## **Responsible Entity Report**

The Directors of Platinum Investment Management Limited (trading as Platinum Asset Management<sup>®</sup>) ABN 25 063 565 006 AFSL 221935, the responsible entity of the Platinum International Fund, the Platinum Unhedged Fund, the Platinum Asia Fund, the Platinum European Fund, the Platinum Japan Fund, the Platinum International Brands Fund, the Platinum International Health Care Fund and the Platinum International Technology Fund (collectively referred to as *"the registered schemes"*), present their report on the registered schemes for the year ended 30 June 2014.

#### **Principal Activities**

The principal activity of the registered schemes during the year was the investment of funds internationally into securities of companies, in accordance with the Product Disclosure Statement (PDS) and their respective Constitutions.

The registered schemes did not have any employees during the year.

#### **Directors of the Responsible Entity**

The Directors of Platinum Investment Management Limited during the year and up to the date of this report were:

Kerr Neilson Andrew Clifford Philip Howard

#### Significant Changes in the State of Affairs

There were no significant changes to the state of affairs of the registered schemes during the year, not otherwise disclosed in this report or the financial statements.

#### **Operating and Financial Review (OFR)**

The registered schemes have predominantly maintained their individual investment strategies in listed equities, equity and index derivatives and currency contracts. All of the registered schemes performed well over the 12 months to 30 June 2014, with annual returns ranging from 11.1% for Platinum International Brands Fund to 22.2% for Platinum Unhedged Fund. The flagship Platinum International Fund returned 17.3% for the 12 months to 30 June 2014.

## **Responsible Entity Report (cont.)**

#### **Operating and Financial Review (OFR) (cont.)**

The performances of the registered schemes, as represented by the results of their operations for the year ended 30 June 2014, were as follows:

	International Fund \$'000	Unhedged Fund \$'000	Asia Fund \$'000	European Fund \$'000	Japan Fund \$'000	International Brands Fund \$'000	International Health Care Fund \$'000	International Technology Fund \$'000
Net Operating Profit 2014	1,434,802	49,815	643,908	33,844	54,284	112,141	13,664	9,399
2013	2,369,922	53,927	763,413	38,201	136,341	227,815	14,194	8,791
The distributions of the registered schemes at 30 June we	ere:							
Distribution Paid and Payable 2014	534,324	33,186	276,756	-	18,453	67,116	-	3,386
2013	204,282	1,737	66,009	-	-	56,164	1,693	-
Distribution (cents per unit) 2014	11.12	17.11	17.84	-	13.31	13.87	-	8.06
2013	4.30	1.06	4.69	-	-	13.89	3.85	-
The redemption prices of the registered schemes at 30 Ju	ne were:							
Redemption Price – (cum-distribution) 2014	2.0464	1.5590	2.9182	2.6451	3.1059	2.6387	1.6957	1.4593
2013	1.7871	1.2864	2.5323	2.2314	2.7130	2.5132	1.4516	1.1989

The Investment Manager continues to find interesting opportunities with robust growth potential and will deploy funds towards these stocks as opportunities present themselves, in order to increase the schemes' net asset values. The method of operating the registered schemes is not expected to change in the foreseeable future.

#### Matters subsequent to the end of the year

Except as disclosed in the financial report, no other matter or circumstance has arisen since 30 June 2014 that has significantly affected or may significantly affect:

(i) the operations of the registered schemes in future years; or

- (ii) the results of those operations in future years; or
- (iii) the states of affairs of the registered schemes in future years.

## **Responsible Entity Report (cont.)**

#### Indemnification and insurance of officers and auditors

No insurance premiums are paid for out of the assets of the registered schemes with regard to insurance cover provided to either the Investment Manager, Platinum Investment Management Limited, or the Auditor of the registered schemes. As long as the officers of the responsible entity act in accordance with the schemes' Constitutions and the Law, they remain fully indemnified out of the assets of the registered schemes against any losses incurred while acting on behalf of the registered schemes. The Auditor of the registered schemes is in no way indemnified out of the assets of the registered schemes.

#### Fees paid to and interests held in the registered scheme

Fees paid to the responsible entity out of registered schemes' property during the year are disclosed in Note 12 to the financial statements. No fees were paid out of the registered schemes' property directly to the Directors of the responsible entity during the year.

#### Units on issue

The movements in units on issue in the registered schemes during the year have been disclosed in Note 6 to the financial statements.

#### **Environmental regulation**

The operations of the registered schemes are not subject to any particular or significant environmental regulations under Commonwealth, State or Territory law.

#### Rounding of amounts to the nearest thousand dollars

The registered schemes are of a kind referred to in the Australian Securities & Investments Commission's Class Order 98/0100 (as amended) and consequently amounts in the Responsible Entity Report and financial report have been rounded to the nearest thousand dollars in accordance with that Class Order, unless otherwise indicated.

#### Including different registered scheme financial reports in a single document

The registered schemes have applied Australian Securities and Investments Commission's Class Order 06/441, which allows registered schemes with a common responsible entity to include their financial statements in adjacent columns in a single financial report.

#### Auditor's independence declaration

A copy of the Auditor's Independence Declaration as required under section 307C of the Corporations Act 2001 is attached on page 5.

This report is made in accordance with a resolution of the Directors.

Philip Howard Director Sydney 20 August 2014

# Auditor's Independence Declaration

As lead auditor for the audit of the Platinum International Fund, the Platinum Unhedged Fund, the Platinum Asia Fund, the Platinum European Fund, the Platinum Japan Fund, the Platinum International Brands Fund, the Platinum International Health Care Fund, and the Platinum International Technology Fund for the year ended 30 June 2014, I declare that to the best of my knowledge and belief, there have been:

- a) no contraventions of the auditor independence requirements of the Corporations Act 2001 in relation to the audits; and
- b) no contraventions of any applicable code of professional conduct in relation to the audits.

This declaration is in respect of the Platinum International Fund, the Platinum Unhedged Fund, the Platinum Asia Fund, the Platinum European Fund, the Platinum Japan Fund, the Platinum International Brands Fund, the Platinum International Health Care Fund, and the Platinum International Technology Fund during the period.

Joe Sheeran Partner PricewaterhouseCoopers Sydney 20 August 2014

For the year ended 30 June 2014

#### **Note 1 General Information**

This financial report covers the Platinum International Fund, Platinum Unhedged Fund, Platinum Asia Fund, Platinum European Fund, Platinum Japan Fund, Platinum International Brands Fund, Platinum International Health Care Fund and Platinum International Technology Fund (collectively referred to as "the registered schemes"), as individual entities.

Platinum Investment Management Limited ABN 25 063 565 006 AFSL 221935 is the responsible entity of the registered schemes. The registered office is Level 8, 7 Macquarie Place, Sydney, NSW 2000.

Registered Scheme	Date of Commencement	Registered Scheme	Date of Commencement
Platinum International Fund	4 April 1995	Platinum Japan Fund	12 June 1998
Platinum Unhedged Fund	19 January 2005	Platinum International Brands Fund	11 April 2000
Platinum Asia Fund	3 March 2003	Platinum International Health Care Fund	5 November 2003
Platinum European Fund	12 June 1998	Platinum International Technology Fund	11 April 2000

Each registered scheme may be wound up on the day immediately preceding the 80<sup>th</sup> anniversary of the Date of Commencement, unless terminated earlier in accordance with the provisions of the Constitution.

The financial report was authorised for issue by the Directors of the responsible entity on 20 August 2014. The Directors have the power to amend the financial report after issue.

#### Note 2 Summary of Significant Accounting Policies

#### (a) Basis of preparation of the financial statements

The financial statements have been prepared in accordance with the requirements of the registered schemes' Constitutions, Australian Accounting Standards and Interpretations issued by the Australian Accounting Standards Board and the *Corporations Act 2001*. Each registered scheme is a for-profit entity for the purpose of preparing the financial report.

The financial statements have been prepared on the basis of fair value measurement of assets and liabilities, except where otherwise stated.

The Balance Sheets are presented on a liquidity basis. Specifically, assets and liabilities are presented in decreasing order of liquidity and do not distinguish between current and noncurrent. All balances are expected to be recovered or settled within 12 months, except for financial assets at fair value through profit or loss and net assets attributable to unitholders.

The registered schemes manage financial assets at fair value through profit or loss based on the economic circumstances at any given point in time, as well as to meet any liquidity requirements. As such, it is expected that a portion of the portfolio will be realised within 12 months, however, an estimate of that amount cannot be determined as at balance date.

In the case of net assets attributable to unitholders, the units are redeemed on demand at the unitholder's discretion. However, it is recommended that holders of these instruments typically retain them for the medium to long term. As such, the amount expected to be settled within 12 months cannot be reliably determined.

#### Compliance with International Financial Reporting Standards

The financial statements of the registered schemes also comply with International Financial Reporting Standards as issued by the International Accounting Standards Board.

#### Critical Accounting Estimates

The preparation of the financial statements requires the use of certain critical accounting estimates and judgements, which are included in the accounting policies below.

For the year ended 30 June 2014 (cont.)

#### Note 2 Summary of Significant Accounting Policies (cont.)

#### (b) Income Tax

Under current tax legislation, the registered schemes are not subject to income tax as unitholders are presently entitled to the income of the Fund.

The benefits of any offsets for foreign tax paid are passed on to unitholders.

#### (c) Financial Assets and Liabilities at Fair Value through Profit or Loss

The registered schemes have applied AASB 13 *Fair Value Measurement* from 1 July 2013. This is a new standard and is mandatory for reporting periods beginning on or after 1 January 2013. The standard is to be applied prospectively and hence the disclosure requirements do not need to be applied to comparative information for periods before initial application.

AASB 13 defines fair value as "the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date". The new standard also increases transparency about fair value measurements, including the valuations techniques and inputs used to measure fair value.

For the registered schemes, the key impact of the new standard is the removal of the requirement to use bid and ask prices for actively-quoted financial assets and liabilities. Instead, the most representative price within the bid-ask spread should be used. With respect to the registered schemes, the last-sale or "last" price is the most representative price within the bid-ask spread should be used. By the registered schemes, the last-sale or "last" price is the most representative price within the bid-ask spread should be used. By the registered schemes, the last-sale or "last" price is the most representative price within the bid-ask spread should be used. By the registered schemes, the last-sale or "last" price is the most representative price within the bid-ask spread, because it represents the price that the security last changed hands from seller to buyer.

Accordingly, from 1 July 2013, the registered schemes have decided to apply last-sale pricing as the fair value measurement basis for equities and derivatives they hold. This is consistent with how investments are valued for NAV/unit pricing purposes, which are based on last-market pricing. AASB 13 requires reporting entities to disclose their valuation techniques and inputs, with respect to all reporting periods.

#### Fair value in an active market

The fair value of financial assets and liabilities traded in active markets is based on quoted market prices at reporting date without any deduction for estimated future selling costs. Equity securities, equity swaps and futures are priced at "last" prices. Gains and losses arising from changes in the fair value of the financial assets/liabilities are included in the Statements of Comprehensive Income in the period they arise.

Forward currency contracts are categorised as "financial assets/liabilities held for trading" and are initially recognised at fair value on the date the contracts are entered into and are subsequently re-measured at each reporting date. The fair value at reporting date is the unrealised profit or loss on the foreign currency position (in Australian dollars).

#### Fair value in an inactive market or unquoted market

The fair value of financial assets and liabilities that are not traded in an active market is determined using valuation techniques. These include the use of recent arm's length market transactions, discounted cash flow techniques or any other valuation technique that provides a reliable estimate of prices obtained in actual market transactions. Options are valued with reference to the quoted price of the underlying index or share. If there is no liquid market available, the options are valued using option prices provided by an arm's length broker. These valuations are based on option pricing models.

#### Recognition/derecognition

The registered schemes recognise financial assets on the date they become party to the purchase contractual agreement (trade date) and recognise changes in fair value of the financial assets from this date.

The registered schemes no longer recognise financial assets on the date they become party to the sale contractual agreement (trade date).

For the year ended 30 June 2014 (cont.)

#### Note 2 Summary of Significant Accounting Policies (cont.)

#### (d) Transaction costs

Initial measurement (cost) on acquisition of trading securities shall not include directly attributable transaction costs, such as fees and commissions paid to agents. Incremental transaction costs on financial assets at fair value through profit or loss are expensed immediately.

#### (e) Net assets attributable to unitholders

Units on issue give the unitholder a right to redeem units at the redemption price. The registered schemes have more than one class of unit on issue. Therefore, net assets attributable to unitholders are considered a liability rather than equity. The liability represents the balance of the net assets of the registered schemes at reporting date. As unitholders' funds are classed as a liability under Australian Accounting Standards, it will be necessary to recognise "(increase)/decrease in net assets attributable to unitholders" in the Statements of Comprehensive Income as a financing cost.

#### (f) Foreign currency translation

The functional and presentation currency of the registered schemes, in accordance with AASB 121: The Effects of Changes in Foreign Exchange Rates, is the Australian dollar.

Transactions denominated in foreign currencies are translated into Australian currency at the rates of exchange prevailing on the date of the transaction. Foreign currency assets and liabilities for each Balance Sheet presented are translated at exchange rates at the closing rate at the date of that Balance Sheet. Resulting exchange differences are brought to account in determining profit and loss for the year.

#### (g) Investment income

#### Interest Income

Interest income is recognised in the Statements of Comprehensive Income, using the nominated interest rate available on the bank accounts held at various locations throughout the world.

*Dividend Income* Dividend income is brought to account on the applicable ex-dividend date.

#### (h) Distributions

In accordance with each registered schemes' Constitution, each registered scheme fully distributes any distributable income to unitholders by cash or reinvestment. Distributable income is determined by reference to the taxable income of the registered scheme.

#### (i) Receivables

All receivables are recognised when a right to receive payment is established. Debts that are known to be uncollectible are written off. A provision for doubtful debts is raised where there is evidence the amount will not be collected.

#### (j) Payables

All payables are recognised as and when the registered schemes become liable.

For the year ended 30 June 2014 (cont.)

#### Note 2 Summary of Significant Accounting Policies (cont.)

#### (k) Applications and redemptions

Applications received for units in the registered schemes are recorded net of any entry fees payable prior to the issue of units in the registered schemes. Redemptions from the registered schemes are recorded gross of any exit fees payable after the cancellation of units redeemed. The redemption price is determined by reference to the net assets of the registered scheme divided by the number of units on issue at or immediately prior to close of business each day. Issues and redemptions of units are processed simultaneously.

#### (I) Rounding of amounts to the nearest thousand dollars

The registered schemes are of a kind referred to in the Australian Securities & Investments Commission's Class Order 98/0100 (as amended) and consequently amounts in the Responsible Entity Report and financial report have been rounded to the nearest thousand dollars in accordance with that Class Order, unless otherwise indicated.

#### (m) Including different registered scheme financial reports in a single document

The registered schemes have applied Australian Securities and Investments Commission's Class Order 06/441, which allows registered schemes with a common responsible entity to include their financial statements in adjacent columns in a single financial report.

#### (n) Goods and Services Tax (GST)

The GST paid on the costs of various services provided to the registered schemes, such as Investment Management fees, has been passed onto the registered schemes. Investment Management fees have been recognised in the Statements of Comprehensive Income net of the amount of GST recoverable from the Australian Taxation Office (ATO). GST recoverable from the ATO at reporting date is included in receivables in the Balance Sheets. Cash flows relating to GST are included in the Statements of Cash Flows on a gross basis.

#### (o) Operating segments

The registered schemes are outside the scope of AASB 8 *Operating Segments* as they do not satisfy the requirement, under AASB 8, of having debt or equity instruments traded in a public market, or file their financial statements with a securities commission or other regulatory organisation for the purpose of issuing any class of instruments in a public market.

#### (p) Cash and cash equivalents

For the purposes of the Statements of Cash Flows, cash includes deposits held at call with financial institutions, cash held in margin accounts and other short term, highly liquid investments with original maturities of 3 months or less that are readily convertible to known amounts of cash and that are subject to an insignificant risk of changes in value.

Margin accounts comprise cash held as collateral for derivative transactions.

Payments and receipts relating to the purchase and sale of financial assets are classified as "cash flows from operating activities" as realised and unrealised gains (and losses) on financial assets represent the registered schemes' main operating activity.

#### (q) Due to/from brokers for unsettled trades

Amounts due to/from brokers represent payables for securities purchased and receivables for securities sold that have been contracted for, but not yet delivered by the reporting date. Trades are recorded on trade date. Proceeds on sale of investments are usually received between 2 and 5 days after trade date. Payables on purchase of investments are usually paid between 2 and 5 days after trade date.

For the year ended 30 June 2014 (cont.)

#### Note 2 Summary of Significant Accounting Policies (cont.)

#### (r) Offsetting a financial asset and a financial liability

Financial assets and liabilities are offset and the net amount reported in the Balance Sheets where there is a legally enforceable right to offset the recognised amounts and there is an intention to settle on a net basis, or realise the asset and settle the liability simultaneously.

Increased disclosures apply to offsetting financial assets and liabilities for financial years ending 30 June 2014 and after. Please refer to Note 10(g) for further information.

#### (s) New accounting standards and interpretations

Certain new accounting standards and interpretations have been published that are not mandatory for 30 June 2014 reporting period. The accounting standard of relevance to the registered schemes is discussed below as is the assessment of its impact. The registered schemes have not adopted this standard for the 2014 financial year.

 (i) Revised AASB 9 Financial Instruments (addressing accounting for financial liabilities and the derecognition of financial assets and financial liabilities), AASB 2010-7 Amendments to Australian Accounting Standards arising from AASB 9 (December 2010) and AASB 2012-6 Amendments to Australian Accounting Standards - Mandatory Effective Date of AASB 9 and Transition Disclosures (effective for annual reporting periods beginning on or after 1 January 2017) The revised standard defers the operative date of AASB 9 Financial Instruments from 1 January 2013 to 1 January 2017. AASB 9 provides guidance on the classification and measurement of financial assets and this standard was assessed as not having a significant impact on the registered schemes.

There are no other standards that are not yet effective that are expected to have a material impact on the entity in the current or future reporting periods and on foreseeable future transactions.

For the year ended 30 June 2014 (cont.)

In 2014 (and 2013) Auditor's Remuneration was paid by the responsible entity and reimbursed by the registered schemes.

## Note 4 Taxation

Under current tax legislation, the individual registered schemes are not subject to income tax, as taxable income (including assessable net realised capital gains) is distributed in full to unitholders.

For 30 June 2014, all equity securities and derivatives are valued using "last" pricing. For 30 June 2013, all equity securities and derivatives were valued using bid/ask pricing. The change in the valuation basis is based on the adoption of a new accounting standard AASB 13 *Fair Value Measurement*. Refer to Note 2(c) for the accounting policy concerning fair value measurement. Information relating to the registered schemes' exposure to foreign currency risk, price risk and liquidity risk in relation to investments is provided in Note 10.

For the year ended 30 June 2014 (cont.)

Payables on purchase of investments are usually paid between 2 and 5 days after trade date. Information relating to the registered schemes' exposures of payables to liquidity risk is provided in Note 10.

#### Note 10 Financial Risk Management

#### (a) Financial Risk Management Objectives, Policies and Processes

The registered schemes' primary risks are related to the investment activities undertaken on its behalf by the responsible entity. The risks that the schemes are exposed to include market risk (including currency risk and price risk), credit risk and liquidity risk.

The responsible entity's investment style:

- adopts a bottom-up stock selection methodology such that long-term capital growth is sought through investing in undervalued securities across the world;
- seeks absolute returns and not returns relative to any index;
- invests excess funds in cash when undervalued stocks cannot be found; and
- actively manages currency.

Derivatives (which include equity swaps, futures and options) are utilised for risk management purposes and to take opportunities to increase returns. The underlying value of derivatives held by a registered scheme may not exceed 100% of the net asset value of that scheme. The underlying value of long stocks and derivative contracts may not exceed 150% of the net asset value of that scheme. Each of the registered schemes complied with its investment mandate as at 30 June 2014. The registered schemes do not generally enter or trade derivatives for speculative purposes.

The "Physical" column above represents the location of the registered schemes' investments. The "Long/Short Contracts" columns include the notional value of long/short equity swaps and futures.

The "Net Exposure" column above represents an approximation of each registered schemes' exposures to movements in the markets. This is calculated by making an adjustment to the "physical" position by adding to the physical position, the principal notional amount of any long (bought) positions and subtracting any short (sold) derivative positions in shares and shares index futures. For example, if 5% of the Portfolio of a registered scheme was invested in Japan, but there was a 2% short exposure to Nikkei futures, the Net Exposure column would show 3%. Conceivably, the figure could show a negative exposure, which would indicate the Portfolio was net short the Japanese market.

For the year ended 30 June 2014 (cont.)

#### Note 10 Financial Risk Management (cont.)

- (c) Market Risk
- (i) Foreign Exchange Risk

Foreign exchange risk is the risk the fair value or future cash flows of financial instruments will fluctuate due to changes in foreign exchange rates.

The registered schemes operate internationally and are exposed to foreign exchange risk arising from buying, selling and holding investments denominated in foreign currency.

Currency hedging is an integral part of the management of currency risk. The Investment Manager positions a registered scheme's portfolio in what it believes will be a stronger currency(ies). For example, at 30 June 2014, Platinum International Fund's currency exposures were: 45% in the United States Dollar, 28% in European currencies, 17% in Asian currencies, ex the Japanese Yen, 3% in the Japanese Yen, 3% in the Canadian Dollar and -4% in the Australian Dollar.

The Investment Manager may use forward foreign exchange contracts and futures and option contracts on foreign exchange rate contracts to position a registered scheme's portfolio in the desired currencies. A currency exposure may be hedged using a different currency from which the exposure is maintained (for example, US dollar hedges may be used to hedge the currency risk of holding investments in Hong Kong dollars).

Where there have been major currency movements, or where currencies are perceived to be over or undervalued, the Investment Manager may look for investments whose operating environment has been distorted by the currency as part of the search for undervalued stocks. There may even be opportunities for stocks impacted by a lower currency (for example, export-oriented stocks).

In respect of the Platinum Unhedged Fund, there is no currency management undertaken. The disposition of its investments determines its currency exposure.

The tables below summarise the registered schemes' exposures to foreign exchange risk:

For the year ended 30 June 2014 (cont.)

#### Note 10 Financial Risk Management (cont.)

- (c) Market Risk (cont.)
- (i) Foreign Exchange Risk (cont.)

Forward foreign currency contracts and options on forward currency contracts are adjusted against the "Physical" column to arrive at a "Net Exposure" for each currency grouping. The registered schemes generally utilise short dated (90 day maturity) currency agreements with high credit rating counterparties. Generally, the existing forward currency maturity dates range from 79 to 344 days.

#### Foreign exchange risk sensitivity analysis

The sensitivity analysis below shows the impact a 10% movement in foreign currency at reporting date would have on the registered schemes' profit on monetary and non-monetary assets and liabilities such as cash, forward contracts and equities.

A sensitivity of 10% has been selected as this is considered reasonably possible given current exchange rates and the volatility observed both on a historic basis and possible future movements. The table presents the foreign currency or currencies with the largest impact on profit for each registered scheme.

	2014 +10% \$'000	2014 -10% \$'000	2013 +10% \$'000	2013 -10% \$'000		2014 +10% \$'000	2014 -10% \$'000	2013 +10% \$'000	2013 -10% \$'000
International Fund					Unhedged Fund				
United States Dollar	(409,852)	500,927	(415,595)	507,951	United States Dollar	(9,894)	12,093	(7,546)	9,222
Euro	(179,993)	219,992	(183,558)	224,349	Japanese Yen	(6,531)	7,982	(4,940)	6,038
Asia Fund					European Fund				
United States Dollar	(154,993)	189,435	(88,856)	108,601	Euro	(11,772)	14,389	(5,120)	6,258
Korean Won	(61,722)	75,439	(50,085)	61,215					
Japan Fund					International Brands Fund				
United States Dollar	(13,762)	16,821	(18,045)	22,055	Euro	(25,601)	31,290	(19,114)	23,362
Japanese Yen	(19,008)	23,232	(14,021)	17,136	United States Dollar	(26,902)	32,880	(20,321)	24,837
International Health Care Fund					International Technology Fund				
United States Dollar	(3,113)	3,804	(2,038)	2,490	United States Dollar	(3,020)	3,691	(1,694)	2,072
Euro	(1,782)	2,177	(1,325)	1,619	Euro	(585)	715	(735)	898

The sensitivity analysis shows that the registered schemes are all materially affected by exchange rate movements (other things being equal), given the global nature of the investments held. Throughout 2013/2014, most of the registered schemes have had minimal exposure to the Australian Dollar, whilst emphasising the United States Dollar.

For the year ended 30 June 2014 (cont.)

#### Note 10 Financial Risk Management (cont.)

- (c) Market Risk (cont.)
- (ii) Interest Rate Risk

Interest rate risk is the possibility the fair value or future cash flows of financial instruments will fluctuate because of changes in market interest rates.

The overwhelming majority of the registered schemes' financial assets and liabilities are non-interest bearing. The registered schemes have a policy of not borrowing money, other than for settlement of trades. Therefore, there is no liability exposure to interest rate risk.

Interest rate risk indirectly affects the registered schemes because interest rate movements will affect forward points used in determining gains or losses on forward contracts. This is not capable of precise estimation. The impact of interest rate movements on our investments is also not capable of precise estimation.

At 30 June 2014 and 2013, if interest rates had changed by -/+ 100 basis points with all other variables held constant, the direct impact on interest income would not be significant for any of the registered schemes.

#### (iii) Price Risk

Market prices fluctuate due to a range of factors specific to the individual investments or factors affecting the market in general.

Platinum Asset Management's stock selection process is core to the management of price risk. Moreover, whilst we use the MSCI to measure relative performance, risk in our view is not solely relative performance versus a benchmark - but also the prospect of losing money (i.e. absolute returns). Platinum adopts a thematic stock selection approach and is referred to as an "active manager". Platinum seeks a broad range of investments whose business and growth prospects are being undervalued by the market. Accordingly, holdings in each of the registered schemes vary considerably from the make-up of the index. Active fund managers such as Platinum seek to out perform the market as represented by an appropriate index.

In addition, the registered schemes (other than Platinum Unhedged Fund) may enter into short equity swaps and futures to protect against market movements. At 30 June 2014, some of the registered schemes maintained short positions against various company specific stocks and market indices. The use of index derivatives allows a Fund to invest in particular companies, whilst providing some degree of protection against more general adverse market price movements.

For the year ended 30 June 2014 (cont.)

#### Note 10 Financial Risk Management (cont.)

- (c) Market Risk (cont.)
- (iii) Price Risk (cont.)

#### Price risk sensitivity analysis

Price risk exposure arises from the registered schemes' investment portfolios that comprise investments in securities. The effect on net assets attributable to unitholders due to a reasonably possible change in market factors, as represented by a -/+ 10% movement in the key regional equity index or indices affecting the market that each registered scheme invests in, with all other variables held constant is indicated as follows:

	2014 +10% \$'000	2014 -10% \$'000	2013 +10% \$'000	2013 -10% \$'000		2014 +10% \$'000	2014 -10% \$'000	2013 +10% \$'000	2013 -10% \$'000

A sensitivity of 10% has been selected as this is considered reasonably possible. However, given the volatility of the markets, increases or decreases greater than this are possible.

Note that the above analysis is based on the assumption that the registered schemes' stocks moved in correlation with the respective index or indices. The index or indices provided above is a reference point only. Actual movements in stock prices may vary significantly to movements in the index.

An investment management style where the composition of the portfolio is by reference to global share index weightings is often referred to as an "index manager". An index manager tries to match a particular index by investing in securities that are representative of that index.

For the year ended 30 June 2014 (cont.)

#### Note 10 Financial Risk Management (cont.)

- (c) Market Risk (cont.)
- (d) Credit Risk

Credit risk relates to the risk of a counterparty defaulting on a financial obligation resulting in a loss to a registered scheme (typically "non-equity" financial instruments or cash/deposit holdings).

The exposure to credit risk for futures, equity swaps, and forward currency contracts is any unrealised profit, margins and collateral paid on the positions (the money a registered scheme would lose if the counterparty defaulted) at reporting date.

The table below shows the registered schemes counterparty credit risk exposure by credit rating.

For the year ended 30 June 2014 (cont.)

#### Note 10 Financial Risk Management (cont.)

#### (d) Credit Risk (cont.)

The Investment Manager regularly monitors the registered schemes' credit risk exposures to counterparties and seeks to manage the risk by spreading exposure over a number of counterparties, by signing standard International Swaps and Derivatives Association (ISDA) master agreements and net settlement contracts, employing two-way symmetrical margining of unrealised profits and losses and by controlling the duration of contracts to be short-term.

Transactions in listed securities and investments are only entered into with approved brokers. Payment is only made once a broker has received securities and delivery of securities sold only occurs once the broker receives payment.

#### Ageing analysis of receivables

The registered schemes' ageing analysis of receivables (disclosed in Note 8) at 30 June 2014 is as follows:

Ageing	<b>International Fund</b>		Unhedged Fund			Asia Fund	F	European Fund	
	2014	2013	2014	2013	2014	2013	2014	2013

	657	506	2,787	3,361	879	86	43	55

The amounts 90 days and over are past due, but no receivables are impaired.

For the year ended 30 June 2014 (cont.)

#### Note 10 Financial Risk Management (cont.)

#### (e) Liquidity Risk

The registered schemes are exposed to cash redemptions of redeemable units. They hold equities that are traded on active markets and, if necessary, these can be readily disposed.

#### Contractual maturity analysis

#### (i) Non-financial liabilities

The amounts below represent the contractual maturity of non-financial liabilities. Note that net assets attributable to unitholders are only included in the maturity analysis below because, under Australian Accounting Standards, unitholders' equity is classified as a liability. For management purposes, net assets attributable to unitholders are not an operating liability.

At 30 June 2014, there are no other contractual amounts due or payable after 1 year.

Except for short equity swaps and futures, the maximum capital risk resulting from financial instruments is determined by the fair value of financial instruments. Potential losses from equity swaps and futures are limited to available capital.

The registered schemes are exposed to daily cash redemptions. If necessary, investments may be realised to cover these redemptions as they are generally readily convertible to cash. The risk management guidelines adopted are designed to minimise liquidity risk through:

- ensuring that there is no significant exposure to illiquid or thinly traded financial instruments; and
- applying limits to ensure there is no concentration of liquidity risk to a particular counterparty or market.

The registered schemes prepare daily cash forecasts and maintain sufficient cash to meet normal operating requirements. The registered schemes have a policy of not borrowing money, other than on a short-term basis for settlement, trading and like purposes.

For the year ended 30 June 2014 (cont.)

#### Note 10 Financial Risk Management (cont.)

#### (f) Fair Value Hierarchy

AASB 13 Fair Value Measurement requires the registered schemes to classify their assets and liabilities held at fair value based on the following fair value hierarchy model:

- a) quoted prices (unadjusted) in active markets for identical assets or liabilities (level 1);
- b) inputs other than quoted prices included within level 1 that are observable for the asset or liability either directly (as prices) or indirectly (derived from prices) (level 2); and
- c) inputs for the assets or liabilities that are not based on observable market data (unobservable inputs) (level 3).

The registered schemes measure and recognise the following assets and liabilities at fair value, pursuant to AASB 13, on a recurring basis:

- equity securities, long equity swaps and long futures;
- short equity swaps and short futures; and
- forward currency contracts.

The tables on the following 3 pages analyse within the fair value hierarchy model, the registered schemes' assets and liabilities measured at fair value at 30 June 2014 and 30 June 2013. The registered schemes have no assets or liabilities classified as level 3.

#### Note 10 Financial Risk Management (cont.)

#### (f) Fair Value Hierarchy (cont.)

The registered schemes' policy is to recognise transfers into and transfers out of fair value hierarchy levels as at the end of the reporting period. There were no transfers between levels 1 and 2 for any assets or liabilities measured at fair value during the half-year.

#### Valuation techniques used to classify assets and liabilities as level 1

Nearly all of the equity securities and derivatives held by the registered schemes are valued using quoted prices in active markets. Accordingly, nearly all equity securities are classified as Level 1 in the fair-value hierarchy model.

#### Valuation techniques used to classify assets and liabilities as level 2

There are some financial instruments that have been classified as level 2, because there is a degree of adjustment made to the quoted price i.e., whilst all significant inputs required for fair value measurement are observable and quoted on an active market, there is a degree of estimation or adjustment involved in deriving the fair value. Examples include:

- foreign exchange contracts are classified as level 2, even though forward points are quoted in an active and liquid market. The forward points themselves are based on interest rate differentials;
- certain P-Notes/warrants are classified as level 2, because they are traded over-the counter and are often priced in a different currency to the underlying security;
- certain Over-The Counter (OTC) derivatives/options may be classified as level 2 because, the price is sourced from the relevant counterparty, even though the price (and in the case of options, the relevant delta) can be verified from either Bloomberg or other option pricing models; and
- certain index derivatives are classified as level 2, because the registered schemes may agree with the counterparty to include or exclude one or more securities that make up the "basket" of securities that comprise the index derivative. Hence, the quoted price of the index derivative would be very similar, but not identical, to the index derivative that the registered schemes hold.

For the year ended 30 June 2014 (cont.)

#### Note 10 Financial Risk Management (cont.)

#### (g) Offsetting Financial Assets and Financial Liabilities

The registered schemes enter into derivative transactions under International Swaps and Derivatives Association (ISDA) master netting agreements. In general, the amounts owed by each counterparty on a single day in respect of all transactions outstanding in the same currency are aggregated into a single net amount that is payable by one party to the other. In certain circumstances, when a credit event occurs (e.g., default), all outstanding transactions under the agreement are terminated, the termination value is assessed and only a single net amount is payable in settlement of all transactions. The ISDA agreements do not meet the criteria for offsetting in the Balance Sheet, as the registered schemes do not have any currently legally enforceable right to offset recognised amounts, because the right to offset is enforceable only on the occurrence of future events such as default.

The following table sets out the carrying amounts of recognised financial instruments that are subject to the above agreements.

Platinum International Fund	Amounts	offset in the Balance Sl	heet	Related amounts not set-off in the Balance Sheet

#### Note 10 Financial Risk Management (cont.)

#### (h) Capital Risk Management

The responsible entity manages the registered schemes' net assets attributable to unitholders as capital, notwithstanding net assets attributable to unitholders are classified as a liability. The amount of net assets attributable to unitholders can change on a daily basis as the registered schemes are subject to daily applications and redemptions at the discretion of unitholders.

The responsible entity is required to hold an Australian Financial Services Licence (AFSL). As a holder of an AFSL, the Australian Securities and Investment Commission (ASIC) requires the responsible entity to:

- prepare rolling 12 month cash-flow projection, which must be approved at least quarterly by directors; and
- hold at all times minimum Net Tangible Assets (NTA) the greater of:
  - o \$150,000;
  - $\circ$  0.5% of the average value of scheme property (capped at \$5 million); or
  - 10% of the average responsible entity (RE) revenue.

The Responsible Entity must hold at least 50% of its minimum NTA requirement as cash or cash equivalents and hold at least \$50,000 in Surplus Liquid Funds (SLF).

The responsible entity has complied with all externally imposed requirements to hold an AFSL during the year.

#### Note 11 Key Management Personnel Disclosures

AASB 124: *Related Party Disclosures* defines key management personnel as "persons having authority and responsibility for planning, directing and controlling activities of the entity". The only employees that have this authority and responsibility are the Directors of Platinum Investment Management Limited.

#### Directors

The following persons were Directors of Platinum Investment Management Limited during the year and up to the date of this report:

Kerr Neilson Andrew Clifford Philip Howard

There are no other key management personnel within Platinum Investment Management Limited.

For the year ended 30 June 2014 (cont.)

#### Note 11 Key Management Personnel Disclosures (cont.)

#### Key management personnel compensation

The Directors are all employees of Platinum Investment Management Limited and are paid remuneration in their capacity as employees of Platinum Investment Management Limited. The Directors are not compensated by the registered schemes. The total remuneration paid in aggregate terms is as follows:

	2014	2013
	\$	\$
Cash salary	1,275,000	1,150,000
Increase/(decrease) in annual and long service leave (1)	15,077	95,779
Short and long-term incentives	1,904,650	607,500
Post-employment benefits - superannuation	53,325	49,410
Share-based payments (2)	-	1,284,014
	3,248,052	3,186,703

(1) These amounts were not received as cash or as compensation by the Directors.

(2) Relates to instances where the options vest over a number of years and some of the vesting period fell during the year. There is no accounting expense in 2014 because the options fully vested in 2013. The amount expensed for accounting purposes does not represent the amount received by the Executives.

#### Service Agreements

The Directors do not have service agreements as they are employees of Platinum Investment Management Limited.

#### **Related parties**

Disclosures relating to manager's fees payable to Platinum Investment Management Limited are set out in note 12.

All of the Directors listed above are also Directors of Platinum Asset Management Limited (listed holding company of Platinum Investment Management Limited). The remuneration paid by Platinum Investment Management Limited to these Directors has been disclosed above.

For the year ended 30 June 2014 (cont.)

#### Note 12 Related Parties

#### **Responsible Entity**

Platinum Investment Management Limited ABN 25 063 565 006 AFSL 221935 is the responsible entity of the registered schemes.

### **Directors of the Responsible Entity**

Key management personnel includes persons who were Directors of Platinum Investment Management Limited at any time during the financial year as follows:

Kerr Neilson Andrew Clifford Philip Howard

There were no other persons with responsibility for planning, directing and controlling the activities of the responsible entity, directly or indirectly during the financial year.

#### Transactions with key management personnel

Key management personnel services are provided by Platinum Investment Management Limited and included in the responsible entity fees on page 59. There was no compensation paid directly by the registered schemes to any of the key management personnel.

#### **Related party unitholdings**

Units held by related parties of the registered schemes are as follows:

### Note 14 Events Occurring after the Balance Sheet Date

No significant events have occurred since Balance Sheet date that would impact the financial position of the registered schemes as at 30 June 2014 and the results of the year ended on that date.

### Note 15 Contingent Assets, Liabilities and Commitments

The registered schemes have no contingent assets, liabilities or commitments as at 30 June 2014 and 30 June 2013.

# **Statement of Net Asset Value**

For the year ended 30 June 2014

	Japan Fund		International Brands Fund		International Health Care Fund		International Technology Fund	
	2014 \$'000	2013 \$'000	2014 \$'000	2013 \$'000	2014 \$'000	2013 \$'000	2014 \$'000	2013 \$'000
Net assets attributable to unitholders per	\$ 000	\$ 000	\$ 000	\$ 000	\$ 000	\$ 000	\$ 000	\$ 000
balance sheet	413,304	372,577	1,212,832	960,196	102,685	62,281	58,099	41,013
Distributions paid and payable to unitholders	18,453	-	67,116	56,164	-	1,693	3,386	-
Redemption cost of financial assets	(1,079)	(934)	(3,200)	(2,547)	(257)	(160)	(154)	(103)
Difference between "bid" price under Australian Accounting Standards and last								
price**	-	1,130	-	2,400	-	108	-	157
Net Asset Value for redemption purposes	430,678	372,773	1,276,748	1,016,213	102,428	63,922	61,331	41,067
Redemption price	3.1059	2.7130	2.6387	2.5132	1.6957	1.4516	1.4593	1.1989

\* The day of the week that the reporting period ends will determine whether the above redemption price will be available for unitholders to sell their holdings.

\*\* For the 30 June 2014 balances, there is no difference between "bid" and "last" price because the registered schemes have applied the new accounting standard AASB 13 *Fair Value Measurement* which permits the use of last-sale pricing to value investments. Therefore, there is now consistency between the valuation basis used to price investments as part of the daily Net Asset Value and the IFRS financial statements.

# **Directors' Declaration**

In the Directors' opinion, the financial statements and notes of:

Platinum International Fund Platinum Unhedged Fund Platinum Asia Fund Platinum European Fund Platinum Japan Fund Platinum International Brands Fund Platinum International Health Care Fund Platinum International Technology Fund (together the 'registered schemes') as set out on pages 6 to 61

(a) are in accordance with the *Corporations Act 2001*, including:

- (i) complying with Accounting Standards, the *Corporations Regulations 2001* and other mandatory professional reporting requirements;
- (ii) giving a true and fair view of the financial positions of the registered schemes as at 30 June 2014 and of their performances as represented by the results of their operations, changes in equity and their cash flows for the year ended on that date;
- (b) there are reasonable grounds to believe that the registered schemes will be able to pay their debts as and when they become due and payable; and
- (c) Note 2 (a) confirms that the financial statements comply with International Financial Reporting Standards as issued by the International Accounting Standards Board.

This declaration is made in accordance with a resolution of the Directors.

Philip Howard Director Sydney 20 August 2014

# Independent auditor's report to the unitholders of

Platinum International Fund;
Platinum Unhedged Fund;
Platinum Asia Fund;
Platinum European Fund;

Platinum Japan Fund; Platinum International Brands Fund; Platinum International Health Care Fund; and Platinum International Technology Fund

# Report on the financial report

We have audited the accompanying financial report of the Platinum International Fund, the Platinum Unhedged Fund, the Platinum Asia Fund, the Platinum European Fund, the Platinum Japan Fund, the Platinum International Brands Fund, the Platinum International Health Care Fund, and the Platinum International Technology Fund (the Registered Schemes), which comprises the Balance Sheets as at 30 June 2014, the Statements of Comprehensive Income, Statements of Changes in Equity and Statements of Cash Flows for the year ended on that date, a summary of significant accounting policies, other explanatory notes and the Directors' declaration.

# Directors' responsibility for the financial report

The Directors of Platinum Investment Management Limited (the responsible entity) are responsible for the preparation of the financial report that gives a true and fair view in accordance with Australian Accounting Standards and the *Corporations Act 2001* and for such internal control as the Directors determine is necessary to enable the preparation of the financial report that is free from material misstatement, whether due to fraud or error. In Note 1, the Directors also state, in accordance with Accounting Standard AASB 101 *Presentation of Financial Statements*, that the financial statements comply with *International Financial Reporting Standards*.

# Auditor's responsibility

Our responsibility is to express an opinion on the financial report based on our audit. We conducted our audit in accordance with Australian Auditing Standards. Those standards require that we comply with relevant ethical requirements relating to audit engagements and plan and perform the audit to obtain reasonable assurance whether the financial report is free from material misstatement.

#### PricewaterhouseCoopers, ABN 52 780 433 757

Darling Park Tower 2, 201 Sussex Street, GPO BOX 2650, SYDNEY NSW 1171 T: +61 2 8266 0000, F: +61 2 8266 9999, www.pwc.com.au

Liability limited by a scheme approved under Professional Standards Legislation.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial report. The procedures selected depend on the auditor's judgement, including the assessment of the risks of material misstatement of the financial report, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation and fair presentation of the financial report in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of accounting estimates made by the Directors, as well as evaluating the overall presentation of the financial report.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

### Independence

In conducting our audit, we have complied with the independence requirements of the Corporations Act 2001.

### Auditor's opinion

In our opinion:

- (a) the financial report of the Platinum International Fund, the Platinum Unhedged Fund, the Platinum Asia Fund, the Platinum European Fund, the Platinum Japan Fund, the Platinum International Brands Fund, the Platinum International Health Care Fund, and the Platinum International Technology Fund is in accordance with the *Corporations Act 2001*, including:
  - (i) giving a true and fair view of the registered scheme's financial position as at 30 June 2014 and of its performance for the year ended on that date; and
  - (ii) complying with Australian Accounting Standards (including the Australian Accounting Interpretations) and the *Corporations Regulations 2001.*

(b) the registered scheme's financial report also complies with International Financial Reporting Standards as disclosed in Note 2.

PricewaterhouseCoopers

Joe Sheeran Partner Sydney 20 August 2014
