Profit from ordinary activities after tax attributable to members	-46.43%	18,581
Net profit for the period attributable to members	-46.43%	18,581

Under Australian Accounting Standards, realised profits and losses are added to or reduced by changes in the market value of the Company's total assets. This can lead to large variations in reported profits from any one year to the next.

The Directors consider that the longer term movement of asset values, combined with the flow of dividends, is a better measure of the performance of a listed investment company, such as Platinum Capital Limited.

For the 6 months to 31 December 2014, the Company's net assets on a pre-tax basis increased by 7.0% compared to the return from the MSCI World Index of 13.1%.

The five-year return of the Company's net assets on a pre-tax basis has been 9.2% compared to the return from the MSCI World Index of 11.3%.

Since its inception in 1994, the compound annual appreciation of the Company's net assets on a pre-tax basis has been 12.9% compared to the return from the MSCI World Index of 6.3%.

The Directors believe that there are currently a number of very interesting global investment opportunities available to the Company and the Directors continue to monitor its capital management initiatives, as a means to take advantage of these opportunities.

Dividends

Interim dividend declared	5 cents per share fully-franked
Record date	20 February 2015
The last date for receipt of election notices for the dividend reinvestment plan	23 February 2015
Payable date	13 March 2015

The interim dividend for the previous corresponding period was 3 cents fully-franked. The increased interim dividend reflects the Company's strong returns and the associated increased franking account balance.

The Company's ability to pay franked dividends is dependent on the Company paying income tax. At 31 January 2015, the Company had a realised franking account balance of 7.3 cents per share, which has resulted in a capacity to pay a possible maximum fully-franked dividend of 17.1 cents per share.

Shares on issue totalled 232,190,254 at 31 December 2014.

A 5 cent final fully-franked dividend was declared on 14 August 2014 for the year ended 30 June 2014.

Dividend Reinvestment Plan

The Dividend Reinvestment Plan is in operation and the interim dividend of 5 cents per share qualifies. Participating shareholders will be entitled to be allotted the number of shares (rounded down to the nearest whole number) which the cash dividend would purchase at the relevant issue price.

The relevant issue price for the interim dividend will be at a 2.5 percent discount on the prevailing stock market price (calculated as the average closing price over the five business days subsequent to the date on which the shares cease to trade cum dividend).

Operating and Financial Review

The net profit before tax was \$25,835,000 (2013: net profit before tax of \$49,394,000) and the net profit after tax was \$18,581,000 (2013: net profit after tax of \$34,687,000). Income tax expense for the period was \$7,254,000 (2013: income tax expense of \$14,707,000).

The Directors consider that pre-tax Net Asset Value (NAV) combined with the flow of dividends is a better measure of performance of the Company. For the 6 months to 31 December 2014, the Company's net assets on a pre-tax basis increased by 7.0%, as compared to the 13.1% gain of the benchmark Morgan Stanley World Index (MSCI). The Investment Manager previously mentioned that "we achieved less than the index principally because of our low weighting in the pre-eminent and strongest performing component of the index, the US market."

The Investment Manager notes that "the portfolio has been progressively tilted towards Asia. We can still find shares to buy in the West, but within the reform-minded countries of Asia, there are bargains".

The Company is in a strong financial position with an extremely strong Balance Sheet with few liabilities.

The Directors believe that there are currently a number of very interesting global investment opportunities available to the Company and the Directors continue to monitor its capital management initiatives, as a means to take advantage of these opportunities.

Dividends

On 12 February 2015, the Directors declared a 5 cents per share (\$11,610,000) fully-franked dividend payable to shareholders on 13 March 2015. For the comparative interim reporting period, a fully-franked dividend of 3 cents per share (\$6,912,000) was paid.

NOTES TO THE FINANCIAL STATEMENTS

For the Half-Year Ended 31 December 2014

1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

This general purpose financial report for the half-year reporting period ended 31 December 2014 has been prepared in accordance with Australian Accounting Standard AASB 134: *Interim Financial Reporting*, other mandatory professional reporting requirements and the *Corporations Act 2001*. Compliance with AASB 134 ensures compliance with International Financial Reporting Standard/IAS 34: *Interim Financial Reporting*.

The interim financial report does not include all the notes of the type normally included in the annual financial report. Accordingly, this report is to be read in conjunction with the annual report for the year ended 30 June 2014 and any public announcements made in respect of Platinum Capital Limited during the interim reporting period in accordance with the continuous disclosure requirements of the *Corporations Act 2001*.

The accounting policies adopted are consistent with those of the previous financial year and corresponding interim reporting period, unless otherwise stated. Comparative information has been reclassified, where appropriate, to enhance comparability.

New Accounting Standards and Interpretations

Certain new accounting standards and interpretations have been published that are not mandatory for the 31 December 2014 reporting period. The accounting standards of relevance to the Company are summarised below, together with the Company's assessment of their impact.

(i) Revised AASB 9: *Financial Instruments (addressing accounting for financial liabilities and the de-recognition of financial assets and financial liabilities)* and AASB 2014-1: *Amendments to Australian Accounting Standards*:

The revised standard defers the operative date of AASB 9: *Financial Instruments* from 1 January 2013 to 1 January 2018. AASB 9 provide guidance on the classification and measurement of financial assets and financial liabilities and introduces expanded disclosure requirements and changes in presentation. This standard was assessed as not having a significant impact on the Company.

(ii) *IASB Annual Improvements to IFRS: 2012-2014*

The Annual Improvements to IFRS: 2012-2014 was issued by the International Accounting Standards Board in September 2014 and is the seventh collection of amendments issued under the annual improvement process, which is designed to make necessary, but non-urgent, amendments to IFRSs. The amendments apply for annual periods beginning on or after 1 January 2016 with early adoption permitted. The one amendment of relevance to the Company relates to the information required by IAS 34: *Interim Financial Reporting* that is presented within the interim financial report but not within the actual interim financial statements. The amendment requires that such information be incorporated by way of cross-reference from the interim financial statements to the interim financial report. This amendment was assessed as not having a significant impact on the Company.

There are no other standards that are not yet effective, that are expected to have a material impact on the Company in the current or future reporting periods and on foreseeable future transactions.

2. RECOGNITION OF DEFERRED TAX BALANCES

In line with our existing accounting policy, the Company has exercised judgement in determining the extent of recognition of deferred tax balances. The Company has accumulated net unrealised gains on \$42,919,000 as at 31 December 2014 (30 June 2014: \$48,359,000). The tax impact on these investment gains formed a major part of the overall net deferred tax liability of \$12,313,000 (30 June 2014: \$14,418,000).

* At 31 December 2014, financial assets and liabilities were valued at "last-sale" price for both ASX and financial accounts reporting. The immaterial difference at 31 December 2014 is mainly caused by the ASX requirement that realisation costs need to be deducted for ASX reporting of NAV.

8. FAIR VALUE MEASUREMENT

AASB 13 *Fair Value Measurement* requires the Company to classify its assets and liabilities held at fair value using the following fair value hierarchy model (consistent with the hierarchy model applied to financial assets and liabilities at 30 June 2014):

- (i) quoted prices (unadjusted) in active markets for identical assets or liabilities (level 1);
- (ii) inputs other than quoted prices included within level 1 that are observable for the asset or liability either directly (as prices) or indirectly (derived from prices) (level 2); and
- (iii) inputs for the assets or liability that are not based on observable market data (unobservable inputs) (level 3).

The Company measures and recognises the following financial assets and liabilities at fair value, pursuant to AASB 13, on a recurring basis:

- (i) Equity securities, long equity swaps and long futures;
- (ii) Short equity swaps and short futures; and
- (iii) Forward currency contracts.

NOTES TO THE FINANCIAL STATEMENTS

For the Half-Year Ended 31 December 2014 (continued)

8. FAIR VALUE MEASUREMENT (Continued)

The following tables detail the Company's assets and liabilities measured or disclosed at fair value, using the three level hierarchy model. The Company has no assets or liabilities that are classified as Level 3.

31 December 2014	Level 1 \$'000	Level 2 \$'000	Total \$'000

Total financial assets less liabilities measured at fair value	<u>352,599</u>	<u>897</u>	<u>353,496</u>

All figures presented above can be reconciled to Note 3 and the Statement of Financial Position.

The Company's policy is to recognise transfers into and transfers out of fair value hierarchy levels as at the end of the reporting period. There were no transfers between levels 1 and 2 for any assets or liabilities measured at fair value during the half-year.

Rationale for classification of assets and liabilities as level 1

Nearly all (96% at 31 December 2014) of the equity securities and derivatives held by the Company are valued using unadjusted quoted prices in active markets and are classified as Level 1 in the fair-value hierarchy model.

Rationale for classification of assets and liabilities as level 2

There are certain financial instruments that have been classified as level 2, because a degree of adjustment has been made to the quoted price i.e., whilst all significant inputs required for fair value measurement are observable and quoted in an active market, there is a degree of estimation involved in deriving the fair value. Examples include:

- (i) foreign exchange contracts are classified as level 2 even though forward points are quoted in an active and liquid market. The forward points themselves are based on interest rate differentials;
- (ii) certain P-Notes/warrants are classified as level 2 because they are generally traded over-the counter and are often priced in a different currency to the underlying security;
- (iii) certain Over-The-Counter (OTC) derivatives/options may be classified as level 2 because the price is sourced from the relevant counterparty, even though the price (and in the case of options, the relevant delta) can be verified directly from Bloomberg or verified using option pricing models; and
- (iv) certain index derivatives are classified as level 2 because the Company may agree with the counterparty to include or exclude one or more securities that make up the "basket" of securities that comprise the index derivative. Hence, the quoted price of the index derivative would be very similar, but not identical to the index derivative that the Company held.

The increase in investments classified as level 2 at 31 December 2014 was because the Company invested in more Chinese P-Notes, which in turn was associated with the portfolio strategy of moving away from the US and towards China/India.

The Investment Manager, Platinum Investment Management Limited, receives a monthly Management fee for investment services provided in accordance with the Investment Management Agreement. This Agreement provides for a Management fee payable monthly and calculated at 1.5% per annum of the Portfolio Value (which includes cash and deposits).

A Performance fee is payable at 10%, if at 30 June 2015, the amount by which the Portfolio's annual performance exceeds the return achieved by the MSCI plus 5% (MSCI is the Morgan Stanley Capital International All Country World Net Index in A\$). Where the Portfolio's annual performance is less than the MSCI, the amount of the underperformance is aggregated, carried forward and deducted from the annual performance in the subsequent year before calculating any Performance fee for that year. The aggregate of underperformance is carried forward until a Performance fee becomes payable.

At 31 December 2014, the half-year pre-tax performance of the portfolio was 6.89% and the corresponding MSCI was 13.14%. This represents an underperformance of 6.25% against the MSCI. Accordingly, a Performance fee has not been accrued.

The Investment Manager is to be paid a lump sum termination fee of 1.5%, calculated on the value of the Portfolio on the first day of the month in which termination is effective. The fee is not payable if the termination results from the default or insolvency of the Investment Manager. Additionally, a Performance fee is payable for the period from the last calculation of the Performance fee (as described above) to the date of termination.

Independent auditor's review report to the members of Platinum Capital Limited

Report on the Half-Year Financial Report

We have reviewed the accompanying half-year financial report of Platinum Capital Limited (the Company), which comprises the Statement of Financial Position as at 31 December 2014, the Statement of Comprehensive Income, the Statement of Changes in Equity and the Statement of Cash Flows for the half-year ended on that date, selected explanatory notes and the Directors' Declaration.

Directors' responsibility for the half-year financial report

The Directors of the Company are responsible for the preparation of the half-year financial report that gives a true and fair view in accordance with Australian Accounting Standards (including the Australian Accounting Interpretations) and the *Corporations Act 2001* and for such internal control as the Directors determine is necessary to enable the preparation of the half-year financial report that is free from material misstatement whether due to fraud or error.

Auditor's responsibility

Our responsibility is to express a conclusion on the half-year financial report based on our review. We conducted our review in accordance with Australian Auditing Standard on Review Engagements ASRE 2410 *Review of a Financial Report Performed by the Independent Auditor of the Entity*, in order to state whether, on the basis of the procedures described, we have become aware of any matter that makes us believe that the financial report is not in accordance with the *Corporations Act 2001* including: giving a true and fair view of the entity's financial position as at 31 December 2014 and its performance for the half-year ended on that date; and complying with Accounting Standard AASB 134 *Interim Financial Reporting* and the *Corporations Regulations 2001*. As the auditor of Platinum Capital Limited, ASRE 2410 requires that we comply with the ethical requirements relevant to the audit of the annual financial report.

A review of a half-year financial report consists of making enquiries, primarily of persons responsible for financial and accounting matters, and applying analytical and other review procedures. A review is substantially less in scope than an audit conducted in accordance with Australian Auditing Standards and consequently does not enable us to obtain assurance that we would become aware of all significant matters that might be identified in an audit. Accordingly, we do not express an audit opinion.

Independence

In conducting our review, we have complied with the independence requirements of the *Corporations Act 2001*.

Conclusion

Based on our review, which is not an audit, we have not become aware of any matter that makes us believe that the half-year financial report of Platinum Capital Limited is not in accordance with the *Corporations Act 2001* including:
