Responsible Entity Report

The Directors of Platinum Investment Management Limited (trading as Platinum Asset Management[®]) ABN 25 063 565 006 AFSL 221935, the responsible entity of the Platinum International Fund, the Platinum Global Fund (Long Only), the Platinum Asia Fund, the Platinum European Fund, the Platinum Japan Fund, the Platinum International Brands Fund, the Platinum International Health Care Fund and the Platinum International Technology Fund (collectively referred to as “the registered schemes”) present their report, together with the financial statements, on the registered schemes for the year ended 30 June 2022.

Principal Activities

The principal activity of the registered schemes during the year was the investment of funds internationally into securities of companies, in accordance with the Product Disclosure Statement (“PDS”) and their respective Constitutions.

The registered schemes did not have any employees during the year.

There were no significant changes in the nature of the registered schemes’ activities during the year.

Directors of the Responsible Entity

The Directors of Platinum Investment Management Limited (“PIML”) during the year and up to the date of this report, unless otherwise stated were:

Andrew Clifford
Elizabeth Norman
Andrew Stannard

Significant Changes in the State of Affairs

There were no significant changes to the state of affairs of the registered schemes during the year.

Operating and Financial Review (“OFR”)

The registered schemes have predominantly maintained their individual investment strategies in listed equities, equity and index derivatives and currency contracts.

The Quarterly Investment Manager’s Reports provide further detail on the performance during the year and are available at: www.platinum.com.au.

Operating and Financial Review (“OFR”) (continued)

The performance of the registered schemes, as represented by the results of their operations for the year ended 30 June 2022, were as follows:

	International Fund Year ended		Global Fund (Long Only) Year ended	
	30 June 2022	30 June 2021	30 June 2022	30 June 2021
Net operating profit/(loss) (\$'000)	(491,410)	1,995,098	(35,505)	61,143

The distributions of the registered schemes at 30 June were:

Distribution Paid and Payable (\$'000)	Class C	787,810	247,913	13,470	24,818
Distribution Paid and Payable (\$'000)	Class P	40,414	13,946	555	223
		828,224	261,859	14,025	25,041

Redemption Price – (cum-distribution) (\$)	Class P	0.8932	1.5136	1.3751	1.7003

Matters subsequent to the end of the year

No matter or circumstance has arisen since 30 June 2022 that has significantly affected or may significantly affect:

- (i) the operations of the registered schemes in future years; or
- (ii) the results of those operations in future years; or
- (iii) the states of affairs of the registered schemes in future years.

Likely developments and expected results of operations

The registered schemes will continue to be managed in accordance with the investment objectives and guidelines as set out in the PDS of the registered schemes and in accordance with the provisions of the registered schemes' Constitutions.

The results of the registered schemes' operations will be affected by a number of factors, including the performance of investment markets in which the registered schemes invest. Investment performance is not guaranteed and future returns may differ from past returns. As investment conditions change over time, past returns should not be used to predict future returns.

Indemnification and insurance of officers and auditors

No insurance premiums are paid for out of the assets of the registered schemes with regard to insurance cover provided to either the Investment Manager, Platinum Investment Management Limited, or the Auditor, PricewaterhouseCoopers, of the registered schemes. As long as the officers of the responsible entity act in accordance with the schemes' Constitutions and the Law, they remain fully indemnified out of the assets of the registered schemes against any losses incurred while acting on behalf of the registered schemes. The Auditor of the registered schemes is in no way indemnified out of the assets of the registered schemes.

Fees paid to and interests held in the registered scheme

Fees paid to the responsible entity out of registered schemes' property during the year are disclosed in Note 13 to the financial statements. No fees were paid out of the registered schemes' property directly to the Directors of the responsible entity during the year.

Units on issue

The movements in units on issue in the registered schemes during the year have been disclosed in Note 5 to the financial statements.

Environmental, Social & Governance ("ESG") Reporting

Unitholders are encouraged to read the Investment Manager's Corporate Responsibility and Sustainability Report which is available at <https://www.platinum.com.au/About-Platinum/ptm-shareholders>.

It is noted that the registered schemes are not subject to any significant environmental regulation under Commonwealth, State or Territory laws.

Rounding of amounts to the nearest thousand dollars

The registered schemes are a kind referred to in ASIC Corporations (*Rounding in Financial/Directors' Reports*) Instrument 2016/191, issued by the Australian Securities and Investments Commission, relating to 'rounding-off'. Amounts in this report have been rounded off in accordance with this Instrument to the nearest thousand dollars, or in certain cases, the nearest dollar.

Including different registered schemes' financial reports in a single document

The registered schemes have applied *Australian Securities and Investments Commission's Corporations Instrument 2015/839*, which allows registered schemes with a common responsible entity to include their financial statements in adjacent columns in a single financial report.

Auditor's independence declaration

A copy of the Auditor's Independence Declaration as required under section 307C of the *Corporations Act 2001* is attached on page 7.

This report is made in accordance with a resolution of the Directors.

Andrew Stannard

Director

Sydney

31 August 2022

Auditor's Independence Declaration

As lead auditor for the audit of Platinum International Fund, Platinum Global Fund (Long Only), Platinum Asia Fund, Platinum European Fund, Platinum Japan Fund, Platinum International Brands Fund, Platinum International Health Care Fund and Platinum International Technology Fund for the year ended 30 June 2022, I declare that to the best of my knowledge and belief, there have been:

- (a) no contraventions of the auditor independence requirements of the *Corporations Act 2001* in relation to the audit; and
- (b) no contraventions of any applicable code of professional conduct in relation to the audit.

A handwritten signature in black ink, appearing to read 'CJ Cummins', with a horizontal line extending to the right.

1 General information

This financial report covers Platinum International Fund, Platinum Global Fund (Long Only), Platinum Asia Fund, Platinum European Fund, Platinum Japan Fund, Platinum International Brands Fund, Platinum International Health Care Fund and Platinum International Technology Fund (collectively referred to as “the registered schemes”), as individual entities.

Platinum Investment Management Limited (ABN 25 063 565 006 AFSL 221935) is the responsible entity of the registered schemes. The registered office is Level 8, 7 Macquarie Place, Sydney, NSW 2000.

Registered Scheme	Date of Commencement	Registered Scheme	Date of Commencement
Platinum International Fund	4 April 1995	Platinum Japan Fund	12 June 1998
Platinum Global Fund (Long Only)	19 January 2005	Platinum International Brands Fund	11 April 2000
Platinum Asia Fund	3 March 2003	Platinum International Health Care Fund	5 November 2003
Platinum European Fund	12 June 1998	Platinum International Technology Fund	11 April 2000

Each registered scheme may be wound up on the day immediately preceding the 80th anniversary of the date of commencement, unless terminated earlier in accordance with the provisions of the Constitution.

The financial report was authorised for issue by the Directors of the responsible entity on 31 August 2022. The Directors have the power to amend the financial report after issue.

2 Summary of significant accounting policies

(a) Basis of preparation of the financial statements

These general purpose financial statements have been prepared in accordance with the requirements of the registered schemes’ Constitutions, Australian Accounting Standards and Interpretations issued by the Australian Accounting Standards Board and the *Corporations Act 2001*. Each registered scheme is a for-profit entity for the purpose of preparing the financial report. These policies have been consistently applied unless otherwise stated.

The financial statements have been prepared on a historical cost basis, except for financial assets and liabilities measured at fair value.

The Statements of Financial Position are presented on a liquidity basis. Specifically, assets and liabilities are presented in decreasing order of liquidity and do not distinguish between current and non-current. All balances are expected to be recovered or settled within 12 months, except for financial assets at fair value through profit or loss and net assets attributable to unitholders.

The registered schemes manage financial assets at fair value through profit or loss based on the economic circumstances at any given point in time, as well as to meet any liquidity requirements. As such, it is expected that a portion of the portfolio will be realised within 12 months, however, a precise estimate of that amount cannot be determined as at balance date.

In the case of net assets attributable to unitholders, the units are redeemed on demand at the unitholder’s discretion. However, it is recommended that holders of these instruments typically retain them for the medium to long term. As such, the amount expected to be settled within 12 months cannot be reliably determined.

(i) Compliance with International Financial Reporting Standards

The financial statements of the registered schemes also comply with International Financial Reporting Standards as issued by the International Accounting Standards Board.

2 Summary of significant accounting policies (continued)

(a) Basis of preparation of the financial statements (continued)

(ii) *New and amended accounting standards adopted by the registered scheme*

There are no new standards, interpretations, or amendments to existing standards that are effective for the first time for the financial year beginning 1 July 2021 that have a material impact on the amounts recognised in the prior periods, or will affect the current or future periods.

(iii) *New Accounting Standards and Interpretations not yet mandatory for the 30 Jun 2022 reporting period.*

A number of other new standards, amendments to standards and interpretations are effective for annual periods beginning on or after 1 July 2022 and have not been early adopted in preparing these financial statements. None of these are expected to have a material effect on the financial statements of the registered scheme.

(iv) *Critical accounting judgements, estimates and assumptions*

The preparation of the financial statements requires management to make judgements, estimates and assumptions that affect the reported amounts in the financial statements. Management continually evaluates its judgements and estimates in relation to assets, liabilities, contingent liabilities, revenue and expenses. Management bases its judgements, estimates and assumptions on historical experience and on other various factors, including expectations of future events, which management believes to be reasonable under the circumstances. Areas of judgement include:

- Fair value measurement; and
- Financial assets/liabilities at fair value through profit or loss.

(b) Financial Assets and Liabilities at Fair Value through Profit or Loss

(i) *Recognition*

The registered schemes recognise financial assets and financial liabilities on the date it becomes party to the contractual agreement and recognises changes in the fair value of financial assets or financial liabilities from this date. Investments are derecognised when the contractual right to receive cash flows from the investments have expired or have been transferred, and the registered schemes have transferred substantially all of the risks and rewards of ownership.

(ii) *Measurement*

At initial recognition, the registered schemes measure financial assets and financial liabilities at fair value. Transaction costs of financial assets carried at fair value through profit or loss are expensed in the Statements of Comprehensive Income.

Subsequent to initial recognition, gains and losses arising from changes in the fair value of the 'financial assets or financial liabilities at fair value through profit or loss' category are presented in the Statements of Comprehensive Income within "net (losses)/gains in equities and derivatives at fair value through profit or loss" or "net (losses)/gains on foreign currency forward contracts" in the period in which they arise.

(c) Transaction costs

Initial measurement (cost) on acquisition of trading securities shall not include directly attributable transaction costs, such as fees and commissions paid to agents. Incremental transaction costs on financial assets at fair value through profit or loss are expensed immediately.

2 Summary of significant accounting policies (continued)

(d) Net assets attributable to unitholders

Units are redeemable at the unitholder's option, however applications and redemptions may be suspended by the responsible entity if it is in the best interests of unitholders. The units are classified as financial liabilities as the registered schemes have more than one class of units. A unitholder can redeem units at any time for cash based on the redemption price, which is equal to a proportionate share of the registered schemes' net asset value. The units are carried at the redemption amount that is payable at the end of the reporting period if the unitholders were to exercise their right to redeem the units in the registered schemes.

(e) Foreign currency translation

Items included in the registered schemes' financial statements are measured using the currency of the primary economic environment in which they operate (the "functional currency"). This is the Australian dollar, which reflects the currency of the country that the registered schemes are regulated, funds are raised and distributions are paid. The Australian dollar is also the registered schemes' presentation currency.

Transactions denominated in foreign currencies are translated into Australian currency at the rates of exchange prevailing on the date of the transaction. Foreign currency assets and liabilities for each Statement of Financial Position presented are translated at the closing exchange rates at the date of that Statements of Financial Position. Resulting exchange differences are brought to account in determining profit and loss for the year.

(f) Investment income

(i) Interest Income

Interest income is recognised in the Statements of Comprehensive Income, using the active interest rate available on the bank accounts held at various locations throughout the world.

(ii) Dividend Income

Dividend income is brought to account on the applicable ex-dividend date.

(g) Distributions

Unitholders will be taxed on the income of the Attribution Managed Investment Trusts ('AMIT') 'attributed' to them by the responsible entity.

In accordance with each registered schemes' Constitution, each registered scheme fully distributes any attributable income to unitholders by cash or reinvestment. Attributable income is determined by reference to the taxable income of the registered schemes.

(h) Goods and Services Tax (GST)

The GST paid on the costs of various services provided to the registered schemes, such as Investment Management fees, has been passed onto the registered schemes. Investment Management fees have been recognised in the Statements of Comprehensive Income net of the amount of GST recoverable from the Australian Taxation Office (ATO). GST recoverable from the ATO at reporting date is included in receivables in the Statements of Financial Position. Cash flows relating to GST are included in the Statements of Cash Flows on a gross basis.

(i) Receivables

Receivables include proceeds from the sale of financial assets, dividends, GST, Indian Capital Gains Tax and interest receivable. All receivables are recognised when a right to receive payment is established. Receivables are generally received within 30 days of being recognised as a receivable.

2 Summary of significant accounting policies (continued)

(j) Payables

All payables are recognised as and when the registered schemes become liable.

Amounts due to brokers represent payables for securities purchased that have been contracted for, but not yet delivered by the reporting date. Trades are recorded on trade date. Payables on purchase of investments are usually paid between 2 and 5 days after trade date. Information relating to the registered schemes' exposures of payables to liquidity risk is provided in Note 8.

(k) Applications and redemptions

Applications received for units in the registered schemes are recorded net of any entry fees payable prior to the issue of units in the registered schemes. Redemptions from the registered schemes are recorded gross of any exit fees payable after the cancellation of units redeemed. The redemption price is determined by reference to the net assets of the registered schemes divided by the number of units on issue at or immediately prior to close of business each day. Issues and redemptions of units are processed simultaneously.

(l) Rounding of amounts to the nearest thousand dollars

The registered scheme is of a kind referred to in ASIC Corporations (*Rounding in Financial/Directors' Reports*) Instrument 2016/191, issued by the Australian Securities and Investments Commission, relating to 'rounding-off'. Amounts in these financial statements have been rounded off in accordance with this Instrument to the nearest thousand dollars, or in certain cases, the nearest dollar.

(m) Including different registered schemes' financial reports in a single document

The registered schemes have applied *Australian Securities and Investments Commission's Corporations Instrument 2015/839*, which allows registered schemes with a common responsible entity to include their financial statements in adjacent columns in a single financial report.

(n) Cash and cash equivalents

For the purposes of the Statements of Cash Flows, cash includes deposits held at call with financial institutions, cash held in margin accounts and other short term, highly liquid investments with original maturities of 3 months or less that is readily convertible to known amounts of cash and that are subject to an insignificant risk of changes in value.

Margin accounts comprise cash held as collateral for derivative transactions.

Payments and receipts relating to the purchase and sale of financial assets are classified as "cash flows from operating activities" as realised and unrealised gains (and losses) on financial assets represent the registered schemes' main operating activity.

(o) Offsetting a financial asset and a financial liability

Financial assets and liabilities are offset and the net amount reported in the balance sheet when there is a legally enforceable right to offset the recognised amounts and there is an intention to settle on a net basis, or realise the asset and settle the liability simultaneously.

(p) Income tax

Under current tax legislation, the registered schemes are not subject to income tax as unitholders will have the income of the registered scheme attributed to them.

The registered schemes currently incur withholding taxes imposed by certain countries on foreign dividend income and capital gains. Such income or gains are recorded gross of withholding taxes in the Statements of Comprehensive Income.

3 Auditor's remuneration

During the year the following fees were paid or payable for services provided by PricewaterhouseCoopers Australia (PwC) as the Auditor of the registered schemes and by PwC's related network firms:

Fair value

AASB 13: *Fair Value Measurement* defines fair value as “the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date”. The standard prescribes that the most representative price within the bid-ask spread should be used for valuation purposes. With respect to the Company, the exit or “last” price is the most representative price within the bid-ask spread, because it represents the price that the security last changed hands from seller to buyer. The Company has applied last-sale pricing as the fair value measurement basis for equities and derivatives it holds.

The fair value of financial assets and liabilities traded in active markets uses quoted market prices at reporting date without any deduction for estimated future selling costs.

The fair value of financial assets and liabilities that are not traded in an active market is determined using valuation techniques. These include the use of recent arm’s length market transactions, discounted cash flow techniques, capitalisation of revenue methodology or any other valuation techniques that provide a reliable estimate of prices obtained in actual market transactions. Options are valued with reference to the quoted price of the underlying index or share. If there is no liquid market available, options are valued based on option prices provided by an arm’s length broker. These valuations are based on option pricing models.

Participatory Notes (“Pnotes”) are sometimes used as a convenient means of investing in local securities by a foreign investor. Participatory Notes are generally traded over-the-counter, as they are issued by a counterparty to provide the investor with exposure to an individual equity, basket of equities or an index, in markets where liquidity, custody or other issues make ownership of the local securities sub-optimal. The valuation of Participatory Notes depends on the level of trading. If the Participatory Notes are actively traded, then the market price is used. If the Participatory Notes are not actively traded, counterparties provide a daily valuation that is based on the intrinsic value of the individual security.

5 Net assets attributable to unitholders

Movements in number of units and net assets attributable to unitholders during the year were as follows:

9 Financial risk management

(a) Financial Risk Management Objectives, Policies and Processes

In pursuing its investment objectives, the registered schemes are exposed to a variety of financial risks: market risk (including interest rate risk, foreign exchange risk and price risk), credit risk and liquidity risk. The management of these risks is carried out by the investment manager under policies approved by the Board of Directors of the responsible entity. The overall risk management program focuses on the unpredictability of financial markets and seeks to minimize potential adverse effects on the schemes' financial performance.

9 Financial risk management (continued)

(a) Financial Risk Management Objectives, Policies and Processes (continued)

The schemes use different methods to measure different types of risk to which it is exposed. These methods are explained below.

The responsible entity's investment style:

- adopts a bottom-up stock selection methodology such that long-term capital growth is sought through investing in undervalued securities across the world;
- seeks absolute returns and not returns relative to any index;
- invests excess funds in cash when undervalued stocks cannot be found; and
- actively manages currency.

The registered schemes use financial derivative instruments (both Over-the-Counter ("OTC") derivatives and exchange traded derivatives) for risk management purposes and to take opportunities to increase returns, including, for example:

- to gain access to markets not readily available to foreign investors;
- to create a short position in a registered scheme;
- to build a position in a registered scheme as a short-term strategy to be reversed when physical positions are purchased; and
- to aid in the management of the registered schemes' cash flows (e.g. some stock markets require pre-funding of stock purchases that may be avoided through the use of derivatives).

The underlying value of derivatives held by a registered scheme may not exceed 100% of the net asset value of that scheme. The underlying value of long stocks and derivative contracts may not exceed 150% of the net asset value of that scheme. Each of the registered schemes complied with its product disclosure statement during the year and as at 30 June 2022.

(c) Market Risk

(i) Foreign Exchange Risk

Foreign exchange risk is the risk the fair value or future cash flows of financial instruments will fluctuate due to changes in foreign exchange rates.

The registered schemes operate internationally and are exposed to foreign exchange risk arising from buying, selling and holding investments denominated in foreign currency. Currency hedging is an integral part of the management of currency risk. The Investment Manager positions a registered scheme's portfolio in what it believes will be a stronger currencies.

The Investment Manager may use forward foreign exchange contracts and futures and option contracts on foreign exchange rate contracts to position a registered scheme's portfolio in the desired currencies. A currency exposure may be weighted using a different currency from which the exposure is maintained (for example, US Dollar positions may be used to weight the currency risk of holding investments in Hong Kong Dollars).

9 Financial risk management (continued)

(c) Market Risk (continued)

(i) Foreign Exchange Risk (continued)

In respect of the Platinum Global Fund (Long Only), there is no currency management undertaken. The disposition of its investments determines its currency exposure.

The tables below summarise the registered schemes' exposures to foreign exchange risk:

(ii) Interest Rate Risk

Interest rate risk is the possibility the fair value or future cash flows of financial instruments will fluctuate because of changes in market interest rates.

The overwhelming majority of the registered schemes's financial assets and liabilities are non-interest bearing. The registered schemes have a policy of not borrowing money, other than for settlement of trades. Therefore, there is no liability exposure to interest rate risk.

Interest rate risk indirectly affects the registered schemes because interest rate movements will affect forward points used in determining gains or losses on forward contracts.

At 30 June 2022 and 2021, if interest rates had changed by +/- 100 basis points with all other variables held constant, the direct impact on interest income would not be significant for any of the registered schemes.

(iii) Price Risk

Market prices fluctuate due to a range of factors specific to the individual investments or factors affecting the market in general.

Platinum Asset Management's stock selection process is core to the management of price risk. Moreover, whilst we use the MSCI indices to measure relative performance, risk in our view is not solely relative performance versus a benchmark - but also the prospect of losing money (i.e. absolute returns). Platinum adopts a thematic stock selection approach and is referred to as an "active manager". Platinum seeks a broad range of investments whose business and growth prospects are being undervalued by the market. Accordingly, holdings in each of the registered schemes vary considerably from the make-up of the index. Active fund managers such as Platinum seek to outperform the market as represented by an appropriate index.

9 Financial risk management (continued)

(c) Market Risk (continued)

(iii) Price Risk (continued)

In addition, the registered schemes (other than Platinum Global Fund (Long Only)) may enter into short equity swaps and futures to protect against market movements. At 30 June 2022, some of the registered schemes maintained short positions against various company specific stocks and market indices. The use of index derivatives allows a Fund to invest in particular companies, whilst providing some degree of protection against more general adverse market price movements.

(iv) Summarised Sensitivity Analysis

The table below summarises the sensitivities of the registered schemes' profit to price risk and foreign exchange risk. Price risk exposure arises from the registered schemes' investment portfolio, which comprises investments in securities and derivatives. The below analysis is based on net positions. Foreign exchange risk exposure arises from volatility in both the Australian dollar and other currencies. The effect on profit due to a possible change in market prices, as represented by a +/-10% movement in these markets with all other variables held constant, is illustrated in the table below.

A sensitivity of 10% has been selected as this is considered reasonably possible given current exchange rates and the volatility observed both on a historic basis and after factoring in possible future movements.

9 Financial risk management (continued)

(d) Credit Risk

Credit risk relates to the risk of a counterparty defaulting on a financial obligation resulting in a loss to a registered scheme (typically "non-equity" financial instruments or cash/deposit holdings).

The exposure to credit risk for futures, equity swaps, and forward currency contracts is any unrealised profit, margins and collateral paid on the positions (the money a registered scheme would lose if the counterparty defaulted) at reporting date.

The table below shows the registered schemes' counterparty credit risk exposure by credit rating.

Rating	International Fund		Global Fund (Long Only)

9 Financial risk management (continued)

(d) Credit Risk (continued)

The Investment Manager regularly monitors the registered schemes' credit risk exposures to counterparties and seeks to manage the risk by spreading exposure over a number of counterparties, by signing standard International Swaps and Derivatives Association ("ISDA") master agreements, employing two-way symmetrical margining of unrealised profits and losses and by controlling the duration of contracts to be short-term.

Transactions in listed securities and investments are only entered into with approved brokers. Payment is only made once a broker has received securities and delivery of securities sold only occurs once the broker receives payment.

9 Financial risk management (continued)

(e) Liquidity Risk

The registered schemes are exposed to cash redemptions of redeemable units. They hold equities that are traded on active markets and, if necessary, these can be readily disposed.

Contractual maturity analysis

Except for short equity swaps and futures, the maximum capital risk resulting from financial instruments is determined by the fair value of financial instruments. Potential losses from equity swaps and futures are limited to available capital.

The registered schemes are exposed to daily cash redemptions. If necessary, investments may be realised to cover these redemptions as they are generally readily convertible to cash. The risk management guidelines adopted are designed to minimise liquidity risk through:

- ensuring that there is no significant exposure to illiquid or thinly traded financial instruments; and
- applying limits to ensure there is no concentration of liquidity risk to a particular counterparty or market.

The registered schemes prepare daily cash forecasts and maintain sufficient cash to meet normal operating requirements. The registered schemes have a policy of not borrowing money, other than on a short-term basis for settlement, trading and like purposes.

(i) Non-derivative financial instruments

The amounts below represent the contractual maturity of non-derivative financial instruments. Note that net assets attributable to unitholders are payable on demand and included below as units are redeemed at the unitholder's option. These are only included in the maturity analysis below because, under Australian Accounting Standards, unitholders' equity is classified as a liability. For management purposes, net assets attributable to unitholders are not an operating liability.

At 30 June 2022 and 2021, there are no other contractual amounts due or payable after 3 months.

(f) Capital Risk Management

The responsible entity manages the registered schemes' net assets attributable to unitholders as capital, notwithstanding net assets attributable to unitholders are classified as a liability. The amount of net assets attributable to unitholders can change on a daily basis as the registered schemes are subject to daily applications and redemptions at the discretion of unitholders.

10 Offsetting financial assets and financial liabilities

Financial assets and liabilities are offset and the net amount reported in the statement of financial position when there is a legally enforceable right to offset the recognised amounts and there is an intention to settle on a net basis or realise the asset and settle the liability simultaneously. The gross and net positions of financial assets and liabilities that have been offset in the statement of financial position are disclosed in the first three columns of the tables below.

10 Offsetting financial assets and financial liabilities (continued)

(i) Master netting arrangement – not currently enforceable

Agreements with derivative counterparties are based on the ISDA Master Agreement. Under the terms of these arrangements, only where certain credit events occur (such as default), the net position owing/receivable to a single counterparty in the same currency will be taken as owing and all the relevant arrangements terminated. As the registered scheme does not presently have a legally enforceable right of set-off, these amounts have not been offset in the statement of financial position, but have been presented separately in the above table.

11 Fair value measurement

AASB 13 *Fair Value Measurement* requires the registered schemes to classify their assets and liabilities held at fair value based on the following fair value hierarchy model:

- a) quoted prices (unadjusted) in active markets for identical assets or liabilities (level 1);
- b) inputs other than quoted prices included within level 1 that are observable for the asset or liability either directly (as prices) or indirectly (derived from prices) (level 2); and
- c) inputs for the assets or liabilities that are not based on observable market data (unobservable inputs) (level 3).

The registered schemes measure and recognise the following assets and liabilities at fair value, pursuant to AASB 13, on a recurring basis:

- equity securities, long equity swaps and long futures;
- corporate bonds;
- short equity swaps and short futures; and
- forward currency contracts.

The tables on the following 3 pages analyse within the fair value hierarchy model, the registered schemes' assets and liabilities measured at fair value at 30 June 2022 and 30 June 2021. With the exception of Platinum European Fund and Platinum International Health Care Fund, none of the registered schemes held assets or liabilities classified as level 3 as of the respective reporting dates.

The registered schemes' policy is to recognise transfers into and transfers out of fair value hierarchy levels as at the end of the reporting year.

11 Fair value measurement (continued)

Fair value measurement of assets that are not based on observable market data (level 3)

(j) PEF's unlisted securities

At 30 June 2022, Platinum European Fund ('PEF') has one unlisted security classified as a level 3 asset (Bit Bio). Bit Bio is a private company and the capital that PEF invested contributed to research and development.

A summary of the level 3 securities held at balance date are as follows:

Name of security	Level 3 fair value at 30 June 2022 (\$'000)	Level 3 fair value at 30 June 2021 (\$'000)	Basis of valuation
Bit Bio	1,745	-	During the period, on 30 December 2021, PEF acquired securities in a UK based private biomedical research company specializing in human synthetic biology. The security has been valued at fair value using its recent acquisition price.
Total	<u>1,745</u>	<u>-</u>	

Level 3 unlisted securities represent approximately 0.5% (30 June 2021: nil%) of PEF's net assets at 30 June 2022.

A summary of the movement in level 3 securities, for PEF, for the period ended 30 June 2022 is outlined below:

	30 June 2022 Level 3 \$'000	30 June 2021 Level 3 \$'000
Opening balance	-	-
Purchases	1,655	-
Sales	-	-
Transfers from level 3 to level 1	-	-
Gains and losses recognised in profit or loss*	<u>90</u>	<u>-</u>
Closing balance	<u>1,745</u>	<u>-</u>
*includes unrealised gains or (losses) recognised in profit or loss attributable to balances held at the end of the reporting period	<u>90</u>	<u>-</u>

11 Fair value measurement (continued)

(i) PEF's unlisted securities (continued)

(a) Valuation inputs and relationship to fair value

The following table summarises the quantitative information about the unobservable inputs used in level 3 fair value measurements:

Description	Best estimate of fair value at 30 June 2022	Key unobservable inputs	Relationship of unobservable inputs to fair value
Unlisted securities	\$1,744,996 (30 June 2021: \$0)	The values of these unobservable inputs are as follows: Bit Bio – Value estimated at A\$168.95 per share based on purchase price in June 2022.	Bit Bio: N/A - Recent transaction/acquisition price.

(ii) PIBF's Zimbabwean security

As at 30 June 2022, the registered scheme held A\$2,065,000 in Zimbabwean securities, which constituted approximately 0.45% (2021: 0.28%) of PIBF's total fair value of investments at 30 June 2022. At 30 June 2021, the Zimbabwean securities were classified as Level 3 as a result of an unobservable adjustment to the ZWL price quoted on the Zimbabwe stock exchange, in order to derive or translate the local currency fair value into Australian Dollars. Following an announcement by the Reserve Bank of Zimbabwe in May 2022 to change the official published rate to reflect the interbank borrowing rate instead of the rate realised through weekly ZML currency auctions, the investment manager removed the adjustment, and adopted the daily reported rate as the rate used to derive its fair value as denominated in Australian Dollars. Consequently, the Zimbabwean securities were transferred to Level 1 at 30 June 2022.

Below is a table showing the Level 3 fair value movement and transfer from Level 3 to Level 1 during the year.

	30 June 2022 Level 3 \$'000	30 June 2021 Level 3 \$'000
Opening balance	1,828	1,208
Purchases	-	-
Sales	(71)	(170)
Transfers from level 3 to level 1	(2,065)	-
Gains and losses recognised in profit or loss*	308	790
Closing balance	-	1,828
*includes unrealised gains or (losses) recognised in profit or loss attributable to balances held at the end of the reporting period	368	1,446

(iii) PIHF's unlisted securities

At 30 June 2022, Platinum International Health Care Fund ('PIHF') has four unlisted securities classified as a level 3 asset (SpeeDx, FirstPharma, HaemaLogiX and Bit Bio). All of these securities are private companies and the capital that PIHF invested contributed to research and development.

11 Fair value measurement (continued)

(iii) PIHF's unlisted securities (continued)

A summary of the level 3 securities held at balance date are as follows:

Name of security	Level 3 fair value at 30 June 2022 (\$'000)	Level 3 fair value at 30 June 2021 (\$'000)	Basis of valuation
Speedx	30,356	30,356	This security is an Australian based private company. The security has been valued at A\$20.00 per share based on capitalisation of revenue approach, which calibrates to a third party capital transaction which occurred in May 2021.
FirstPharma	109	75	This security is an Australian based private company. The decrease in value between the current and comparative period is related to the fact that during the current period, the security has been valued at A\$ 0.49 per share based on market approach using comparable trading multiples.
HaemaLogiX	3,000	-	- During the period, on 26 August 2021, PIHF acquired securities in an Australian based biotech company specializing in treatment of haematological (blood) cancer. The security has been valued at fair value using its recent acquisition price.
Bit Bio	6,253	-	- During the period, on 30 December 2021, PIHF acquired securities in a UK based private biomedical research company specializing in human synthetic biology. The security has been valued at fair value using its recent acquisition price.
Total	<u>39,718</u>	<u>30,431</u>	

Taken together, level 3 unlisted securities represent approximately 9.2% (30 June 2021: 5.3%) of PIHF's net assets at 30 June 2022.

A summary of the movement in level 3 securities, for PIHF, for the period ended 30 June 2022 is outlined below:

	30 June 2022 Level 3 \$'000	30 June 2021 Level 3 \$'000
Opening balance	30,431	17,295
Purchases	9,078	-
Sales	-	-
Transfers from level 3 to level 1	-	-
Gains and losses recognised in profit or loss*	<u>209</u>	<u>13,136</u>
Closing balance	<u>39,718</u>	<u>30,431</u>
*includes unrealised gains or (losses) recognised in profit or loss attributable to balances held at the end of the reporting period	<u>209</u>	<u>13,136</u>

11 Fair value measurement (continued)

(iii) PIHF's unlisted securities (continued)

(a) Valuation inputs and relationship to fair value

The following table summarises the quantitative information about the unobservable inputs used in level 3 fair value measurements:

Description	Best estimate of fair value at 30 June 2022	Key unobservable inputs	Relationship of unobservable inputs to fair value
Unlisted securities	\$39,717,766 (30 June 2021: \$30,430,800)	<p>The values of these unobservable inputs are as follows:</p> <p>Speedx - Value estimated at \$20.00 per share based on capitalisation of revenue approach using an estimate of future maintainable revenue and a comparable multiple of 7x.</p> <p>First Pharma - Value estimated at \$0.49 per share based on a market approach using a comparable multiple of 11.7x.</p> <p>HaemaLogiX – Value estimated at \$A11.60 per share based on purchase price in August 2021.</p> <p>Bit Bio – Value estimated at \$A168.95 per share based on purchase price in December 2021.</p>	<p>Speedx: If the multiple were to increase/decrease by 1.0 the fair value increase/decrease would be \$4,337,000. If future maintainable revenue increased or decreased by 35% the fair value would increase/decrease by \$10,625,000.</p> <p>First Pharma: If the multiple were to increase/decrease by 1.0 the fair value increase/decrease would be \$9,000.</p> <p>HaemaLogiX: N/A - Recent transaction/acquisition price.</p> <p>Bit Bio: N/A - Recent transaction/acquisition price.</p>

(b) Valuation processes

The valuation of each investment that the registered schemes hold is the primary responsibility of the Investment Manager (“PIML”). The Board of PIML has set up a Securities Pricing Committee, which has authority to review and approve valuation methodologies to be applied to determine the fair values of portfolio securities and other assets held by the registered schemes for which no quoted market price is readily available.

The Committee also assesses if an adjustment is required to the quoted market price of any security, if it is considered that the quoted market price is not reasonable (for example securities with a so-called “stale” price). A register is maintained documenting the valuation used and the basis for the valuation of any security or investment that may be manually adjusted or manually priced.

The Securities Pricing Committee meets on a quarterly basis, and as required.

Valuation techniques used to classify assets and liabilities as level 1

Nearly all of the equity securities held by the registered scheme are valued using quoted prices in active markets, with the exception of P-Notes as listed below and level 3 investments. Accordingly, nearly all equity securities are classified as Level 1 in the fair-value hierarchy model.

11 Fair value measurement (continued)

Valuation techniques used to classify assets and liabilities as level 2

There are some financial instruments that have been classified as level 2, because there is a degree of adjustment made to the quoted price i.e., whilst all significant inputs required for fair value measurement are observable and quoted on an active market, there is a degree of estimation or adjustment involved in deriving the fair value. Examples include:

- Foreign exchange contracts are classified as level 2, even though forward points are quoted in an active and liquid market. The forward points themselves are based on interest rate differentials;
- P-Notes are classified as level 2, because they are traded over-the counter and are often priced in a different currency to the underlying security;
- Over-The Counter (“OTC”) derivatives/options may be classified as level 2 because either (i) the contract itself is not listed and therefore there is no directly observable market price; or (ii) the price is sourced from the relevant counterparty, even though the price (and in the case of options, the relevant delta) can be verified from either Bloomberg or other option pricing models.
- Certain index derivatives are classified as level 2, because the registered schemes may agree with the counterparty to include or exclude one or more securities that make up the “basket” of securities that comprise the index derivative. Hence, the quoted price of the index derivative would be very similar, but not identical, to the index derivative that the registered schemes hold; and
- OTC equity swap contracts are classified as level 2 because the swap contract itself is not listed and does not have an observable market price. However, the underlying security referred to in each swap contract has a directly observable quoted price in an active market.

12 Key management personnel disclosures

AASB 124: *Related Party Disclosures* defines key management personnel as “persons having authority and responsibility for planning, directing and controlling activities of the entity”. The only employees that have this authority and responsibility are the Directors of Platinum Investment Management Limited.

Key management personnel (“KMP”)

The following persons were key management personnel of Platinum Investment Management Limited during the financial year up to 30 June 2022:

Andrew Clifford
Elizabeth Norman
Andrew Stannard

There are no other key management personnel within Platinum Investment Management Limited.

Transactions with key management personnel

Key management personnel services are provided by Platinum Investment Management Limited and included in the responsible entity fees below. There was no compensation paid directly by the registered schemes to any of the key management personnel.

Service Agreements

The Directors do not have service agreements as they are employees of Platinum Investment Management Limited.

13 Related parties

Responsible Entity

Platinum Investment Management Limited ABN 25 063 565 006 AFSL 221935 is the responsible entity of the registered schemes.

Responsible Entity Fees

Fees paid by the registered schemes include management fees (calculated at 1.35% per annum (2021: 1.35%)) exclusive of GST for C Class investors of the registered schemes' net asset value and payable monthly; 1.1% per annum (2021: 1.1%) exclusive of GST for P Class investors of the registered schemes' net asset value and payable monthly) and performance fees (calculated at 15% exclusive of GST of the amount by which the registered schemes' return per unit (after the deduction of investment management fees and excluding any accrued performance fees) exceeds the unitised return of the registered schemes' nominated benchmark and is payable semi-annually). The fees, exclusive of GST, are as follows:

14 Cash and cash equivalents

For the purpose of the Statements of Cash Flows, cash and cash equivalents includes cash on hand, deposits held at call with financial institutions, cash held as collateral in margin accounts by derivatives clearing houses and counterparties, and other short-term, highly liquid investments with original maturities of three months or less that are readily convertible to known amounts of cash which are subject to an insignificant risk of changes in value.

Payments and receipts relating to the purchase and sale of investment securities are classified as “cash flows from operating activities” as realised and unrealised gains (and losses) on financial assets and liabilities represent the Company’s main operating activity.

Cash on deposit is held on deposit to 'cash cover' derivative contracts' deposits and margin calls. These amounts are held by the relevant derivative exchanges and counterparties as security. If losses are realised, the cash balances are set off against those losses. If profits are realised on the close out of derivative contracts, the money is returned to the registered schemes.

14 Cash and cash equivalents (continued)

(a) Reconciliation of Cash (continued)

The registered schemes maintain bank accounts at various locations throughout the world to enable the settlement of purchases and sales of investments and to conduct other normal banking transactions. All accounts are at call and the majority bears floating interest rates in the range of -1.75% to 0.35%. Information in relation to the registered schemes' exposures to interest rate risk is provided in Note 9.

15 Events occurring after the statements of financial position date

No significant events have occurred since Statements of Financial Position date that would impact the financial position of the registered schemes as at 30 June 2022 and the results of the year ended on that date.

16 Contingent assets, liabilities and commitments

The registered schemes have no contingent assets, liabilities or commitments as at 30 June 2022 or 30 June 2021.

In the opinion of the directors of the responsible entity of:

Platinum International Fund
Platinum Global Fund (Long Only)
Platinum Asia Fund
Platinum European Fund
Platinum Japan Fund
Platinum International Brands Fund
Platinum International Health Care Fund
Platinum International Technology Fund (together the 'registered schemes');

- (a) the financial statements and notes set out on pages 8 to 87 are in accordance with the *Corporations Act 2001*, including:
 - (i) complying with Accounting Standards, the *Corporations Act 2001* and other mandatory professional reporting requirements;
 - (ii) giving a true and fair view of the registered schemes' financial position as at 30 June 2022 and of its performance for the financial year ended on that date, and
- (b) there are reasonable grounds to believe that the registered schemes will be able to pay its debts as and when they become due and payable.
- (c) Note 2 (a) confirms that the financial statements comply with International Financial Reporting Standards as issued by the International Accounting Standards Board.

This declaration is made in accordance with a resolution of the directors.

Andrew Stannard

Director

Sydney

Independent auditor's report

To the unitholders of Platinum International Fund, Platinum Global Fund (Long Only), Platinum Asia Fund, Platinum European Fund, Platinum Japan Fund, Platinum International Brands Fund, Platinum International Health Care Fund and Platinum International Technology Fund

Our opinion

In our opinion:

The accompanying financial report of Platinum International Fund, Platinum Global Fund (Long Only), Platinum Asia Fund, Platinum European Fund, Platinum Japan Fund, Platinum International Brands Fund, Platinum International Health Care Fund and Platinum International Technology Fund (the Registered Schemes) is in accordance with the *Corporations Act 2001*, including:

- (a) giving a true and fair view of the Registered Schemes' financial position as at 30 June 2022 and of their financial performance for the year then ended
- (b) complying with Australian Accounting Standards and the *Corporations Regulations 2001*.

What we have audited

The financial report comprises:

- the statements of financial position as at 30 June 2022
- the statements of comprehensive income for the year then ended
- the statements of changes in equity for the year then ended
- the statements of cash flows for the year then ended
- the notes to the financial statements, which include significant accounting policies and other explanatory information
- the directors' declaration.

Basis for opinion

We conducted our audit in accordance with Australian Auditing Standards. Our responsibilities under those standards are further described in the *Auditor's responsibilities for the audit of the financial report* section of our report.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

Independence

We are independent of the Registered Scheme in accordance with the auditor independence requirements of the *Corporations Act 2001* and the ethical requirements of the Accounting Professional & Ethical Standards Board's APES 110 *Code of Ethics for Professional Accountants (including Independence Standards)* (the Code) that are relevant to our audit of the financial report in Australia. We have also fulfilled our other ethical responsibilities in accordance with the Code.

Other information

The directors of Platinum Investment Management Limited (the Responsible Entity) are responsible for the other information. The other information comprises the information included in the annual report for the year ended 30 June 2022, but does not include the financial report and our auditor's report thereon.

Our opinion on the financial report does not cover the other information and accordingly we do not express any form of assurance conclusion thereon.

In connection with our audit of the financial report, our responsibility is to read the other information and, in doing so, consider whether the other information is materially inconsistent with the financial report or our knowledge obtained in the audit, or otherwise appears to be materially misstated.

If, based on the work we have performed on the other information that we obtained prior to the date of this auditor's report, we conclude that there is a material misstatement of this other information, we are required to report that fact. We have nothing to report in this regard.

Responsibilities of the directors of the Responsible Entity for the financial report

The directors of the Responsible Entity are responsible for the preparation of the financial report that gives a true and fair view in accordance with Australian Accounting Standards and the *Corporations Act 2001* and for such internal control as the directors of the Responsible Entity determines is necessary to enable the preparation of the financial report that gives a true and fair view and is free from material misstatement, whether due to fraud or error.

In preparing the financial report, the directors of the Responsible Entity are responsible for assessing the ability of the Registered Scheme to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless the directors of the Responsible Entity either intends to liquidate the Registered Scheme or to cease operations, or have no realistic alternative but to do so.

Auditor's responsibilities for the audit of the financial report

Our objectives are to obtain reasonable assurance about whether the financial report as a whole is free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with the Australian Auditing Standards will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of the financial report.

A further description of our responsibilities for the audit of the financial report is located at the Auditing and Assurance Standards Board website at: http://www.auasb.gov.au/auditors_responsibilities/ar4.pdf. This description forms part of our auditor's report.
