordance with the *Corporations Act 2001*, including:
  - (i) complying with Accounting Standards, the *Corporations Regulations 2001* and other mandatory professional reporting requirements; and
  - (ii) giving true and fair view of the Company's financial position as at 30 June 2020 and of its performance for the financial year ended on that date, and
- (b) there were reasonable grounds to believe that the Company will be able to pay its debts as and when they become due and payable.

Note 1 confirms that the financial statements also comply with International Financial Reporting Standards as issued by the International Accounting Standards Board.

The Directors have been given the declarations required by section 295A of the *Corporations Act 2001*.

Signed in accordance with a resolution of Directors made pursuant to section 295(5)(a) of the *Corporations Act 2001*.

## *Independent auditor's report*

To the members of Platinum Asia Investments Limited

### *Report on the audit of the financial report*

---

#### *Our opinion*

In our opinion:

The accompanying financial report of Platinum Asia Investments Limited (the Company) is in accordance with the *Corporations Act 2001*, including:

- a) giving a true and fair view of the Company's financial position as at 30 June 2020 and of its financial performance for the year then ended
- b) complying with Australian Accounting Standards and the *Corporations Regulations 2001*.

#### ***What we have audited***

The financial report comprises:

- the statement of financial position as at 30 June 2020
- the statement of profit or loss and other comprehensive income for the year then ended
- the statement of changes in equity for the year then ended
- the statement of cash flows for the year then ended
- the notes to the financial statements, which include a summary of significant accounting policies
- the directors' declaration.

---

#### *Basis for opinion*

We conducted our audit in accordance with Australian Auditing Standards. Our responsibilities under those standards are further described in the *Auditor's responsibilities for the audit of the financial report* section of our report.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

#### ***Independence***

We are independent of the Company in accordance with the auditor independence requirements of the *Corporations Act 2001* and the ethical requirements of the Accounting Professional and Ethical Standards Board's APES 110 *Code of Ethics for Professional Accountants (including Independence Standards)* (the Code) that are relevant to our audit of the financial report in Australia. We have also fulfilled our other ethical responsibilities in accordance with the Code.

---

#### *Our audit approach*

An audit is designed to provide reasonable assurance about whether the financial report is free from material misstatement. Misstatements may arise due to fraud or error. They are considered material if individually or in

Liability limited by a scheme approved under Professional Standards Legislation.

aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of the financial report.

We tailored the scope of our audit to ensure that we performed enough work to be able to give an opinion on the financial report as a whole, taking into account the geographic and management structure of the Company, its accounting processes and controls and the industry in which it operates.

Platinum Asia Investments Limited is an investment company listed on the ASX. The Company primarily makes investments in Asian equities, excluding in Japan.

Materiality	Audit scope	Key audit matters
<ul style="list-style-type: none"> <li>For the purpose of our audit we used overall materiality of \$4.188 million, which represents approximately 1% of the Company's net assets.</li> <li>We applied this threshold, together with qualitative considerations, to determine the scope of our audit and the nature, timing and extent of our audit procedures and to evaluate the effect of misstatements on the financial report as a whole.</li> <li>We chose net assets because, in our view:               <ul style="list-style-type: none"> <li>-it is the metric against which the performance of the Company is most commonly measured, and</li> <li>-a generally accepted benchmark for listed investment companies</li> </ul> </li> <li>We utilised a 1% threshold based on our professional judgement, noting it is within the range of commonly acceptable thresholds.</li> </ul>	<ul style="list-style-type: none"> <li>Our audit focused on where the Company made subjective judgements; for example, significant accounting estimates involving assumptions and inherently uncertain future events.</li> <li>Our audit approach reflects the nature of the investments held by the Company and the consideration of the work undertaken by third party service providers. The Company outsources certain functions including custody and share registry.</li> <li>The Company's third party service provider engaged an external auditor to provide assurance reports over the design and operating effectiveness of the third party service providers' key internal controls.</li> </ul>	<ul style="list-style-type: none"> <li>Amongst other relevant topics, we communicated the following key audit matter to the Audit, Risk and Compliance Committee:               <ul style="list-style-type: none"> <li>- Investment valuation and existence</li> </ul> </li> <li>This is further described in the <i>Key audit matters</i> section of our report.</li> </ul>

### *Key audit matters*

Key audit matters are those matters that, in our professional judgement, were of most significance in our audit of the financial report for the current period. The key audit matters were addressed in the context of our audit of the financial report as a whole, and in forming our opinion thereon, and we do not provide a separate opinion on these matters. Further, any commentary on the outcomes of a particular audit procedure is made in that context.

Key audit matter	How our audit addressed the key audit matter
<p><b>Investment valuation and existence</b> <i>Refer to Note 1 (summary of significant accounting policies), Note 4 and 5 (financial assets at fair value through profit or loss and financial liabilities at fair value through profit or loss), and Note 17 (fair value measurement).</i></p> <p>At 30 June 2020, investments in financial assets at fair value through profit or loss of \$ 405.617 million and financial liabilities at fair value through profit or loss of \$ 1.024 million were comprised primarily of investments in equity securities, futures contracts and foreign currency forward contracts.</p> <p>The existence and valuation of financial assets at fair value through profit or loss and financial liabilities at fair value through profit or loss was a key audit matter because financial assets and financial liabilities at fair value through profit or loss represent the principal element of the statement of financial position in the financial statements, accounting for 96.61% of net assets. A discrepancy in the valuation or existence of investments could cause net assets to be materially misstated which could also impact the Company's performance as the valuation of financial assets and financial liabilities is the main driver of movements in the profit of the Company.</p>	<p>Our audit procedures on investment valuation included, amongst others:</p> <ul style="list-style-type: none"><li>• We developed an understanding of the Company's pricing policy.</li><li>• For material investments held by the Company, we obtained price data from third party price vendors and compared it to the prices used by the Company.</li></ul> <p>Our audit procedures over investment existence included, amongst others:</p> <ul style="list-style-type: none"><li>• We obtained the most recent System and Organization Controls ("SOC 1") Report issued by the custodian, setting out the controls in place at that service organisation, which included an independent audit opinion over the design and operating effectiveness of those controls.</li><li>• We assessed our ability to place reliance on the service organisations' independent audit reports by considering the auditors' objectivity, experience, competency and the result of their procedures.</li><li>• We evaluated the relevant key controls over investment existence, the tests undertaken by the auditor and the results of these tests and the auditor's conclusions on the design and operational controls to the extent relevant to our audit of the Company. This report and audit opinion is comparable to the Australian equivalent, Australian Standard on Assurance Engagement 3402 issued by the Auditing and Assurance Standards Board.</li><li>• We obtained investment holding confirmations from the custodian as at 30 June 2020 and compared these to the units recorded by the Company. For material differences, we obtained relevant evidence to substantiate the accounting record was correct.</li></ul> <p>We assessed the adequacy of the disclosures to the financial report in light of the requirements of Australian Accounting Standards.</p>

---

### *Other information*

The directors are responsible for the other information. The other information comprises the information included in the annual report for the year ended 30 June 2020, but does not include the financial report and our auditor's report thereon. Prior to the date of this auditor's report, the other information we obtained include the Corporate directory, Shareholder information, Investment Structure, Objectives and Methodology and Director's Report. We expect the remaining other information to be made available to us after the date of this auditor's report.

Our opinion on the financial report does not cover the other information and we do not and will not express an opinion or any form of assurance conclusion thereon.

In connection with our audit of the financial report, our responsibility is to read the other information and, in doing so, consider whether the other information is materially inconsistent with the financial report or our knowledge obtained in the audit, or otherwise appears to be materially misstated.

If, based on the work we have performed on the other information that we obtained prior to the date of this auditor's report, we conclude that there is a material misstatement of this other information, we are required to report that fact. We have nothing to report in this regard.

When we read the other information not yet received, if we conclude that there is a material misstatement therein, we are required to communicate the matter to the directors and use our professional judgement to determine the appropriate action to take.

---

### *Responsibilities of the directors for the financial report*

The directors of the Company are responsible for the preparation of the financial report that gives a true and fair view in accordance with Australian Accounting Standards and the *Corporations Act 2001* and for such internal control as the directors determine is necessary to enable the preparation of the financial report that gives a true and fair view and is free from material misstatement, whether due to fraud or error.

In preparing the financial report, the directors are responsible for assessing the ability of the Company to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless the directors either intend to liquidate the Company or to cease operations, or have no realistic alternative but to do so.

---

### *Auditor's responsibilities for the audit of the financial report*

Our objectives are to obtain reasonable assurance about whether the financial report as a whole is free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with the Australian Auditing Standards will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of the financial report.

A further description of our responsibilities for the audit of the financial report is located at the Auditing and Assurance Standards Board website at: [https://www.auasb.gov.au/admin/file/content102/c3/ar2\\_2020.pdf](https://www.auasb.gov.au/admin/file/content102/c3/ar2_2020.pdf). This description forms part of our auditor's report.

## *Report on the remuneration report*

---

### *Our opinion on the remuneration report*

We have audited the remuneration report included in pages 12 to 13 of the directors' report for the year ended 30 June 2020.

In our opinion, the remuneration report of Platinum Asia Investments Limited for the year ended 30 June 2020 complies with section 300A of the *Corporations Act 2001*.

---

### *Responsibilities*

The directors of the Company are responsible for the preparation and presentation of the remuneration report in accordance with section 300A of the *Corporations Act 2001*. Our responsibility is to express an opinion on the remuneration report, based on our audit conducted in accordance with Australian Auditing Standards.
