1. & 2. Source: Platinum for Fund returns and RIMES Technologies for MSCI returns. The returns are calculated relative to the MSCI All Country World Net Index in A\$. The investment returns depicted in the graph are cumulative on A\$20,000 invested in the Fund since inception. Past performance is not a reliable indicator of future returns. It should be noted that Platinum does not invest by reference to the weightings of the index. Underlying assets are chosen through Platinum's bottom up stock selection process and as a result holdings will vary considerably from the make-up of the index. The index is provided as a reference only.
