^{1,2} Source: Platinum for Fund returns and Factset Research Systems for MSCI returns. Investment returns are calculated using the Fund's NAV unit price (i.e. exclude a buy/sell spread) for C Class and P Class (as indicated), and represent the combined income and capital returns for each of these unit classes in the specified period. All returns are pre-tax, net of fees and costs and assume the reinvestment of distributions. Returns for P Class are net of any accrued investment performance fee. The returns are calculated relative to the MSCI All Country World Net Index in A\$. Since inception date for C Class is 28/01/05 and for P Class is 03/07/17. Since inception date of C Class has been used for the purposes of calculating since inception returns of the index. The investment returns depicted in the graph are cumulative on A\$20,000 invested in C Class units in the Fund since the C Class inception date. **Past performance is not a reliable indicator of future returns.** Platinum does not invest by reference to the weightings of the index. The index is provided as a reference only.

^{3,5} The "Long %" and "Net %" both represent the exposure to long securities and long securities/index derivative positions as a percentage of the market value of the Fund's portfolio. The "Currency %" is the effective currency exposure as a percentage of the market value of the Fund's portfolio taking into account long and short securities, cash, forwards and long and short securities/index derivative positions. For the "Industry breakdown", index positions (whether through ETFs or derivatives) are only included under the relevant sector if they are sector specific, otherwise they are included under "Other".

^{4,6} Country classifications for securities reflect Bloomberg's "country of risk" designations, and currency classifications for securities reflect the relevant local currencies of our country classifications.

⁷ The "Top ten positions" show the Fund's top ten long securities positions as a percentage of the market value of the Fund's portfolio (including long securities and long securities derivative positions). Position counts represent aggregated securities holdings, obtained through both direct securities holdings and indirect securities holdings via equity derivatives.
