To the extent permitted by law, no liability is accepted by Platinum for any loss or damage as a result of any reliance on this information. 1. & 2. Source: Platinum for Fund returns and Factset Research Systems for MSCI returns. Investment returns are calculated using the Fund's NAV unit price (i.e. exclude a buy/sell spread) and represent the combined income and capital returns for the Fund in the specified period. All returns are pre-tax, net of fees and costs and assume the reinvestment of distributions. The returns are calculated relative to the MSCI All Country World Net Index in A\$. The investment returns depicted in the graph are cumulative on AS20,000 invested in the Fund since the inception date. **Past performance is not a reliable indicator of future returns**. It should be noted that Platinum does not invest by reference to the weightings of the index. The index is provided as a reference only. 3. The "Long %" and "Net %" both represent the exposure to long securities and long securities, cash, forwards and long securities/index derivative positions. For the "Industry breakdown", index positions (whether through DETE or divisitive) are available indicator of the under the repositions (whether through DETE or divisitive) are available indicator of the positions. For the "Industry breakdown", index positions (whether through DETE or derivative positions) are available indicator of the positions. For the "Industry breakdown", index positions (whether through DETE or derivative) are available indicator of the positions (whether through DETE or derivative) are available indicator of the positions. For the "Industry breakdown", index positions (whether through DETE or derivative) are available indicator of the positions (whether through DETE or derivative) areactive and available indicator of the positions

through ETFs or derivatives) are only included under the relevant sector if they are sector specific, otherwise they are included under "Other".

3. and 4. Country classifications for securities reflect Bloomberg's "country of risk" designations, and currency classifications for securities reflect the relevant local currencies of our country classifications.

4. The "Top ten positions" show the Fund's top ten long securities positions as a percentage of the market value of the Fund's portfolio (including long securities and long securities derivative positions).
