The Directors present their report, together with the financial statements of Platinum Asia Investments Limited (the "Company") for the half-year ended 31 December 2024.

DIRECTORS

The following persons were Directors of the Company during the whole of the half-year and up to the date of this report, unless otherwise stated:

| | |
|-----------------|--|
| Margaret Towers | Chair and Independent Non-Executive Director |
| Ian Hunter | Independent Non-Executive Director |
| Richard Morath | Independent Non-Executive Director |

PRINCIPAL ACTIVITIES

The Company is a listed investment company established to provide capital growth over the long term by investing in companies in the Asian region ex Japan which the investment manager perceives to be undervalued by the market.

On 2 October 2024, the execution of the binding Scheme Implementation Deed, between the Company and Platinum Investment Management Limited as responsible entity of Platinum Asia Fund (Quoted Managed Hedge Fund) (ASX: PAXX) ("PAXX"), was announced. Because the scheme of arrangement ("Scheme") is still subject to the approval of the Company's shareholders and the Court, the financial statements have been prepared on a going concern basis.

OPERATING AND FINANCIAL REVIEW

For the 6 months to 31 December 2024, the profit before income tax was \$40,651,000 (31 December 2023: loss of \$14,497,000) and profit after income tax was \$27,871,000 (31 December 2023: loss of \$11,979,000).

For the 6 months to 31 December 2024, the Company delivered a return of 10.7%¹ (measured by its pre-tax NTA) which outperformed the return of 10.0% for the benchmark, the MSCI All Country Asia ex Japan Net Index in A\$ terms ("MSCI")². This return was achieved with an average net invested position of 94.9%. The main contributor to the overall return was a positive 11.0% return on Chinese holdings, offsetting the negative return from Korea (4.5%). Positive returns were also generated in Taiwan (1.9%), Indonesia (1.2%) and Vietnam (0.7%) during the half-year.

For the five years to 31 December 2024, the Company delivered an annualised compound return of 6.2% per annum, measured by the Company's pre-tax NTA, versus the MSCI return of 5.2%. The company's long-term (since inception) return of 7.6% per annum was less than the MSCI return of 7.8% over the same period.

The Directors consider that the pre-tax net tangible asset backing per share, after the deduction of fees and expenses, adjusted for corporate taxes paid and any capital flows, and assuming the reinvestment of dividends ("pre-tax NTA"), is a better measure of performance of the Company than its reported profits or losses. This is because the pre-tax NTA is the most accurate way to assess the investment performance of the Company's investment portfolio. For the 6 months to 31 December 2024, the Company's pre-tax NTA increased from \$1.03 to \$1.12. The increase includes the payment of 1 cent per share in dividends paid during the half-year.

Total Shareholder Return (TSR) for the half-year, based on share price movement and grossed up dividends, between 1 July 2024 and 31 December 2024 was 12.4%. The TSR is higher than the pre-tax NTA return of 10.7% primarily due to a decrease in the discount of the share price to pre-tax NTA since 30 June 2024.

In the December 2024 quarterly report, the Investment Manager made the following comments:

"Whilst the portfolio was up only slightly during the quarter, the 12-month performance of the portfolio beat 20%. We continue to find many high-quality, attractively-valued opportunities in Asian markets. This explains the absence of shorts in the portfolio.

Trip.com was a significant boost to performance during the quarter. China's largest online travel agency also has a strong position in India and is expanding in other Asian and Western markets.

The portfolio's largest holding, Taiwan's TSMC, had a good year and a good quarter. It is an essential partner to Nvidia and to most of the large businesses at the forefront of the AI revolution."

SCHEME OF ARRANGEMENT

On 24 July 2024 the Board announced that it has agreed to pursue a scheme of arrangement (Scheme) that will enable shareholders to exchange their shares in the Company for units in PAXX.

If the Scheme is approved and becomes effective, the number of units in the Fund that will be issued for each PAI share will be based on the Fund's net asset value (NAV) and the Company's post tax net tangible assets (NTA) (adjusted for all costs associated with the transaction) immediately prior to implementation.

Since announcing the Scheme Implementation Deed on 2 October 2024, further work has been completed on the timetable taking into account various factors including the operation of the tax franking rules. As a result, the indicative timetable for the Scheme has been revised and released on 13 November 2024. The Scheme Booklet is expected to be provided to the Company's shareholders in May 2025, and subject to the approval of the Company's shareholders and the Court, the Scheme is expected to be implemented in late July 2025. The Board continues to consider the Scheme to be in the best interests of shareholders and recommends the Scheme be approved at the Scheme meeting (in each case, in the absence of a superior proposal and subject to an independent expert concluding that the Scheme is in the best interests of shareholders).

CAPITAL MANAGEMENT

The Company's capital management policy is to smooth ordinary dividends over time and, where possible, retain a reasonable level of franking credits to enable payment of fully-franked ordinary dividends in the future.

DIVIDENDS

The Directors determined to pay a 2025 fully-franked interim dividend of 0.5 cents per share (\$1,850,000), with a record date of 7 March 2025 and payable to shareholders on 21 March 2025, out of the dividend profit reserve. The dividend will be fully-franked at a tax rate of 30%. Together with the 2024 final dividend of 1 cent per share, this represents a grossed-up dividend yield of 2.1% based on the 31 December 2024 closing share price. The available franking credit balance after February 2025 income tax payment and providing for the 2025 interim dividend would enable the payment of future dividend of up to 0.1 cents per share, fully franked at a tax rate of 30%.

MATTERS SUBSEQUENT TO THE END OF THE PERIOD

On 25 February 2025, Platinum Asset Management Limited ("**PTM**") announced a number of changes to Platinum Investment Management Limited's ("**Platinum**") investment team some of which will affect the Company. These changes will take effect from 3 March 2025. Relevantly for the Company, James Simpson, a founder and ex-Portfolio Manager of Platinum, who joined the Board of PTM in November 2024, has agreed to take up an executive role within Platinum and will Chair Platinum's Investment Oversight Group ("**IOG**"), providing guidance and mentoring to the investment team. To support this transition, Andrew Clifford will assume an investment mentorship role as a member of the IOG alongside James. Andrew Clifford and Clay Smolinski will step down from their global portfolio management responsibilities and Co-Chief Investment Officer roles.

The Company's portfolio will continue to be managed by Cameron Robertson.

Apart from the events noted above and the dividend determined on 26 February 2025, no other matter or circumstance has arisen since 31 December 2024 that has significantly affected or may have significant affect the Company's operations, the results of those operations, or the Company's state of affairs in future financial years.

NOTE 9. FAIR VALUE MEASUREMENT*Fair value hierarchy*

AASB 13: *Fair Value Measurement* requires the Company to classify those assets and liabilities measured at fair value through profit or loss, using the following fair value hierarchy model (consistent with the hierarchy model applied to financial assets and liabilities at 30 June 2024):

- Level 1: Quoted prices (unadjusted) in active markets for identical assets or liabilities that the entity can access at the measurement date.
- Level 2: Inputs other than quoted prices included within Level 1 that are observable for the asset or liability, either directly or indirectly.
- Level 3: Unobservable inputs for the asset or liability.

The following table details the Company's assets and liabilities, measured as disclosed at fair value, using the three-level hierarchy model.

Valuation process

The valuation of each investment that the Company holds is the primary responsibility of the Investment Manager. The investment manager's Securities Pricing Committee has authority to review and approve valuation methodologies to be applied to determine the fair values of portfolio securities and other assets held by the Company for which no quoted market price is readily available, and to make recommendations to the Board.

The Securities Pricing Committee also assesses whether an adjustment is required to the quoted market price of any security, if it is considered that the quoted market price is not reasonable (for example securities with a so-called "stale" price). A register is maintained documenting the valuation used and the basis for the valuation of any security or investment that may be manually adjusted or manually priced. The Securities Pricing Committee meets on a quarterly basis, and also on an ad hoc basis as is required.

Fair value of financial instruments not carried at fair value

The carrying value of trade receivables and trade payables are assumed to approximate their fair values.

NOTE 10. INVESTMENT MANAGER FEES

The investment manager receives a monthly management fee for investment services provided in accordance with the investment management agreement (the "Agreement"). The Agreement provides for a management fee payable monthly and calculated at 1.1% (June 2024: 1.1%) per annum of the adjusted portfolio value (which includes cash and deposits and adjusted for any taxes paid/refunded, dividends paid and capital flows).

A performance fee is payable for each financial year ending 30 June equivalent to 15% of the amount by which the portfolio's annual performance exceeds the return achieved by the MSCI (MSCI is the Morgan Stanley Capital International All Country Asia ex Japan Net Index in \$A) for that financial year. Where the portfolio's annual performance is less than the MSCI, the amount of the underperformance is aggregated, carried forward and deducted from the annual performance in the subsequent year before calculating any performance fee for that year. The aggregate underperformance is carried forward until a performance fee becomes payable.

For the 6 months to 31 December 2024, pre-tax performance of the portfolio was positive 10.66%¹ and the corresponding MSCI was 10.04%. This represents an outperformance of 0.62% against the MSCI for the half-year. Taking into account the aggregate underperformance of 9.03% from the prior periods, no performance fee has been accrued. A total aggregate underperformance of 8.41% will need to be made up before a performance fee will be payable.

¹ The figure represents the 6 month return of the "Portfolio Value" (as defined in of the Agreement), which is defined as the aggregate value of each asset or investment of the Company's portfolio. This differs from the Company's 6-month pre-tax NTA return of positive 10.7% referred to in the Directors' Report, which also includes non-portfolio and non-investment related assets and liabilities.

NOTE 10. INVESTMENT MANAGER FEES (CONTINUED)

Management fees paid and payable for the half-year ended 31 December 2024 is shown below:

| | HALF-YEAR ENDED 31 DEC 2024 \$ | HALF-YEAR ENDED 31 DEC 2023 \$ |
|-------------------------|---|---|
| Management fees expense | 2,198,406 | 2,036,244 |
| Management fees paid | 2,164,417 | 2,058,530 |
| Management fees payable | 382,254 | 324,723 |

The Agreement has an initial term of 10 years commencing from 23 July 2015 (“Initial Term”), during which time neither party may terminate the Agreement for convenience. In the event of termination of the Agreement by the Company for convenience after the expiration of the Initial Term, the investment manager will be eligible to receive a 1.1% lump sum termination fee of the adjusted portfolio value (which includes cash and deposits and adjusted for any taxes paid/refunded, dividends paid and capital flows) calculated as at the termination date.

After the expiration of the initial term, each party is required to provide three months’ notice to terminate the Agreement. However, the Company may terminate the Agreement for cause at any time by written notice to the investment manager in certain instances. No termination fee is payable to the investment manager where the agreement is terminated for cause.

Based on our review, which is not an audit, we have not become aware of any matter that makes us believe that the accompanying interim financial report of Platinum Asia Investments Limited does not comply with the *Corporations Act 2001* including:

1. giving a true and fair view of the Company's financial position as at 31 December 2024 and of its performance for the half-year ended on that date
2. complying with Accounting Standard AASB 134 *Interim Financial Reporting* and the *Corporations Regulations 2001*.

Basis for conclusion

We conducted our review in accordance with ASRE 2410 *Review of a Financial Report Performed by the Independent Auditor of the Entity* (ASRE 2410). Our responsibilities are further described in the *Auditor's responsibilities for the review of the interim financial report* section of our report.

We are independent of the Company in accordance with the auditor independence requirements of the *Corporations Act 2001* and the ethical requirements of the Accounting Professional & Ethical Standards Board's APES 110 *Code of Ethics for Professional Accountants (including Independence Standards)* (the Code) that are relevant to the audit of the annual financial report in Australia. We have also fulfilled our other ethical responsibilities in accordance with the Code.

Responsibilities of the directors for the interim financial report

The directors of the Company are responsible for the preparation of the interim financial report, in accordance with Australian Accounting Standards and the *Corporations Act 2001*, including giving a true and fair view, and for such internal control as the directors determine is necessary to enable the preparation of the interim financial report that is free from material misstatement whether due to fraud or error.

Auditor's responsibilities for the review of the interim financial report

Our responsibility is to express a conclusion on the interim financial report based on our review. ASRE 2410 requires us to conclude whether we have become aware of any matter that makes us believe that the interim financial report is not in accordance with the *Corporations Act 2001* including giving a true and fair view of the Company's financial position as at 31 December 2024 and of its performance for the half-year ended on that date, and complying with Accounting Standard AASB 134 *Interim Financial Reporting* and the *Corporations Regulations 2001*.

A review of a interim financial report consists of making enquiries, primarily of persons responsible for financial and accounting matters, and applying analytical and other review procedures. A review is substantially less in scope than an audit conducted in accordance with Australian Auditing Standards and consequently does not enable us to obtain assurance that we would become aware of all significant matters that might be identified in an audit. Accordingly, we do not express an audit opinion.
