1. & 2. Source: Platinum for Fund returns and RIMES Technologies for MSCI returns. Investment returns are calculated using the Fund's NAV unit price (i.e. exclude a buy/sell spread) for C Class and P Class (as indicated), and represent the combined income and capital returns for each of these unit classes in the specified period. All returns are pre-tax, net of fees and costs and assume the reinvestment of distributions. Returns for P Class are net of any accrued investment performance fee. The returns are calculated relative to the MSCI All Country World Net Index in A\$. Since inception date for C Class is 18/05/00 and for P Class is 03/07/17. Since inception date of C Class has been used for the purposes of calculating since inception returns of the index. The investment returns depicted in the graph are cumulative on A\$20,000 invested in C Class units in the Fund since the C Class inception date. Past performance is not a reliable indicator of future returns. It should be noted that Platinum does not invest by reference to the weightings of the index. The index is provided as a reference only.

3. The "Long %" is the exposure to long securities and long securities/index derivative positions, the "Short %" is the exposure to short securities and short securities/index derivative positions and the "Net %" is the exposure to long and short securities and long and short securities/index derivative positions, each as a percentage of the Fund's net asset value. The "Currency %" is the effective currency exposure as a percentage of the Fund's net asset value, taking into account long and short securities, cash, forwards and long and short securities/index derivative positions. For the "Industry breakdown", index positions (whether through ETFs or derivatives) are only included under the relevant sector if they are sector specific, otherwise they are included under "Other".

3. and 4. China generally refers to securities or derivatives over securities, which securities are listed on the Shanghai or Shenzhen stock exchange. China Ex PRC generally refers to securities or derivatives over securities, which securities are listed outside of the PRC but provide exposure to PRC companies.

4. The "Top ten positions" show the Fund's top ten long securities positions as a percentage of the Fund's net asset value (including long securities and long securities derivative positions).
