In addition, reference should be made to any public pronouncements made in respect of the registered scheme during the interim reporting period.

The financial report covers Platinum International Fund (Quoted Managed Hedge Fund) as an individual entity.

**Platinum International Fund (Quoted Managed Hedge Fund)
Responsible Entity Report
31 December 2020**

The Directors of Platinum Investment Management Limited (trading as Platinum Asset Management®) (ABN 25 063 565 006 AFSL 221935), the responsible entity of the Platinum International Fund (Quoted Managed Hedge Fund) (“PIXX”, the “registered scheme” or “Fund”), present their report on the registered scheme for the half-year ended 31 December 2020.

Principal Activities

The Platinum International Fund (Quoted Managed Hedge Fund) (ASX code: PIX) is an Australian registered managed investment scheme. Its units are quoted on the Australian Securities Exchange (ASX) under the ASX AQUA Rules.

The Fund is an ASX-quoted version of the unlisted flagship fund Platinum International Fund (“PIF”). PIXX is a feeder fund that primarily invests in units of PIF, giving investors access to PIF’s portfolio composition, portfolio managers and investment strategies. The returns of PIXX may vary slightly from the returns of PIF’s performance fee P Class due to different cash holdings and as well as gains and losses on redemptions of PIXX units.

The principal activity of PIXX during the half-year was to invest in units of the PIF and some cash. The underlying fund, or PIF, invests in the securities of companies listed on stock exchanges throughout the world, in accordance with the Product Disclosure Statement (PDS) and the Constitution.

Directors of the Responsible Entity

The Directors of Platinum Investment Management Limited (“PIML”) during the half-year and up to the date of this report, were:

Andrew Clifford
Elizabeth Norman
Andrew Stannard

There were no significant changes to the state of affairs of the registered scheme during the half-year.

Operating and Financial Review (OFR)

At 31 December 2020, PIXX’s Funds Under Management (“FUM”) was \$327.6 million¹ (30 June 2020: \$309.7 million). The six month return for the period from 1 July 2020 to 31 December 2020 was 14.2%² (1 July 2019 to 31 December 2019: 6.7%). The benchmark Morgan Stanley Capital International All Country World Net Index (MSCI) in A\$ terms for the same period was 10.6% (1 July 2019 to 31 December 2019: 8.7%). The Fund’s annualised return since inception date³ on 12 September 2017 to 31 December 2020 was 6.0% (compound per annum), which is below the MSCI which delivered 12.5% since inception.

As at 31 December 2020, PIXX’s Net Asset Value per unit was \$4.7623 (30 June 2020: \$4.1708 after the 30 June 2020 distribution).

¹ The reason for the variance between the FUM figure of \$327.6 million and the net assets figure of \$326.9 million reported in the financial statements relates to the fact that net assets were calculated in accordance with the Australian Accounting Standards and are valued using the redemption price as at 31 December 2020.

² PIXX’s returns are calculated using PIXX’s net asset value per unit (which does not include the buy/sell spread) and represent PIXX’s combined income and capital returns over the specified period. Returns are net of accrued fees and costs, are pre-tax, and assume the reinvestment of distributions.

³ For the purpose of calculating the “since inception date” returns of the MSCI index, PIXX’s inception date (12 September 2017) is used. Index returns assume the reinvestment of dividends from constituent companies, but do not reflect fees and expenses. Platinum does not invest by reference to the weightings of any index or benchmark, and index returns are provided as a reference only. PIXX’s underlying assets are chosen through Platinum’s bottom-up investment process and, as a result, PIXX’s holdings may vary considerably to the make-up of the index.

The investment returns shown are historical and no warranty can be given for future performance. Historical performance is not a reliable indicator of future performance. Due to the volatility of the underlying assets of PIXX and other risk factors associated with investing, investment returns can be negative, particularly in the short-term.

Responsible Entity Report
31 December 2020

In terms of outlook, the Investment Manager has recently noted that:

"We are cautiously optimistic about medium-term returns based on the valuations and outlook for the companies in the portfolio. While we have seen strong stock price appreciation across many holdings, this has occurred in line with the improving prospects that were part of our original investment case. We will continue to take advantage of investment opportunities as they arise, but also maintain a relatively conservatively invested position by keeping cash reserves and short positions as insurance."

Note 5. Fair Value Hierarchy

AASB 13: *Fair Value Measurement* requires the registered scheme to classify its assets held at fair value based on the following fair value hierarchy model:

- a) quoted prices (unadjusted) in active markets for identical assets or liabilities (level 1);
- b) inputs other than quoted prices included within level 1 that are observable for the asset or liability either directly (as prices) or indirectly (derived from prices) (level 2); and
- c) inputs for the assets or liabilities that are not based on observable market data (unobservable inputs) (level 3).

The registered scheme measures and recognises the units held in the Platinum International Fund, as a fair value investment, pursuant to AASB 13, on a recurring basis.

As can be seen from the table below, the registered scheme has no assets that are classified as level 3. For all other financial assets, the carrying value approximates fair value.

the half-year financial report is not in accordance with the *Corporations Act 2001* including giving a true and fair view of the Registered Scheme's financial position as at 31 December 2020 and of its performance for the half-year ended on that date, and complying with Accounting Standard AASB 134 *Interim Financial Reporting* and the *Corporations Regulations 2001*.

A review of a half-year financial report consists of making enquiries, primarily of persons responsible for financial and accounting matters, and applying analytical and other review procedures. A review is substantially less in scope than an audit conducted in accordance with Australian Auditing Standards and consequently does not enable us to obtain assurance that we would become aware of all significant matters that might be identified in an audit. Accordingly, we do not express an audit opinion.
