In preparation for listing, a restructure was undertaken, in which the Company sold or transferred all of its assets, other than its beneficial interest in shares in Platinum Asset Management and sufficient cash to meet its year to date income tax liability. The Company then split its issued share capital of 100 shares into 435,181,783 ordinary shares. It then took its beneficial interests of Platinum Investment Management Limited to 100%, through scrip for scrip offers, in consideration for the issue of 125,818,217 ordinary shares in the Company.

As a result of the share split and takeover offers, the Company had 561,000,000 ordinary shares on issue and beneficially held 100% of the issued share capital of Platinum Investment Management Limited. Subsequently, 140,250,000 shares on issue representing 25% of the issued shares of the Company were sold to the public by existing Shareholders.

The capital reserve represents the difference between consideration paid for the purchase of the minority interests and the share of net assets acquired.
