	International Fund \$'000	Unhedged Fund \$'000	Asia Fund \$'000	European Fund \$'000	Japan Fund \$'000	International Brands Fund \$'000	International Health Care Fund \$'000	International Technology Fund \$'000
Net Operating Profit/(Loss) 2013	2,369,922	53,927	763,413	38,201	136,341	227,815	14,194	8,791
2012	(557,521)	(9,400)	(213,193)	(6,529)	(17,120)	(35,752)	1,235	(637)
The distributions of the registered schemes at 30 June wer	re:							
Distribution Paid and Payable 2013	204,282	1,737	66,009	-	-	56,164	1,693	-
2012	126,374	1,818	28,102	16,367	-	51,224	1,325	-
Distribution (cents per unit) 2013	4.30	1.06	4.69	-	-	13.89	3.85	-
2012	2.40	1.15	2.02	24.46	-	15.54	4.89	-
The redemption prices of the registered schemes at 30 Jur	ne were:							
Redemption Price – (cum-distribution) 2013	1.7871	1.2864	2.5323	2.2314	2.7130	2.5132	1.4516	1.1989
2012	1.3252	0.9604	1.9901	1.9433	1.6839	2.0433	1.1251	0.9479

# Matters subsequent to the end of the year

Except as disclosed in the financial report, no other matter or circumstance has arisen since 30 June 2013 that has significantly affected or may significantly affect:

- (i) the operations of the registered schemes in future years; or
- (ii) the results of those operations in future years; or
- (iii) the states of affairs of the registered schemes in future years.

# **Responsible Entity Report (cont)**

#### Likely developments

The registered schemes will continue to pursue their investment objectives so as to increase their net asset values. The method of operating the registered schemes is not expected to change in the foreseeable future.

#### Indemnification and insurance of officers and auditors

No insurance premiums are paid for out of the assets of the registered schemes with regard to insurance cover provided to either the Investment Manager, Platinum Investment Management Limited, or the Auditor of the registered schemes. So long as the officers of the responsible entity act in accordance with the schemes' Constitution and the Law, they remain fully indemnified out of the assets of the registered schemes against any losses incurred while acting on behalf of the registered schemes. The Auditor of the registered schemes is in no way indemnified out of the assets of the registered schemes.

#### Fees paid to and interests held in the registered scheme

Fees paid to the responsible entity out of registered schemes' property during the year are disclosed in Note 12 to the financial statements. No fees were paid out of the registered schemes' property directly to the Directors of the responsible entity during the year.

#### Units on issue

The movements in units on issue in the registered schemes during the year have been disclosed in Note 6 to the financial statements.

#### **Environmental regulation**

The operations of the registered schemes are not subject to any particular or significant environmental regulations under Commonwealth, State or Territory law.

#### Rounding of amounts to the nearest thousand dollars

The registered schemes are of a kind referred to in the Australian Securities & Investments Commission's Class Order 98/0100 (as amended) and consequently amounts in the Responsible Entity Report and financial report have been rounded to the nearest thousand dollars in accordance with that Class Order, unless otherwise indicated.

## Including different registered scheme financial reports in a single document

The registered schemes have applied Australian Securities and Investments Commission's Class Order 06/441, which allows registered schemes with a common responsible entity to include their financial statements in adjacent columns in a single financial report.

## Auditor's independence declaration

A copy of the Auditor's Independence Declaration as required under section 307C of the Corporations Act 2001 is attached on page 5.

This report is made in accordance with a resolution of the Directors.

Philip Howard Director Sydney 14 August 2013

# **Auditor's Independence Declaration**

As lead auditor for the audit of the Platinum International Fund, the Platinum Unhedged Fund, the Platinum Asia Fund, the Platinum European Fund, the Platinum Japan Fund, the Platinum International Brands Fund, the Platinum International Health Care Fund, and the Platinum International Technology Fund for the year ended 30 June 2013, I declare that to the best of my knowledge and belief, there have been:

no contraventions of the auditor independence requirements of the Corporations Act 2001 in relation to the audits; and b) contraventions of any applicable code of professional conduct in relation to the audits.

This declaration is in respect of the Platinum International Fund, the Platinum Unhedged Fund, the Platinum Asia Fund, the Platinum European Fund, the Platinum Japan Fund, the Platinum International Brands Fund, the Platinum International Health Care Fund, and the Platinum International Technology Fund during the period.

#### **Note 1 General Information**

This financial report covers the Platinum International Fund, Platinum Unhedged Fund, Platinum European Fund, Platinum Japan Fund, Platinum International Brands Fund, Platinum International Health Care Fund and Platinum International Technology Fund (collectively referred to as "the registered schemes"), as individual entities.

Platinum Investment Management Limited ABN 25 063 565 006 AFSL 221935 is the responsible entity of the registered schemes. The registered office is Level 8, 7 Macquarie Place, Sydney, NSW 2000.

Registered Scheme	Date of Commencement	Registered Scheme	<b>Date of Commencement</b>
Platinum International Fund	4 April 1995	Platinum Japan Fund	12 June 1998
Platinum Unhedged Fund	19 January 2005	Platinum International Brands Fund	11 April 2000
Platinum Asia Fund	3 March 2003	Platinum International Health Care Fund	5 November 2003
Platinum European Fund	12 June 1998	Platinum International Technology Fund	11 April 2000

Each registered scheme may be wound up on the day immediately preceding the 80<sup>th</sup> anniversary of the Date of Commencement, unless terminated earlier in accordance with the provisions of the Constitution.

The financial report was authorised for issue by the Directors of the responsible entity on 14 August 2013. The Directors have the power to amend the financial report after issue.

# Note 2 Summary of Significant Accounting Policies

#### (a) Basis of preparation of the financial statements

The financial statements have been prepared in accordance with the requirements of the registered schemes' Constitution, Australian Accounting Standards and Interpretations issued by the Australian Accounting Standards Board and the *Corporations Act 2001*. Each registered scheme is a for-profit entity for the purpose of preparing the financial report.

The financial statements have been prepared on the basis of fair value measurement of assets and liabilities except where otherwise stated.

The Balance Sheets are presented on a liquidity basis. Specifically, assets and liabilities are presented in decreasing order of liquidity and do not distinguish between current and non-current assets and liabilities.

For the year ended 30 June 2013 (cont)

#### **Note 2 Summary of Significant Accounting Policies (cont)**

#### (a) Basis of preparation of the financial statements (cont)

Compliance with International Financial Reporting Standards

The financial statements of the registered schemes also comply with International Financial Reporting Standards as issued by the International Accounting Standards Board.

Critical Accounting Estimates

The preparation of the financial statements requires the use of certain critical accounting estimates and judgements, which are included in the accounting policies below.

#### (b) Income Tax

Under current tax legislation, the registered schemes are not subject to income tax as unitholders are presently entitled to the income of the Fund.

The benefits of any offsets for foreign tax paid are passed on to unitholders.

#### (c) Financial Assets and Liabilities at Fair Value through Profit or Loss

Under AASB 139, marketable equity securities are designated in the Balance Sheets as "financial assets at fair value through profit or loss". These include financial assets that have quoted prices in active markets and can be reliably measured. This designation is consistent with the Investment Manager's general stock selection policy of selecting investments that are liquid and actively traded. These investments are initially recognised at fair value excluding transaction costs, which are expensed as incurred. Investments are valued based on quoted "bid" prices on long securities. Gains and losses arising from changes in the fair value of the financial assets are included in the Statements of Comprehensive Income in the period they arise.

In accordance with Australian Accounting Standards, derivative financial instruments are categorised as "financial assets/liabilities held for trading" and are accounted for at fair value, with changes to such values recognised through the Statements of Comprehensive Income in the period they arise. Derivative financial instruments are valued based on quoted "bid" prices for long equity swaps and long futures. Short equity swaps and short futures are valued based on quoted "ask" prices. Gains and losses arising from changes in the fair value of the financial assets/liabilities are included in the Statements of Comprehensive Income in the period they arise.

Forward currency contracts are categorised as "financial assets/liabilities held for trading" and are initially recognised at fair value on the date the contracts are entered into and are subsequently re-measured at each reporting date. The fair value at reporting date is the unrealised profit or loss on the foreign currency position (in Australian dollars).

Fair value in an active market

The fair value of financial assets and liabilities traded in active markets is based on quoted market prices at reporting date without any deduction for estimated future selling costs. Long securities, long equity swaps and long futures are priced at "bid" prices, whilst short equity swaps and short futures are priced at "ask" prices.

For the year ended 30 June 2013 (cont)

#### Note 2 Summary of Significant Accounting Policies (cont)

#### (c) Financial Assets and Liabilities at Fair Value through Profit or Loss (cont)

Fair value in an inactive or unquoted market

The fair value of financial assets and liabilities that are not traded in an active market is determined using valuation techniques. These include the use of recent arm's length market transactions, discounted cash flow techniques or any other valuation technique that provides a reliable estimate of prices obtained in actual market transactions. Options are valued with reference to the quoted price of the underlying index or share. If there is no liquid market available, the options are valued based on option prices provided by an arm's length broker. These valuations are based on option pricing models.

#### Recognition/derecognition

The registered schemes recognise financial assets on the date they become party to the purchase contractual agreement (trade date) and recognise changes in fair value of the financial assets from this date.

The registered schemes no longer recognise financial assets on the date they become party to the sale contractual agreement (trade date).

#### (d) Transaction costs

Initial measurement (cost) on acquisition of trading securities shall not include directly attributable transaction costs, such as fees and commissions paid to agents. Incremental transaction costs on financial assets at fair value through profit or loss are expensed immediately.

#### (e) Net assets attributable to unitholders

Units on issue give the unitholder a right to redeem units at the redemption price. The registered schemes have more than one class of unit on issue. Therefore, net assets attributable to unitholders are considered a liability rather than equity. The liability represents the balance of the net assets of the registered schemes at reporting date. As unitholders' funds are classed as a liability under Australian Accounting Standards, it will be necessary to recognise "(increase)/decrease in net assets attributable to unitholders" in the Statements of Comprehensive Income as a financing cost.

## (f) Foreign currency translation

The functional and presentation currency of the registered schemes, in accordance with AASB 121: The Effects of Changes in Foreign Exchange Rates, will be the Australian dollar.

Transactions denominated in foreign currencies are translated into Australian currency at the rates of exchange prevailing on the date of the transaction. Foreign currency assets and liabilities for each Balance Sheet presented are translated at exchange rates at the closing rate at the date of that Balance Sheet. Resulting exchange differences are brought to account in determining profit and loss for the year.

For the year ended 30 June 2013 (cont)

#### Note 2 Summary of Significant Accounting Policies (cont)

#### (g) Investment income

Interest Income

Interest income is recognised in the Statements of Comprehensive Income, based on the nominated interest rate available on the bank accounts held at various locations throughout the world.

Dividend Income

Dividend income is brought to account on the applicable ex-dividend date.

#### (h) Distributions

In accordance with each registered schemes' Constitution, each registered scheme fully distributes any distributable income to unitholders by cash or reinvestment. Distributable income is determined by reference to the taxable income of the registered scheme.

#### (i) Receivables

All receivables are recognised when a right to receive payment is established. Debts that are known to be uncollectible are written off. A provision for doubtful debts is raised where there is evidence the amount will not be collected.

#### (j) Payables

All payables are recognised as and when the registered schemes become liable.

#### (k) Applications and redemptions

Applications received for units in the registered schemes are recorded net of any entry fees payable prior to the issue of units in the registered schemes. Redemptions from the registered schemes are recorded gross of any exit fees payable after the cancellation of units redeemed. The redemption price is determined by reference to the net assets of the registered scheme divided by the number of units on issue at or immediately prior to close of business each day. Issues and redemptions of units are processed simultaneously.

# (l) Rounding of amounts to the nearest thousand dollars

The registered schemes are of a kind referred to in the Australian Securities & Investments Commission's Class Order 98/0100 (as amended) and consequently amounts in the Responsible Entity Report and financial report have been rounded to the nearest thousand dollars in accordance with that Class Order, unless otherwise indicated.

#### (m) Including different registered scheme financial reports in a single document

The registered schemes have applied Australian Securities and Investments Commission's Class Order 06/441, which allows registered schemes with a common responsible entity to include their financial statements in adjacent columns in a single financial report.

For the year ended 30 June 2013 (cont)

#### Note 2 Summary of Significant Accounting Policies (cont)

### (n) Goods and Services Tax (GST)

The GST paid on the costs of various services provided to the registered schemes, such as Investment Management fees, has been passed onto the registered schemes. Investment Management fees have been recognised in the Statements of Comprehensive Income net of the amount of GST recoverable from the Australian Taxation Office (ATO). GST recoverable from the ATO at reporting date is included in receivables in the Balance Sheets. Cash flows relating to GST are included in the Statements of Cash Flows on a gross basis.

#### (o) Operating segments

The registered schemes are outside the scope of AASB 8 *Operating Segments* as they do not satisfy the requirement, under AASB 8, of having debt or equity instruments traded in a public market, or file their financial statements with a securities commission or other regulatory organisation for the purpose of issuing any class of instruments in a public market.

## (p) Cash and cash equivalents

For the purposes of the Statements of Cash Flows, cash includes deposits held at call with financial institutions, cash held in margin accounts and other short term, highly liquid investments with original maturities of three months or less that are readily convertible to known amounts of cash and that are subject to an insignificant risk of changes in value.

Margin accounts comprise cash held as collateral for derivative transactions.

Payments and receipts relating to the purchase and sale of financial assets are classified as "cash flows from operating activities" as realised and unrealised gains (and losses) on financial assets represent the registered schemes' main operating activity.

#### (q) Due to/from brokers for unsettled trades

Amounts due to/from brokers represent payables for securities purchased and receivables for securities sold that have been contracted for, but not yet delivered by the reporting date. Trades are recorded on trade date. Proceeds on sale of investments are usually received between two and five days after trade date. Payables on purchase of investments are usually paid between two and five days after trade date.

## (r) New accounting standards and interpretations

Certain new accounting standards and interpretations have been published that are not mandatory for 30 June 2013 reporting period. The accounting standards of relevance to the registered schemes are discussed below as is the assessment of their impact.

(i) Revised AASB 9 Financial Instruments (addressing accounting for financial liabilities and the derecognition of financial assets and financial liabilities), AASB 2010-7
Amendments to Australian Accounting Standards arising from AASB 9 (December 2010) and AASB 2012-6 Amendments to Australian Accounting Standards - Mandatory
Effective Date of AASB 9 and Transition Disclosures (effective for annual reporting periods beginning on or after 1 January 2015)
The revised standard defers the operative date of AASB 9 Financial Instruments from 1 January 2013 to 1 January 2015. AASB 9 provides guidance on the classification and measurement of financial assets and this standard was assessed at 30 June 2012 as not having a significant impact on the registered schemes.

For the year ended 30 June 2013 (cont)

#### Note 2 Summary of Significant Accounting Policies (cont)

#### (r) New accounting standards and interpretations (cont)

- (ii) AASB 13 Fair Value Measurement and AASB 2011-8 Amendments to Australian Accounting Standards arising from AASB 13 (effective 1 January 2013)

  AASB 13 explains ways to measure fair value and aims to enhance fair value disclosures. The registered schemes have yet to determine which, if any, of its current measurement techniques will have to change as a result of the new guidance. It is therefore not possible to state the precise impact, if any, of the new rules on any of the amounts recognised in the financial statements. However, application of the new standard will impact the type of information disclosed in the notes to the financial statements. The registered schemes do not intend to adopt the new standard before its operative date, which means that it would be first applied in the annual reporting period beginning 1 July 2013.
- (iii)AASB 2011-4 Amendments to Australian Accounting Standards to Remove Individual Key Management Personnel Disclosure Requirements (effective for annual reporting periods beginning on or after 1 July 2013)
  - The revised standard removes the individual key management personnel (KMP) disclosure requirements from AASB 124 *Related Party Disclosures*, for all disclosing entities to achieve consistency with the international equivalent standard and remove a duplication of the requirements with the *Corporations Act 2001*. Whilst this will reduce the disclosures that are currently required in the notes to the financial statements, it will not affect any of the amounts recognised in the financial statements. The amendments apply from 1 July 2013 and cannot be adopted early. The *Corporations Act* requirements in relation to remuneration reports will remain unchanged for now, but these requirements are currently subject to review and may also be revised in the future.
- (iv) Offsetting Financial Assets and Financial Liabilities (Amendments to IAS 32 Financial Instruments: Presentation) (effective for annual periods beginning on or after 1 July 2014)

  These amendments clarify some of the requirements for offsetting financial assets and financial liabilities. Specifically, the amendments clarify the meaning of "currently has legally enforceable right to set off" and also clarifies the application of IAS 32 offsetting criteria to settlement systems. This standard would not have a significant impact on the disclosures contained in the financial report. The registered schemes will apply the standard from 1 July 2014.
- (v) Disclosures Offsetting Financial Assets and Financial Liabilities (Amendments to IFRS 7 Financial Instruments: Disclosures) (effective for annual periods beginning on or after1 July 2013)
  - These disclosures introduce more extensive disclosure requirements into IFRS 7, which focuses on quantitative information about recognising financial instruments that are offset in the Statement of Financial Position, as well as those recognised financial instruments that are subject to an enforceable master netting arrangement or similar agreement. The standard would not have a significant impact on the disclosures already made. The registered schemes will apply the standard from 1 July 2013.

There are no other standards that are not yet effective that are expected to have a material impact on the entity in the current or future reporting periods and on foreseeable future transactions.

## **Note 4 Taxation**

Other advisory services – Foreign tax agent

Under current tax legislation, the individual registered schemes are not subject to income tax, as taxable income (including assessable net realised capital gains) is distributed in full to unitholders.

Information relating to the registered schemes' exposures of payables to liquidity risk is provided in Note 10.

For the year ended 30 June 2013 (cont)

#### **Note 10 Financial Risk Management**

#### (a) Financial Risk Management Objectives, Policies and Processes

The registered schemes' primary risks are related to the investment activities undertaken on its behalf by the responsible entity. The risks that the schemes are exposed to include market risk (including currency risk and price risk), credit risk and liquidity risk.

The responsible entity's investment style:

- adopts a bottom-up stock selection methodology such that long-term capital growth is sought through investing in undervalued securities across the world;
- seeks absolute returns and not returns relative to any index;
- invests excess funds in cash when undervalued stocks cannot be found; and
- actively manages currency.

Derivatives (which include equity swaps, futures and options) are utilised for risk management purposes and to take opportunities to increase returns. The underlying value of derivatives held by a registered scheme may not exceed 100% of the net asset value of that scheme. The underlying value of long stocks and derivative contracts may not exceed 150% of the net asset value of that scheme. Each of the registered schemes complied with its investment mandate as at 30 June 2013. The registered schemes do not generally enter or trade derivatives for speculative purposes.

Futures Notional Cost Amounts 30 June 2013 (654)

Futures Notional Cost Amounts 30 June 2012 (797)

The "Physical" column above represents the location of the registered schemes' investments. The "Long/Short Contracts" columns include the notional value of long/short equity swaps and futures.

The "Net Exposure" column above represents an approximation of each registered schemes' exposures to movements in the markets. This is calculated by making an adjustment to the "physical" position by adding to the physical position, the principal notional amount of any long (bought) positions and subtracting any short (sold) derivative positions in shares and shares index futures. For example, if 5% of the Portfolio for a registered scheme was invested in Japan, but there was a 2% short exposure to Nikkei futures, the Net Exposure column would show 3%. Conceivably, the figure could show a negative exposure, which would indicate the Portfolio was net short the Japanese market.

For the year ended 30 June 2013 (cont)

#### **Note 10 Financial Risk Management (cont)**

#### (c) Market Risk

#### (i) Foreign Exchange Risk

Foreign exchange risk is the risk the fair value or future cash flows of financial instruments will fluctuate due to changes in foreign exchange rates.

The registered schemes operate internationally and are exposed to foreign exchange risk arising from buying, selling and holding investments denominated in foreign currency.

Currency hedging is an integral part of the management of currency risk. The Investment Manager positions a registered scheme's portfolio in what it believes will be a stronger currency(ies). For example, at 30 June 2013, Platinum International Fund's currency exposures were: 54% in the United States Dollar, 32% in European currencies, 13% in Asian currencies, ex the Japanese Yen, 2% in the Japanese Yen, 1% in the Canadian Dollar and -2% in the Australian Dollar.

The Investment Manager may use forward foreign exchange contracts and futures and option contracts on foreign exchange rate contracts to position a registered scheme's portfolio in the desired currencies. A currency exposure may be hedged using a different currency from which the exposure is maintained (for example, US dollar hedges may be used to hedge the currency risk of holding investments in Hong Kong dollars).

Where there have been major currency movements, or where currencies are perceived to be over or undervalued, the Investment Manager may look for investments whose operating environment has been distorted by the currency as part of the search for undervalued stocks. There may even be opportunities for stocks impacted by a lower currency (for example, export-oriented stocks).

# (c) Market Risk (cont)

# (i) Foreign Exchange Risk (cont)

In respect of the Platinum Unhedged Fund, there is no currency management undertaken. The disposition of its investments determines its currency exposure.

The table below summarises the registered schemes' investment exposures at fair value to foreign exchange risk:

#### **Note 10 Financial Risk Management (cont)**

#### (c) Market Risk (cont)

#### (i) Foreign Exchange Risk (cont)

Forward foreign currency contracts and options on forward currency contracts are adjusted against the "Physical" column to arrive at a "Net Exposure" for each currency grouping. The registered schemes generally utilise short dated (90 day maturity) currency agreements with high credit rating counterparties. Generally, the existing forward currency maturity dates range from 14 to 75 days.

Foreign exchange risk sensitivity analysis

The sensitivity analysis below shows the impact a 10% movement in foreign currency at reporting date would have on the registered schemes' profit on monetary and non-monetary assets and liabilities such as cash, forward contracts and equities.

A sensitivity of 10% has been selected as this is considered reasonably possible given current exchange rates and the volatility observed both on a historic basis and possible future movements. The table presents the foreign currency or currencies with the largest impact on profit for each registered scheme.

	2013 +10% \$'000	2013 -10% \$'000	2012 +10% \$'000	2012 -10% \$'000		2013 +10% \$'000	2013 -10% \$'000	2012 +10% \$'000	2012 -10% \$'000
International Fund					Unhedged Fund				
United States Dollar	(415,595)	507,951	(324,272)	397,610	United States Dollar	(7,546)	9,222	(5,430)	6,637
Euro	(183,558)	224,349	(67,334)	82,296	Japanese Yen	(4,940)	6,038	(3,154)	3,855
Asia Fund					European Fund				
United States Dollar	(88,856)	108,601	(23,459)	28,727	Euro	(5,120)	6,258	(2,299)	2,811
Korean Won	(50,085)	61,215	(37,302)	45,592					
Japan Fund					<b>International Brands Fund</b>				
United States Dollar	(18,045)	22,055	(15,763)	19,501	Euro	(19,114)	23,362	(15,981)	19,311
Japanese Yen	(14,021)	17,136	(11,977)	14,682	United States Dollar	(20,321)	24,837	(11,740)	14,846
International Health Care Fund					<b>International Technology Fund</b>				
United States Dollar	(2,038)	2,490	(881)	1,073	United States Dollar	(1,694)	2,072	(901)	1,088
Euro	(1,325)	1,619	(572)	699	Euro	(735)	898	(222)	286

The sensitivity analysis shows that the registered schemes are all materially affected by exchange rate movements (other things being equal), given the global nature of the investments held. Throughout 2012/2013, most of the registered schemes have had minimal exposure to the Australian Dollar, whilst emphasising the United States Dollar.

For the year ended 30 June 2013 (cont)

#### **Note 10 Financial Risk Management (cont)**

(c) Market Risk (cont)

#### (ii) Interest Rate Risk

Interest rate risk is the possibility the fair value or future cash flows of financial instruments will fluctuate because of changes in market interest rates.

The overwhelming majority of the registered schemes' financial assets and liabilities are non-interest bearing. The registered schemes have a policy of not borrowing money, other than for settlement of trades. Therefore, there is no liability exposure to interest rate risk.

Interest rate risk indirectly affects the registered schemes because interest rate movements will affect forward points used in determining gains or losses on forward contracts. This is not capable of precise estimation. The impact of interest rate movements on our investments is also not capable of precise estimation.

At 30 June 2013 and 2012, if interest rates had changed by -/+ 100 basis points with all other variables held constant, the direct impact on interest receivable would not be significant for any of the registered schemes.

#### (iii) Price Risk

Market prices fluctuate due to a range of factors specific to the individual investments or factors affecting the market in general.

Platinum Asset Management's stock selection process is core to the management of price risk. Moreover, whilst we use the MSCI to measure relative performance, risk in our view is not solely relative performance versus a benchmark - but also the prospect of losing money (i.e. absolute returns). Platinum adopts a thematic stock selection approach and is referred to being an "active manager". Platinum seeks a broad range of investments whose business and growth prospects are being undervalued by the market. Accordingly, holdings in each of the registered schemes vary considerably from the make-up of the index. Active fund managers such as Platinum seek to out perform the market as represented by an appropriate index.

In addition, the registered schemes (other than Platinum Unhedged Fund) may enter into short equity swaps and futures to protect against market movements. At 30 June 2013, some of the registered schemes maintained short positions against various company specific stocks and market indices. The use of index derivatives allows a Fund to invest in particular companies, whilst providing some degree of protection against more general adverse market price movements.

## (c) Market Risk (cont)

## (iii) Price Risk (cont)

Price risk sensitivity analysis

Price risk exposure arises from the registered schemes' investment portfolios that comprise investments in securities. The effect on net assets attributable to unitholders due to a reasonably possible change in market factors, as represented by a -/+ 5% movement in the key regional equity index or indices affecting the market that each registered scheme invests in, with all other variables held constant is indicated as follows:

	2013 +5% \$'000	2013 -5% \$'000	2012 +5% \$'000	2012 -5% \$'000		2013 +5% \$'000	2013 -5% \$'000	2012 +5% \$'000	2012 -5% \$'000

For the year ended 30 June 2013 (cont)

#### **Note 10 Financial Risk Management (cont)**

#### (c) Market Risk (cont)

#### (iii) Price Risk (cont)

A sensitivity of 5% has been selected as this is considered reasonably possible. However, given the volatility of the markets, increases or decreases greater than this are possible. We note that since 30 June 2013, global markets have experienced significant volatility.

Note that the above analysis is based on the assumption that the registered schemes' stocks moved in correlation with the respective index or indices. The index or indices provided above is a reference point only. Actual movements in stock prices may vary significantly to movements in the index.

The above sensitivity analysis for price risk is unrepresentative of the market exposure for the registered schemes because Platinum Asset Management does not invest by reference to the weighting or inclusion of a stock in a specific index. An investment management style where the composition of the portfolio is by reference to global share index weightings is often referred to as an "index manager". An index manager tries to match a particular index by investing in securities that are representative of that index.

#### (d) Credit Risk

Credit risk relates to the risk of a counterparty defaulting on a financial obligation resulting in a loss to a registered scheme (typically "non-equity" financial instruments).

The exposure to credit risk for futures, equity swaps, and forward currency contracts is any unrealised profit, margins and collateral paid on the positions (the money a registered scheme would lose if the counterparty defaulted) at reporting date.

(Source: Platinum and Standard & Poor's)

The Investment Manager regularly monitors the registered schemes' credit risk exposures to counterparties and seeks to manage the risk by spreading exposure over a number of counterparties, by signing standard International Swaps and Derivatives Association (ISDA) master agreement and net settlement contracts, employing two-way symmetrical margining of unrealised profits and losses and by controlling the duration of contracts to be short-term.

Transactions in listed securities and investments are only entered into with approved brokers. Payment is only made once a broker has received securities and delivery of securities sold only occurs once the broker receives payment.

## Note 10 Financial Risk Management (cont)

## (e) Liquidity Risk

The registered schemes are exposed to cash redemptions of redeemable units. They hold equities that are traded on active markets and, if necessary, these can be readily disposed.

Contractual maturity analysis

## (i) Non-financial liabilities

The amounts below represent the contractual maturity of non-financial liabilities. Note that net assets attributable to unitholders are only included in the maturity analysis below because, under Australian Accounting Standards, unitholders' equity is classified as a liability. For management purposes, net assets attributable to unitholders are not an operating liability.

58

16

At 30 June 2013, there are no other contractual amounts due or payable after three months.

Except for short equity swaps and futures, the maximum capital risk resulting from financial instruments is determined by the fair value of financial instruments. Potential losses from equity swaps and futures are limited to available capital.

1,896

The registered schemes are exposed to daily cash redemptions. If necessary, investments may be realised to cover these redemptions as they are generally readily convertible to cash. The risk management guidelines adopted are designed to minimise liquidity risk through:

• ensuring that there is no significant exposure to illiquid or thinly traded financial instruments; and

2,706

• applying limits to ensure there is no concentration of liquidity risk to a particular counterparty or market.

The registered schemes prepare daily cash forecasts and maintain sufficient cash to meet normal operating requirements. The registered schemes have a policy of not borrowing money, other than on a short-term basis for settlement, trading and like purposes.

For the year ended 30 June 2013 (cont)

## Note 10 Financial Risk Management (cont)

## (f) Fair Value Hierarchy

The registered schemes classify fair value measurements using a fair value hierarchy that reflects the subjectivity of the inputs used in making measurements. The fair value hierarchy has the following levels:

- (i) quoted prices (unadjusted) in active markets for identical assets or liabilities (level 1);
- (ii) inputs other than quoted prices included within level 1 that are observable for the asset or liability either directly (as prices) or indirectly (derived from prices) (level 2); and
- (iii) inputs for the assets or liability that are not based on observable market data (unobservable inputs) (level 3).

The following table summarises the levels within the fair value hierarchy that the registered scheme's investments are classified at 30 June 2013. None of the registered schemes holds financial assets or liabilities that are classified in Level 3.

#### **Note 10 Financial Risk Management (cont)**

#### (g) Capital Risk Management

The responsible entity manages the registered schemes' net assets attributable to unitholders as capital, notwithstanding net assets attributable to unitholders are classified as a liability. The amount of net assets attributable to unitholders can change on a daily basis as the registered schemes are subject to daily applications and redemptions at the discretion of unitholders.

The responsible entity is required to hold an Australian Financial Services Licence (AFSL). As a holder of an AFSL, the Australian Securities and Investment Commission (ASIC) requires the responsible entity to:

- prepare 12 month cash-flow projections, which must be approved at least quarterly by directors; and
- hold at all times minimum Net Tangible Assets (NTA) the greater of:
  - o \$150,000;
  - o 0.5% of the average value of scheme property (capped at \$5 million); or
  - o 10% of the average responsible entity (RE) revenue.

The Responsible Entity must hold at least 50% of its minimum NTA requirement as cash or cash equivalents and hold at least \$50,000 in Surplus Liquid Funds (SLF).

The responsible entity has complied with all externally imposed requirements to hold an AFSL during the year.

For the year ended 30 June 2013 (cont)

#### **Note 11 Key Management Personnel Disclosures**

AASB 124: *Related Party Disclosures* defines key management personnel as "persons having authority and responsibility for planning, directing and controlling activities of the entity". The only employees that have this authority and responsibility are the Directors of Platinum Investment Management Limited.

#### **Directors**

The following persons were Directors of Platinum Investment Management Limited during the year and up to the date of this report:

Kerr Neilson Andrew Clifford Philip Howard

There are no other key management personnel within Platinum Investment Management Limited.

#### **Key management personnel compensation**

The Directors are all employees of Platinum Investment Management Limited and are not compensated by the registered schemes. AASB 124 requires compensation provided by the registered schemes or on behalf of the registered schemes to be disclosed. Platinum Investment Management Limited provides investment management services to the registered schemes and a portion of the compensation paid to its employees is in relation to managing the affairs of the registered schemes. Platinum Investment Management Limited has not made any determination as to what proportion of its employees' compensation relates to the registered schemes. Platinum Investment Management Limited compensated the Directors as follows:

<sup>(1)</sup> Is comprised of the increase/(decrease) in the provision for annual and long service leave, that was booked as a provision in Platinum Investment Management Limited's Balance Sheet. These amounts were not received as cash or as compensation by the Directors.

<sup>(2)</sup> Relates to instances where the options vest over a number of years and some of the vesting period fell in 2013. Under the accounting standards. We are required to show the portion of the expense relating to 2013. The amount expensed for accounting purposes does not represent the amount received by the Executives during the year. The only Executive to exercise options and physically receive consideration during the year in relation to options was Philip Howard, who received consideration of \$143,396.

For the year ended 30 June 2013 (cont)

## Note 13 Reconciliation of Net Profit/(Loss) to Net Cash Inflow from Operating Activities

#### (a) Reconciliation of Cash

For the purposes of the Statements of Cash Flows, cash includes deposits at call and cash at bank. Cash at the end of the period, as shown in the Statements of Cash Flows, is reconciled to the related items in the Balance Sheets as follows:

	Intern	ational Fund	Un	hedged Fund		Asia Fund	Eur	opean Fund
	2013	2012	2013	2012	2013	2012	2013	2012
	\$'000	\$'000	\$'000	\$'000	\$'000	\$'000	\$'000	\$'000
Cash and cash equivalents	631,757	559,704	19,319	8,935	266,908	160,308	16,715	16,191
Margin accounts	271,773	241,669	-	-	105,504	50,200	3,317	330
	903,530	801,373	19,319	8,935	372,412	210,508	20,032	16,521
		Japan Fund		International Brands Fund		nternational h Care Fund		nternational nology Fund
	2013 \$'000	2012 \$'000	2013 \$'000	2012 \$'000	2013 \$'000	2012 \$'000	2013 \$'000	2012 \$'000
Cash and cash equivalents	26,055	28,117	181,564	156,013	13,831	7,644	6,550	6,515
Margin accounts	23,027	11,649	49,099	29,409	476	316	1,453	618
	49,082	39,766	230,663	185,422	14,307	7,960	8,003	7,133

The registered schemes maintain bank accounts at various locations throughout the world to enable the settlement of purchases and sales of investments and to conduct other normal banking transactions. All accounts are at call and the majority bears floating interest rates in the range of 0% to 3.4%. Information in relation to the registered schemes' exposures to interest rate risk is provided in Note 10.

<sup>\*</sup> Financial assets are valued at the last sale price with an allowance for transaction costs for the purposes of redemption value.

<sup>\*\*</sup> The day of the week that the reporting period ends will determine whether the above redemption price will be available for unitholders to sell their holdings.

## **Directors' Declaration**

In the Directors' opinion, the financial statements and notes of:

Platinum International Fund
Platinum Unhedged Fund
Platinum Asia Fund
Platinum European Fund
Platinum Japan Fund
Platinum International Brands Fund
Platinum International Health Care Fund

Platinum International Technology Fund (together the 'registered schemes') as set out on pages 6 to 55

- (a) are in accordance with the *Corporations Act 2001*, including:
  - (i) complying with Accounting Standards, the *Corporations Regulations 2001* and other mandatory professional reporting requirements;
  - (ii) giving a true and fair view of the financial positions of the registered schemes as at 30 June 2013 and of their performances as represented by the results of their operations, changes in equity and their cash flows for the year ended on that date;
- (b) there are reasonable grounds to believe that the registered schemes will be able to pay their debts as and when they become due and payable; and
- (c) Note 2 (a) confirms that the financial statements comply with International Financial Reporting Standards as issued by the International Accounting Standards Board.

This declaration is made in accordance with a resolution of the Directors.

Philip Howard Director Sydney 14 August 2013

# Independent auditor's report to the unitholders of

Platinum International Fund; Platinum Japan Fund;

Platinum Unhedged Fund; Platinum International Brands Fund;

Platinum Asia Fund; Platinum International Health Care Fund; and

Platinum European Fund; Platinum International Technology Fund

# Report on the financial report

We have audited the accompanying financial report of the Platinum International Fund, the Platinum Unhedged Fund, the Platinum Asia Fund, the Platinum European Fund, the Platinum Japan Fund, the Platinum International Brands Fund, the Platinum International Health Care Fund, and the Platinum International Technology Fund (the Registered Schemes), which comprises the Balance Sheets as at 30 June 2013, the Statements of Comprehensive Income, Statements of Changes in Equity and Statements of Cash Flows for the year ended on that date, a summary of significant accounting policies, other explanatory notes and the Directors' declaration.

# Directors' responsibility for the financial report

The Directors of Platinum Investment Management Limited (the responsible entity) are responsible for the preparation of the financial report that gives a true and fair view in accordance with Australian Accounting Standards and the *Corporations Act 2001* and for such internal control as the Directors determine is necessary to enable the preparation of the financial report that is free from material misstatement, whether due to fraud or error. In Note 1, the Directors also state, in accordance with Accounting Standard AASB 101 *Presentation of Financial Statements*, that the financial statements comply with *International Financial Reporting Standards*.

## Auditor's responsibility

Our responsibility is to express an opinion on the financial report based on our audit. We conducted our audit in accordance with Australian Auditing Standards. Those standards require that we comply with relevant ethical requirements relating to audit engagements and plan and perform the audit to obtain reasonable assurance whether the financial report is free from material misstatement.

Darling Park Tower 2, 201 Sussex Street, GPO BOX 2650, SYDNEY NSW 1171 T: +61 2 8266 0000, F: +61 2 8266 9999, www.pwc.com.au
Liability limited by a scheme approved under Professional Standards Legislation

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial report. The procedures selected depend on the auditor's judgement, including the assessment of the risks of material misstatement of the financial report, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation and fair presentation of the financial report in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of accounting estimates made by the Directors, as well as evaluating the overall presentation of the financial report.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

# Independence

In conducting our audit, we have complied with the independence requirements of the *Corporations Act 2001*.

## Auditor's opinion

In our opinion:

- (a) the financial report of the Platinum International Fund, the Platinum Unhedged Fund, the Platinum Asia Fund, the Platinum European Fund, the Platinum International Brands Fund, the Platinum International Health Care Fund, and the Platinum International Technology Fund is in accordance with the *Corporations Act 2001*, including:
  - (i) giving a true and fair view of the registered scheme's financial position as at 30 June 2013 and of its performance for the year ended on that date; and
  - (ii) complying with Australian Accounting Standards (including the Australian Accounting Interpretations) and the *Corporations Regulations 2001*.

(b) the registered scheme's financial report also complies with International Financial Reporting Standards as disclosed in Note 1.
