### **WEEKLY PRE-TAX NET TANGIBLE ASSET ('NTA') UPDATE**

By e-Lodgement

Platinum Asia Investments Limited ("**PAI**") advises that its estimated weekly pre-tax NTA per share as at Friday, 9 October 2015 was \$0.9700.

The figure is unaudited and indicative only. In addition, the figure does not include the effect of any dilution that would arise from the conversion of any unexercised options.

At 9 October 2015, 72% of the portfolio has been invested, with the remainder being held in cash and cash equivalents. As noted in the Prospectus, the investment manager will proceed to fully invest the portfolio at a price and time that it believes to be appropriate. The investment manager estimates that this process may take up to six months from PAI listing on 16 September 2015.
