For the Half-Year Ended 31 December 2011

1. Summary Of Significant Accounting Policies

This general purpose financial report for the interim half-year reporting period ended 31 December 2011 has been prepared in accordance with AASB 134: *Interim Financial Reporting*, other mandatory professional reporting requirements and the *Corporations Act 2001*. Compliance with AASB 134 ensures compliance with International Financial Reporting Standard IAS 34: *Interim Financial Reporting*.

The interim financial report does not include all the notes of the type normally included in the annual financial report. Accordingly, this report is to be read in conjunction with the annual report for the year ended 30 June 2011 and any public announcements made in respect of Platinum Capital Limited during the interim reporting period in accordance with the continuous disclosure requirements of the *Corporations Act 2001*.

The accounting policies adopted are consistent with those of the previous financial year and corresponding interim reporting period. Comparative information has been reclassified, where appropriate, to enhance comparability.

New Accounting Standards and Interpretations

Certain new accounting standards and interpretations have been published that are not mandatory for the 31 December 2011 reporting period. The accounting standard of relevance to the Company is summarised below, together with the Company's assessment of its impact.

AASB 13 Fair Value Measurement and AASB 2011-8 Amendments to Australian Accounting Standards arising from AASB 13 (effective 1 January 2013)

AASB 13 was released in September 2011. It explains ways to measure fair value and aims to enhance fair value disclosures. The Company has yet to determine if any of its current measurement techniques will have to change as a result of the new guidance. It is therefore not possible to state the precise impact, if any, of the new rules on any of the amounts recognised in the financial statements. However, application of the new standard will impact the type of information disclosed in the notes to the financial statements. The Company does not intend to adopt the new standard before its operative date, which means that it will be first applied in the annual reporting period ending 30 June 2014.

2. Recognition of Deferred Tax Assets

In line with our existing accounting policy, the Company exercises judgement in determining the extent of recognition of deferred tax assets, in relation to unrealised tax losses and whether future realised taxable profits are expected to be sufficient, to allow recovery of these losses. At 31 December 2011, deferred tax assets of \$8,160,954 (31 December 2010: \$nil) arising from unrealised investment losses have not been brought to account.

8. Investment Manager

The Investment Manager, Platinum Investment Management Limited, receives a monthly Management fee for investment services provided in accordance with the Investment Management Agreement. This Agreement provides for a Management fee payable monthly and calculated at 1.5% per annum of the Portfolio Value (that included cash and deposits).

A Performance fee is payable at 10%, if at 30 June 2012, the amount by which the Portfolio's annual performance exceeds the return achieved by the MSCI plus 5% (MSCI is the Morgan Stanley Capital International All Country World Net Index in A\$). Where the Portfolio's annual performance is less than the MSCI, the amount of the underperformance is aggregated, carried forward and deducted from the annual performance in the subsequent year before calculating any Performance fee for that year. The aggregate of underperformance is carried forward until a Performance fee becomes payable.

At 31 December 2011, the half-year pre-tax performance of the portfolio was negative 11.21% and the corresponding MSCI was negative 7.57%. This represents an underperformance of 3.64% against the MSCI. Accordingly, a Performance fee has not been accrued.

The Investment Manager is to be paid a lump sum termination fee of 1.5%, calculated on the value of the Portfolio on the first day of the month in which termination is effective. The fee is not payable if the termination results from the default or insolvency of the Investment Manager. Additionally, a Performance fee is payable for the period from the last calculation of the Performance fee (as described above) to the date of termination.

Fees paid and payable for the half-year is shown in the table below:

| | Half-Year | | |
|--|-----------------------|-----------------------|--|

| Amounts paid and accrued for the half-year | 1,345 | 1,562 | |

9. Contingent Liabilities and Commitments for Expenditure

No contingent liabilities exist as at 31 December 2011.

The Company has no commitments for uncalled share capital on investments.

10. Segment Information

The Company is organised into one main operating segment with only one key function, being the investment of funds internationally.

11. Events occurring after reporting date

No other significant events have occurred since reporting date that would impact the Balance Sheet of the Company as at 31 December 2011 and the results for the half-year ended on that date.
